

Notice of Intent (NOI)
for
Once-Through Noncontact Cooling Water with No Chemical Additives
to be Covered Under the NPDES General Permit No. GAG200000

Please Check Applicable Box:

New Permit *Existing Permit* *Change of Information*

NOTE: *If the Clean Water Act 316(b) Cooling Water Intake Structure Rules referenced in 40 CFR Parts 122 and 125 (Subparts I, J, and N) are applicable to your facility; then you are not eligible to be covered under this General Permit. Please submit an individual NPDES permit application.*

Section I. Facility Owner Contact Information

Name of owner/organization:		
Title:		
Phone no.:	Email address:	
Owner mailing address:		
City:	State:	Zip code:
County:		

Section II. Facility & Site Information

Name of facility and/or land owner where outfall is located:		
Phone no.:	Email address:	
Facility mailing address (if different from above):		
City:	State:	Zip code:
County:	Latitude/Longitude (ex. 33.933376, -84.537581):	
Site location (if different than above):		
Facility mailing address (if different from above):		
City:	State:	Zip code:
County:	Latitude/Longitude (ex. 33.933376, -84.537581):	

Section III. Facility Description and Activity Information

1. Brief description of the cooling water process (attach process flow chart):
--

2. Frequency of discharge:

3. Additional information:

Section IV. Receiving Waters

1. Name of receiving water(s):

2. Volume of discharge (units):

3. Name of river basin:

4. Does your discharge enter an impaired waterway listed on the State of Georgia's 303(d) list?
(check applicable box below)

yes no

5. Is the receiving water(s) (check applicable box below):

- supporting their designated use;
- not supporting their designated use; or
- assessment pending

6. If the receiving waters are not supporting their designated uses, what is it listed for?

7. Is there an applicable total maximum daily load (TMDL) for your discharge's receiving waters? (check applicable box below)

yes no

8. What is the name and year of the TMDL?

9. Is your discharge listed in the TMDL? (check applicable box below)

yes no

SECTION V. CERTIFICATION

Certification: I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based upon my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Instructions to Complete the Once-Through Noncontact Cooling Water with No Chemical Additives to be Covered Under the NPDES General Permit No. GAG200000

Who Must File A Notice of Intent (NOI) Form:

Title 40 Code of Federal Regulations Part 122 prohibits point source discharges of pollutants to water body(ies) of the U.S. without a National Pollutant Discharge Elimination System (NPDES) permit. A discharger of once-through noncontact cooling water with no chemical additives may submit an NOI to obtain coverage under the NPDES cooling water General Permit. Coverage under this General Permit is applicable only to dischargers of once through non-contact cooling water with no chemical additives. The General Permit is not applicable to discharges of process generated wastewater or blowdown from recirculating systems. In addition, no discharge shall be allowed to Wild and Scenic Rivers. If you have questions about whether you should seek coverage under the non-contact cooling water NPDES General Permit, contact the Wastewater Regulatory Program at (404) 463-1511.

Where to File NOI Form:

NOI's must be sent to the following address:

Georgia Environmental Protection Division
Wastewater Regulatory Program
Industrial Permitting Unit
2 Martin Luther King Jr. Drive, Suite 1152
Atlanta, Georgia 30334-9000

Section I: Facility Owner Information

Give the legal name of the person, firm, organization, or any other entity that discharges the cooling water, rather than the landowner, if other than landowner. Enter the complete address, email address, and telephone number of the owner.

Section II: Site Location Information

Enter the facility's mailing address and site location address if different. Address should include: street address or location, City, County, and zip code. Where an exact street address is not available, narrative terms should be used to describe location of the cooling water discharge. The latitude and longitude of the discharge site shall be entered in this section.

Section III: Facility Description and Activity Information

Give a brief description of the cooling water system used at your facility. Attach a process flow chart for illustrative visual information to clarify your process. Enter the frequency of discharges; the volume of water discharged, and the name of the receiving waters. Also, identify where the water comes from that you are using as cooling water. The discharged water shall not be commingled with any other water before or during discharging.

Section IV. Receiving waters

Provide the name of the receiving waters, volume of discharge, and name of river basin. Indicate whether the discharge will be entering an impaired waterway that has been identified on the State of GA's 303(d) list, as well as information regarding a TMDL, if applicable.

Section v. Certification

Federal and state statutes provide for severe penalties for submitting false information on this application form. The application should be signed as follows:

This application must be signed by a principal executive officer, elected official, or other authorized representative of the facility. The operator in charge of operating the facility is allowed to sign the application, provided that the authority to sign documents has been assigned or delegated in accordance with facility procedures.
