The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.</p> <p>2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing their Proposals, including attending a pre-proposal conference if one is specified in the Data Sheet. Attending any such pre-proposal conference is optional and is at the Consultants’ expense.</p> <p>2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant’s Proposal as specified in the Data Sheet.</p>
<p>3. Conflict of Interest</p>	<p>3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client’s interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.</p> <p>3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant</p>

	<p>or the termination of its Contract and/or sanctions by the Bank.</p> <p>3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:</p>

Conflicting activities	<p>(i) <u>Conflict between consulting activities and procurement of goods, works or non-consulting services:</u> a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.</p>
b. Conflicting assignments	<p>(ii) <u>Conflict among consulting assignments:</u> a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.</p>

Conflicting relationships	<p>(iii) <u>Relationship with the Client's staff:</u> a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.</p>
4. Unfair Competitive Advantage	<p>4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the Data Sheet and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any</p>

	unfair competitive advantage over competing Consultants.
5. Corrupt and Fraudulent Practices	<p>5.1 The Bank requires compliance with its policy in regard to corrupt and fraudulent practices as set forth in Section 6.</p> <p>5.2 In further pursuance of this policy, Consultant shall permit and shall cause its agents, Experts, Sub-consultants, sub-contractors, services providers, or suppliers to permit the Bank to inspect all accounts, records, and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by the Bank.</p>
6. Eligibility	<p>6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.</p> <p>6.2 Furthermore, it is the Consultant’s responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by the Bank in the Applicable Guidelines.</p> <p>6.3 As an exception to the foregoing Clauses 6.1 and 6.2 above:</p>
a. Sanctions	<p>6.3.1 A firm or an individual sanctioned by the Bank in accordance with the above Clause 5.1 or in accordance with “Anti-Corruption Guidelines” shall be ineligible to be awarded a Bank-financed contract, or to benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall determine. The list of debarred firms and individuals is available at the electronic address specified in the Data Sheet.</p>
b. Prohibitions	<p>6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:</p> <p>(a) as a matter of law or official regulations, the Borrower’s country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or</p> <p>(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower’s Country prohibits any import of goods from that</p>

	<p>country or any payments to any country, person, or entity in that country.</p>
<p>c. Restrictions for Government-owned Enterprises</p>	<p>6.3.3 Government-owned enterprises or institutions in the Borrower’s country shall be eligible only if they can establish that they (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) that they are not dependent agencies of the Client</p> <p>To establish eligibility, the government-owned enterprise or institution should provide all relevant documents (including its charter) sufficient to demonstrate that it is a legal entity separate from the government; it does not currently receive any substantial subsidies or budget support; it is not obligated to pass on its surplus to the government; it can acquire rights and liabilities, borrow funds, and can be liable for repayment of debts and be declared bankrupt; and it is not competing for a contract to be awarded by the government department or agency which, under the applicable laws or regulations, is its reporting or supervisory authority or has the ability to exercise influence or control over it.</p>
<p>d. Restrictions for public employees</p>	<p>6.3.4 Government officials and civil servants of the Borrower’s country are not eligible to be included as Experts in the Consultant’s Proposal unless such engagement does not conflict with any employment or other laws, regulations, or policies of the Borrower’s country, and they</p> <p>(i) are on leave of absence without pay, or have resigned or retired;</p> <p>(ii) are not being hired by the same agency they were working for before going on leave of absence without pay, resigning, or retiring</p> <p>(in case of resignation or retirement, for a period of at least 6 (six) months, or the period established by statutory provisions applying to civil servants or government employees in the Borrower’s country, whichever is longer. Experts who are employed by the government-owned universities, educational or research institutions are not eligible unless they have been full time employees of their institutions for a year or more prior to being included in Consultant’s Proposal.; and</p>

	(iii) their hiring would not create a conflict of interest.
B. Preparation of Proposals	
1. General Considerations	1.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.
2. Cost of Preparation of Proposal	2.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.
3. Language	3.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the Data Sheet .
4. Documents Comprising the Proposal	<p>4.1 The Proposal shall comprise the documents and forms listed in the Data Sheet.</p> <p>4.2 If specified in the Data Sheet, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery).</p> <p>4.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).</p>
5. Only One Proposal	5.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the Data Sheet .

