Dear Parent/Guardian(s),

The **Catasauqua High School** and **Catasauqua Middle School** offer public access to PowerSchool. PowerSchool is a web-based information system that will allow you to access your child's graded assignments, final grades, and attendance. Email reporting and teacher contact features are also available.

PowerSchool Public Access is currently being offered in the middle and high schools and currently is **unavailable for Sheckler Elementary students**. If you are interested in having access to your child's attendance and grades, please complete the registration below and return to the School Office. You will be notified by email when your account is set up.

There is no need to re-register your child from year to year. PowerSchool will keep your current username and password as your child progresses through the grade levels and buildings.

Please return the form to the main office in your child's school. If you have any questions regarding PowerSchool or forget your password either call the building offices or email pshelp@cattysd.org.
