## Preface

This Companion Guide to the ASC X12N (5010) Implementation Guides adopted under HIPAA clarifies and specifies the data content being sent when data is transmitted electronically from the State of Michigan, Department of Civil Service. This document does not replace any ASC HIPAA Transaction Set Implementation Guides. Transmissions based on this companion document, used in tandem with the ASC X12N HIPAA Implementation Guides, are compliant with both ASC X12 (5010) syntax and those guides.

## General Information

### Delimiters

The State of Michigan will use the following symbols as delimiters:

Element Separator	
Segment Separator	~
Component Separator	}

### ASC Version

The State of Michigan will provide transactions in accordance with the following ASC X12N HIPAA Implementation Guide versions:

Transaction Set 834:	Version 005010X220A1
Transaction Set 820:	Version 005010X218

**Content**

**The only segments present in this companion guide are segments that require clarification or segments that contain elements that require clarification.**

**Elements that are shaded indicate clarification is required for that element. Please see the comments section below each segment specification for clarification.**

## 834 Benefit Enrollment and Maintenance

### Update vs. Full File Audits

The 834 Transaction can be used to provide either updates to the enrollment database or full file audits.

- Update Files will be sent once a week.
- If there are no enrollment changes since the previous transmission, an Update File will not be sent.
- Full/Verify Files will be sent once a quarter.
- An Update File will precede every Full/Verify File.

The 834 Transaction set will be used to send enrollment data for Active Employees and COBRA participants.