<p>6. Proposal Validity</p>	<p>6.1 The Data Sheet indicates the period during which the Consultant’s Proposal must remain valid after the Proposal submission deadline.</p> <p>6.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.</p> <p>6.3 If it is established that any Key Expert nominated in the Consultant’s Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with Clause 5 of this ITC.</p>
<p>a. Extension of Validity Period</p>	<p>6.4 The Client will make its best effort to complete the negotiations within the proposal’s validity period. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals’ validity.</p> <p>6.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original Proposal and with the confirmation of the availability of the Key Experts.</p> <p>6.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.</p>
<p>b. Substitution of Key Experts at Validity Extension</p>	<p>6.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.</p> <p>6.8 If the Consultant fails to provide a replacement Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected with the prior Bank’s no objection.</p>
<p>c. Sub-Contracting</p>	<p>6.9 The Consultant shall not subcontract the whole of the Services.</p>
<p>7. Clarification and</p>	<p>7.1 The Consultant may request a clarification of any part of</p>

<p>Amendment of RFP</p>	<p>the RFP during the period indicated in the Data Sheet before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the Data Sheet. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:</p> <p>7.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.</p> <p>7.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.</p> <p>7.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.</p>
<p>8. Preparation of Proposals – Specific Considerations</p>	<p>8.1 While preparing the Proposal, the Consultant must give particular attention to the following:</p> <p>8.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the Data Sheet. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.</p> <p>8.1.2 The Client may indicate in the Data Sheet the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the</p>

	<p>Proposal shall be based on the Consultant’s own estimates for the same.</p> <p>8.1.3 If stated in the Data Sheet, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the Data Sheet) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the Data Sheet.</p> <p>8.1.4 For assignments under the Fixed-Budget selection method, the estimated Key Experts’ time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the Data Sheet, and the Financial Proposal shall not exceed this budget.</p>
9. Technical Proposal Format and Content	<p>9.1 The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.</p> <p>15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.</p> <p>9.2 Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the Data Sheet and using the Standard Forms provided in Section 3 of the RFP.</p>
10. Financial Proposal	<p>10.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the Data Sheet.</p>
a. Price Adjustment	<p>10.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the Data Sheet.</p>

c. Currency of Proposal	<p>10.4 The Consultant may express the price for its Services in the currency or currencies as stated in the Data Sheet. If indicated</p>

The authorization shall be in the form of a written power of attorney attached to the Technical Proposal.</p> <p style="padding-left: 40px;">17.2.1 A Proposal submitted by a Joint Venture shall be signed by all members so as to be legally binding on all members, or by an authorized representative who has a written power of attorney signed by each member's authorized representative.</p> <p>17.3 Any modifications, revisions, interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Proposal.</p> <p>17.4 The signed Proposal shall be marked "ORIGINAL", and its copies marked "COPY" as appropriate. This outer envelope shall bear the submission address, RFP reference number, the name of the assignment, Consultant’s name and the address, and shall be clearly marked “DO NOT OPEN BEFORE [insert the time and date of the submission deadline indicated in the Data Sheet]”.</p> <p>17.8 If the envelopes and packages with the Proposal are not sealed and marked as required, the Client will assume no responsibility for the misplacement, loss, or premature opening of the Proposal.</p> <p>17.9 The Proposal or its modifications must be sent to the address indicated in the Data Sheet and received by the Client no later than the deadline indicated in the Data Sheet, or any extension to this deadline. Any Proposal or its modification received by the Client after the deadline shall be declared late and rejected, and promptly returned unopened.</p>
<p>12. Confidentiality</p>	<p>18.1 From the time the Proposals are opened to the time the Contract is awarded, the Consultant should not contact the Client on any matter related to its Technical and/or Financial Proposal. Information relating to the evaluation of Proposals and award recommendations shall not be disclosed to the Consultants who submitted the Proposals or to any other party not officially concerned with the process, until the publication of the Contract award information.</p> <p>18.2 Any attempt by shortlisted Consultants or anyone on behalf of the Consultant to influence improperly the Client in the evaluation of the Proposals or Contract award decisions may result in the rejection of its Proposal, and may be subject to the application of prevailing Bank’s sanctions procedures.</p> <p>18.3 Notwithstanding the above provisions, from the time of the Proposals’ opening to the time of Contract award publication, if a Consultant wishes to contact the Client or the Bank on any matter related to the selection process, it should do so only in writing.</p>
<p>13. Opening of</p>	<p>19.1 The Client’s evaluation committee shall conduct the</p>

