Interim Report     Final Report

### Foundation for Community Health LOGIC MODEL REPORT

Please complete the logic model report using the blank form provided to describe the progress on stated objectives and activities of your funded program. Note: A different form should be completed for each objective. The Objective should be written above the chart. The chart has been modified in the following way: the Inputs column has been removed and 2 new columns have been added: Progress on Outputs and Progress toward Outcomes. Copy the Objectives, Activities, Outputs and Outcomes from your submitted Logic Model and report on the progress made to date in the two new columns. Please use as many pages as you need and feel free to re-create this form on your own computer. If necessary, you can use the Narrative Report form to further expand on issues or report on specific outputs and outcomes.

Objective: \_\_\_\_\_

<b>ACTIVITIES</b>	<b>OUTPUTS (Process Outcome Targets)</b>	<b>Progress on Outputs</b> (Reflects progress on Activities)	<b>OUTCOMES (Predicted Program Goals)</b>	<b>Progress toward Outcomes</b>
