

SDLT.co.uk v Paper

SDLT.co.uk e-submissions, better than Paper!

SDLT.co.uk is an independent company specialising in SDLT online submissions. Other providers in the marketplace focus on their own case management and offer SDLT submissions as a sideline. Who do you think knows most about online SDLT solutions?

SDLT.co.uk pay as you go integrates with a wide range of leading case management providers – giving you the flexibility to choose your case management yet use the market leading SDLT.co.uk solution.

SDLT.co.uk offer two product options to suit your needs – (1) “compose offline, submit online” or (2) “compose online, submit online” – flexible solutions with a cost effective disbursement charging structure.

1st November 2008 marks the end of the paper (barcoded) SDLT forms. Why not get your firm ahead of the game with the leading independent SDLT e-submission system?

8 reasons why SDLT.co.uk is the superior solution over continuing to use paper bar coded forms for your SDLT submissions:-

Bar-Coded Paper SDLT Forms	SDLT.co.uk E-Submissions
Not accepted by HMRC after 1 st Nov 2008	Is a future part of e-conveyancing
Paper can't integrate with Case Management	Integrates with many leading CMS providers
You have to wait for HMRC to check the form	Form is validated/checked while you wait – in seconds instead of days/weeks
Have to wait days/weeks for your SDLT5	Print your SDLT5 out instantly
Not easy to correct if you've started a paper form	Easy to amend at any time up until it is submitted
Same data entered time and time again	User definable templates and database included to reduce data entry on each submission.
General HMRC Calls Centre for support	Dedicated SDLT Helpdesk. Single phone call, less frustration.
Not environmentally friendly – uses a lot of paper	Massively reduces paper use

Our solution is free to try, easy to us. Remote installation, training and support are included and is paid for via a small disbursement charge (just like a ‘search fee’) per SDLT5 certificate.

No license or contract/license fees – just a simple disbursement charge – particularly attractive in a declining property market, when you just don't want to sign up to expensive Contract/License options.