Technical Proposals	<p>opening of the Technical Proposals in the presence of the shortlisted Consultants' authorized representatives who choose to attend (in person, or online if this option is offered in the Data Sheet). The opening date, time and the address are stated in the Data Sheet. The envelopes with the Financial Proposal shall remain sealed and shall be securely stored with a reputable public auditor or independent authority until they are opened in accordance with Clause 23 of the ITC.</p> <p>19.2 At the opening of the Technical Proposals the following shall be read out: (i) the name and the country of the Consultant or, in case of a Joint Venture, the name of the Joint Venture, the name of the lead member and the names and the countries of all members; (ii) the presence or absence of a duly sealed envelope with the Financial Proposal; (iii) any modifications to the Proposal submitted prior to proposal submission deadline; and (iv) any other information deemed appropriate or as indicated in the Data Sheet.</p>
14. Proposals Evaluation	<p>20.1 Subject to provision of Clause 15.1 of the ITC, the evaluators of the Technical Proposals shall have no access to the Financial Proposals until the technical evaluation is concluded and the Bank issues its "no objection", if applicable.</p> <p>20.2 The Consultant is not permitted to alter or modify its Proposal in any way after the proposal submission deadline except as permitted under Clause 12.7 of this ITC. While evaluating the Proposals, the Client will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.</p>
15. Evaluation of Technical Proposals	<p>21.1 The Client's evaluation committee shall evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and the RFP, applying the evaluation criteria, sub-criteria, and point system specified in the Data Sheet. Each responsive Proposal will be given a technical score. A Proposal shall be rejected at this stage if it does not respond to important aspects of the RFP or if it fails to achieve the minimum technical score indicated in the Data Sheet.</p>
16. Financial Proposals for QBS	<p>22.1 Following the ranking of the Technical Proposals, when the selection is based on quality only (QBS), the top-ranked Consultant is invited to negotiate the Contract.</p> <p>22.2 If Financial Proposals were invited together with the Technical Proposals, only the Financial Proposal of the technically top-ranked Consultant is opened by the Client's evaluation committee. All other Financial Proposals are</p>

	<p>returned unopened after the Contract negotiations are successfully concluded and the Contract is signed.</p>
<p>17. Public Opening of Financial Proposals (for QCBS, FBS, and LCS methods)</p>	<p>23.1 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall notify those Consultants whose Proposals were considered non-responsive to the RFP and TOR or did not meet the minimum qualifying technical score (and shall provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion) that their Financial Proposals will be returned unopened after completing the selection process and Contract signing. The Client shall simultaneously notify in writing those Consultants that have achieved the minimum overall technical score and inform them of the date, time and location for the opening of the Financial Proposals. The opening date should allow the Consultants sufficient time to make arrangements for attending the opening. The Consultant's attendance at the opening of the Financial Proposals (in person, or online if such option is indicated in the Data Sheet) is optional and is at the Consultant's choice.</p> <p>23.2 The Financial Proposals shall be opened by the Client's evaluation committee in the presence of the representatives of those Consultants whose proposals have passed the minimum technical score. At the opening, the names of the Consultants, and the overall technical scores, including the break-down by criterion, shall be read aloud. The Financial Proposals will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copies of the record shall be sent to all Consultants who submitted Proposals and to the Bank.</p>
<p>18. Correction of Errors</p>	<p>24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.</p>
<p>a. Time-Based Contracts</p>	<p>24.1.1 If a Time-Based contract form is included in the RFP, the Client's evaluation committee will (a) correct any computational or arithmetical errors, and (b) adjust the prices if they fail to reflect all inputs included for the respective activities or items in the Technical Proposal. In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the</p>

