C.3.5. KITSAP TRANSIT RIDERSHIP

Note: In 2000, passage of I-695 resulted in service cutbacks up to 40%. Loss of sales tax revenue from recession resulted in service reductions up to 30%.

Source: Kitsap Transit. Trend years: 1997 to 2013.

	1997	2013	TREND
TOTAL RIDERS ON ALL MODES	5,400,009	3,928,517	DECREASED
% OF RIDERS BY MODE:			
Routed buses	75%	62%	DECREASED
Worker/driver buses	8%	13%	INCREASED
Foot ferry	7%	11%	INCREASED
Vanpools	5%	8%	INCREASED
Access bus	5%	5%	--

ADDITIONAL INFORMATION BY MODE:

Routed buses: mid-day and commuters (WSF and PSNS). On-board survey found: annual income of riders: 56% <\$35,000; 21% >\$75,000. 55% male. 42% of riders don't have valid driver's license.

Worker/driver buses: Serve two locations PSNS and Bangor, mostly civil service employees. Demographic: male, older, median income.

Foot Ferry: similar demographics to routed bus passengers.

Vanpools: riders are travelling to/from an employment site, primarily outside of Kitsap County. Demographic: generally older, have higher than median income.

Access bus: Riders must be eligible under Federal Americans with Disabilities Act. Demographic: largely senior and disabled.

ADDITIONAL INFORMATION ON FUNDING AND RIDERSHIP:

74% of day-to-day service operation funding comes from local sales tax revenue (0.08 of county sales tax rate); additional 20% comes from fares; remaining 6% is a mix of income from interest, leases and advertising. Capital projects (vehicles and facilities) funded primarily with federal grant funds and local match.

Ridership decreases when service is cut due to drops in sales tax revenue, resulting in fare revenue decrease. Ridership impacted by military movements, opening of new Tacoma Narrows bridge, WSF fare increases, among others.

C.3.6. PARATRANSIT ONE-WAY TRIPS

Paratransit Services is the Kitsap County Medicaid Broker for eligible medical appointment transportation, funded by the WA State Health Care Authority and provides ADA complementary service through Kitsap Transit. Paratransit assigns trips to sub-contracted providers; purchases bus fare, ferry fare or fuel; or reimburses clients for mileage. Total one-way trips includes all modes.

Note: Substantial changes to Medicaid services have reduced the number of trips overtime.

Source: Paratransit Services. Trend years: 2009 to 2013.

	2009	2013	TREND
TOTAL ONE-WAY TRIPS	129,467	76,706	DECREASED
% OF ONE-WAY TRIPS BY MODE:			
Public Transit*^	41%	9%	--
Ambulatory	40%	59%	INCREASED
Non-Ambulatory**	7%	15%	INCREASED
Ferry	2%	3%	--
Fuel	8%	9%	--
Mileage Reimbursement	2%	4%	--

*Public Transit are also reported as Access bus riders above in previous indicator of Kitsap Transit riders.

^Public Transit trend not statistical because 2009-12 trip numbers were similar, dramatic decrease was in 2013.

**requires a vehicle with a lift.
