

SESSION NO 701st

BOARD OF EXAMINERS FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS

The scheduled meeting of July 21, 2009, was held at the Board Office, 165 Capitol Avenue, Room 117 in the State Office Building, Hartford, Connecticut.

Anthony L D'Andrea, Chairman called the meeting to order at 10:10 am after a presentation from the Department of Transportation.

Attending the meeting were: John DeWolf (1) PE, John Hallisey (2) PE, Terry McCarthy (3) PE, Anthony L D'Andrea (4) PELS, Robert L Doane (5) PELS, Al Regina (7) PM and Rocco V Laraia (8) PM, William O Giel (10) LS, Curtiss B Smith (11) LS and Robert W Grossenbacher (12) LS.

Absent was T Mark Barbieri (9) PM

One vacancy

Also present were Assistant Attorney General Peter Huntsman, Steven Schwane, attorney for the Department of Consumer Protection and Barbara Syp-Maziarz, Board Administrator.

Guests: William Pratt, James Fallon, Jason Racette

Minutes- Motion made by (3) seconded by (8) to accept the June 9, 2009 minutes as amended . Motion carried

CHRO-None

Legal Division- Updates by Attorney Schwane

- 1) **No Report on specific cases**
- 2) **Commissioner Farrell has requested a meeting with the chairs of the Engineering, Architect and Landscape Architect Boards concerning changing statutes and regulations regarding electronic signatures and seals, so there is consistency among the three boards.**
- 3) **State Library-Proposed regulations for filing maps**
This was rejected without prejudice, which means that this can be resubmitted without publication.
- 4) **Atty. Schwane received a report from NCEES regarding two pairs of individuals for possible cheating based on a statistical analysis. Atty. Schwane stated that in the past the candidates have come into the office to provide a**

deposition and in all the cases never received any additional information. In this particular case, all four candidates failed the exam. The Board advised Attorney Schwane that he should advise NCEES to release the scores without further action by the department.

C-Old Business

C-1 Letter composed by the Board of Examiners for Professional Engineers and Land Surveyors from the June 9, 2009 meeting, regarding various municipal agencies requiring registered land surveyors to provide certain data in digital format for use by municipalities. The Department has raised some concerns regarding this letter. A discussion to be held regarding this issue. Board administrator to meet with Commissioner, legal staff and director of Trade Practices on 7/15/09 regarding electronic mapping and looking at Chapter 15-Connecticut Uniform Electronic Transactions Act (<http://www.cga.ct.gov/2005/pub/Chap015.htm#Sec1-282.htm>) (Dist. 4)

The Board made revisions to the letter by removing any connection to digital signatures and have the letter make a statement that the Board does not want surveyors releasing CADD files to the public, unlicensed individuals or to public agencies that are not under the supervision of licensed design professionals. The Board is concerned that these files can be easily altered and in essence would not be protecting the public.

The Board was advised by their legal counsel that local ordinances cannot ask a licensed professional or anyone to violate state statute or state regulation and the information that the Board is stating in their letter, is a basic statement of fact and within the purview of the Board.

D-New Items

D-1 Re: Discussion on Digital Submissions with Digital Signatures with CTDOT. William Pratt, PE of the DOT will lead the discussion. (Dist. 4)

William Pratt lead the discussion by introducing James Fallon, a division director at DOT. Mr. Fallon gave a brief explanation of the DOT's piloting programs for digital contracts and how electronic signatures place into this contracts. The DOT's goal is to be able to use digital contracts by July 2010 along with electronic bidding. Mr. Fallon also stated that they have had discussions with the Department of Public Works (DPW) as well.

Mr. Pratt gave an overview as to how the DOT works on construction applications.

Chairman D'Andrea stated that the Board's problem when this issue came to light, and attempted to advise receiving agencies of the various towns, is that there are certain restrictions in our regulations that allows the Board to do certain things. The objective is to modify that section to include the transferring of electronic

information. The Board would need the support and to have the language corrected to get the regulation changed.

Chairman D'Andrea stated that the Board has a clearer understanding of the DOT process and that the Board should deal with this issue and should all work together to change some wording as the Board sees it. There should be some definitions in the regulations to describe the difference between electronic and digital signatures in this new sub-section of our regulation.

The Board will propose some modifications to DOT's proposal and forward them to the DOT for review.

Mr. Giel was appointed chair of the subcommittee to work on modifications to the DOT's proposal.