	<p>former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.</p>
b. Lump-Sum Contracts	<p>24.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per Clause ITC25 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.</p>
19. Taxes	<p>25.1 The Client's evaluation of the Consultant's Financial Proposal shall exclude taxes and duties in the Client's country in accordance with the instructions in the Data Sheet.</p>
20. Conversion to Single Currency	<p>26.1 For the evaluation purposes, prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the Data Sheet.</p>
27. Combined Quality and Cost Evaluation	
a. Quality- and Cost-Based Selection (QCBS)	<p>27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant achieving the highest combined technical and financial score will be invited for negotiations.</p>
b. Fixed-Budget Selection(FBS)	<p>27.2 In the case of FBS, those Proposals that exceed the budget indicated in Clause14.1.4 of the Data Sheet shall be rejected.</p> <p>27.3 The Client will select the Consultant that submitted the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.</p>

<p>c. Least-Cost Selection</p>	<p>27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the lowest evaluated total price among those consultants that achieved the minimum technical score, and invite such Consultant to negotiate the Contract.</p>
<p>D. Negotiations and Award</p>	
<p>28. Negotiations</p>	<p>28.1 The negotiations will be held at the date and address indicated in the Data Sheet with the Consultant’s representative(s) who must have written power of attorney to negotiate and sign a Contract on behalf of the Consultant.</p> <p>28.2 The Client shall prepare minutes of negotiations that are signed by the Client and the Consultant’s authorized representative.</p>
<p>a. Availability of Key Experts</p>	<p>28.3 The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a pre-requisite to the negotiations, or, if applicable, a replacement in accordance with Clause 12 of the ITC. Failure to confirm the Key Experts’ availability may result in the rejection of the Consultant’s Proposal and the Client proceeding to negotiate the Contract with the next-ranked Consultant.</p> <p>28.4 Notwithstanding the above, the substitution of Key Experts at the negotiations may be considered if due solely to circumstances outside the reasonable control of and not foreseeable by the Consultant, including but not limited to death or medical incapacity. In such case, the Consultant shall offer a substitute Key Expert within the period of time specified in the letter of invitation to negotiate the Contract, who shall have equivalent or better qualifications and experience than the original candidate.</p>
<p>b. Technical negotiations</p>	<p>28.5 The negotiations include discussions of the Terms of Reference (TORs), the proposed methodology, the Client’s inputs, the special conditions of the Contract, and finalizing the “Description of Services” part of the Contract. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.</p>
<p>c. Financial negotiations</p>	<p>28.6 The negotiations include the clarification of the Consultant’s tax liability in the Client’s country and how it should be reflected in the Contract.</p> <p>28.7 If the selection method included cost as a factor in the</p>

	<p>evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.</p> <p>28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank.</p> <p>The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under Clause 28.8 above, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.</p>
<p>29. Conclusion of Negotiations</p>	<p>29.1 The negotiations are concluded with a review of the finalized draft Contract, which then shall be initialed by the Client and the Consultant's authorized representative.</p> <p>29.2 If the negotiations fail, the Client shall inform the Consultant in writing of all pending issues and disagreements and provide a final opportunity to the Consultant to respond. If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. After having obtained the Bank's no objection, the Client will invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.</p>
<p>30. Award of Contract</p>	<p>30.1 After completing the negotiations the Client shall obtain the Bank's no objection to the negotiated draft Contract, if applicable; sign the Contract; publish the award information as per the instructions in the Data Sheet; and promptly notify the other shortlisted Consultants.</p> <p>30.2 The Consultant is expected to commence the assignment on the date and at the location specified in the Data Sheet.</p>

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. Review of Remuneration Rates

- 1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.
- 1.2. If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.
- 1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.
- 1.4. Rate details are discussed below:
 - (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
 - (iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - \text{ph} - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.
- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

Guidelines for Selection and Employment of Consultants under IBRD Loans and IDA Credits & Grants by World Bank Borrowers, dated January 2011:

“Fraud and Corruption

1.23 It is the Bank’s policy to require that Borrowers (including beneficiaries of Bank loans), consultants, and their agents (whether declared or not), sub-contractors, sub-consultants, service providers, or suppliers, and any personnel thereof, observe the highest standard of ethics during the selection and execution of Bank-financed contracts [footnote: In this context, any action taken by a consultant or any of its personnel, or its agents, or its sub-consultants, sub-contractors, services providers, suppliers, and/or their employees, to influence the selection process or contract execution for undue advantage is improper.]. In pursuance of this policy, the Bank:

(a) defines, for the purposes of this provision, the terms set forth below as follows:

- (i) “corrupt practice” is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party²;

1. Background & Introduction

- 1.1. The Swarnjayanthi Gram Swarozgar Yojana (SGSY), a centrally sponsored programme of the Ministry of Rural Development (MoRD), Government of India (GOI), has been restructured and implemented as National Rural Livelihoods Mission (NRLM) since FY 2010-11. The central objective of the NRLM is to eliminate rural poverty through innovative implementation strategies involving mobilization and organization of the rural poor and their financial and economic inclusion. The NRLM is implemented on a cost sharing basis between the Centre and the States in the ratio of 75:25. The inter-state distribution of NRLM funds, however, is based on the relative rural poverty ratios of the states as determined by the Planning Commission.

2. Objectives, Strategy and Component of the Mission

- 2.1. The central objective of the Mission is to bring about increase in the household incomes of the rural poor through sustained livelihood enhancements and improved access to financial and non-financial services. The Mission aims at creating efficient and effective institutional platforms of the poor as mediating institutions.
- 2.2. The three key inter-related components of the Mission are: (i) social inclusion; (ii) financial inclusion; and (iii) economic inclusion. The three components are posited on the Community Based Organizations (CBOs) of the poor, which if promoted, capacitated, nurtured and funded initially, are expected to promote and sustain livelihoods of the rural poor. Thus, the NRLM aims at mobilizing all the rural poor households into SHGs and their federations viz., Village Organizations, Cluster/Block Level Federations and use these institutional platforms to promote the livelihoods of the poor.
- 2.3. The Mission seeks to promote access of the CBOs of the poor to financial and technical services as well as economic support services and enable them to diversify and improve their livelihoods. Towards this end, the Mission intends to promote organic financial and non-financial relations between the SHGs and their federations.
- 2.4. In addition, the poor would be facilitated to achieve increased access to their rights, entitlements and public services, diversified risk and better social indicators of empowerment. The NRLM also aims at harnessing the innate capabilities of the poor and seeks to complement them with their capacities (information, knowledge, skills, tools, finance and collectivization) to deal with the rapidly changing external world. The NRLM has mandate to reach out to 70 million poor

households, across 600 districts and 6,000 blocks over a period of 8 to 10 years in the country

3. Implementation Architecture

- 3.1. A critical first step in the process of implementation is the development of **resource/intensive blocks**, as *proof of concept* and *live workable* models on the ground with the support of Community Resource Persons (CRPs) drawn from the states which have successfully implemented similar models or internal resource persons identified from the successful home grown models.
- 3.2. Thus, each state transiting to NRLM is required to focus on the development of resource/intensive blocks, particularly, during the first 18 to 24 months and generate the required social capital in the form of internal CRPs to implement intensive strategies in the rest of the state.
- 3.3. The phased approach implies simultaneous implementation of NRLM resource/intensive strategies in some blocks coupled with the implementation of non-intensive strategies in others. However, at the block level, there will be no overlapping coverage of both intensive and non-intensive approaches.

4. NRLM Guiding Principles

- 4.1. Poor have a strong desire to come out of poverty, and they have innate capabilities
- 4.2. Social mobilization and building strong institutions of the poor is critical for unleashing the innate capabilities of the poor.
- 4.3. An external dedicated and sensitive support structure is required to induce the social mobilization, institution building and empowerment process.
- 4.4. Facilitating knowledge dissemination, skill building, access to credit, access to marketing, and access to other livelihoods services underpins this upward mobility.

5. Status of NRLM in Haryana

- 5.1. The state of Haryana transited to NRLM in April 2013 after fulfilling the conditions laid down for this purpose. A state level autonomous society has been established and designated as the Haryana State Rural Livelihoods Mission. The state government has approved establishment of Mission architecture at SMMU, DMMU and BMMU levels.
- 5.2. The government has permitted recruitment of professional staff at all levels. Management, finance, procurement and other systems have been established as per the guidelines of NRLM. The state Mission has entered into a partnership with Society for Elimination of Rural Poverty (SERP), a National Resource Organization to implement the resource block strategy in the state.

- 5.3. Eventually, the Mission will be implemented in 6841 villages, _____ of gram panchayats, scattered over 124 blocks of 21 districts in the state covering _____ poor households.
- 5.4. The progress of the phasing plan of the state Mission is summarized in Table 1.

Table No. 1				
Phasing 2013-14				
Planned for 2013-14			Actual Coverage in 2013-14

		Beri		
Kaithal	Siwan	Ghula	Siwan	Nil
		Rajound		
Mewat	Taoru	Nuh	Taoru	Nil
		Nagina		

- 5.5. In the second year of implementation, 10 new blocks in 5 new districts were identified as intensive. Therefore, in total there are 22 intensive blocks in 9 intensive districts. The details regarding the 2nd year phasing are provided in Table No. 2.

Table No. 2			
Phasing Plan 2014-15			
Sr. No	Intensive Districts	Resource Blocks	Intensive Blocks
1	Bhiwani	Bawani Khera Bhiwani	Tosham

6	Hisar	Narnaund	Hansi-I

7	Karnal	Gharaunda	Indri
8	Fatehabad	Fatehabad	Jakhal

- 5.6. The HSRLM has also set up Mission Management Units at various levels in the Intensive as well as Non-Intensive areas. Block Mission Management Units (BMMUs) have been established all the Resource Blocks. District Mission Management Units (DMMUs) have been established for all the intensive districts. The DMMUs are headed by the ADC cum District Mission Directors. The BMMUs are headed by the Block Programme Managers.
- 5.7. Some of the key outputs of the NRLM in Haryana in the first year of implementation is given below:

6. Purpose of the Baseline Study

- 6.1. The Mission aims at bringing about sustained improvement in the incomes, livelihoods, well-being and empowerment status of the rural poor targeted. Only a scientific survey of empanelled households, drawn from the Mission and non-Mission areas, and undertaken at different points of time (tracking survey) would be able to establish the 'net' contribution of the Mission to the changing livelihoods and well-being status of the rural poor and the factors and processes accounting for such changes. The Haryana State Mission has therefore decided to commission an independent inter-temporal/longitudinal study to assess the livelihoods of the rural poor at the baseline and two follow-up stages, with a gap of 2 years between any two stages. Thus, the study would cover not only the households directly targeted by the Mission but also the households outside it. Each household/other units (if any) empanelled at the baseline, in both Mission and non-Mission areas (non-intensive blocks), will be revisited at the two follow-up stages to track changes in the livelihood outcomes envisaged. Further, since the livelihood outcomes would depend on a number of factors, some within the control of the Mission and some outside, the study would have to segregate the contribution of Mission from non-Mission interventions. Finally, the data collected as part of the survey should allow for the measurement of the impact of the Mission on key socio-economic parameters (using techniques such as *propensity score matching*).

7. Scope of the Baseline Study

- 7.1. As the central purpose of the study is to assess the contribution of the Mission to the livelihoods of the rural poor mediated through efficient and sustainable

institutions of the poor, key impact areas need to be explored and evidence based information provided. The areas include:

- Size, composition and stability of household income
- Consumption and Saving
- Size and composition of household savings
- Access to institutional and other sources of credit and their terms of conditions
- Wage and employment opportunities and patterns
- Food security status
- Health and nutrition status of household members
- Access of household/members to entitlements
- Household assets and liabilities
- Risks and vulnerabilities of households
- Participation of households in community level institutions
- Indebtedness –high cost debts from non-institutional sources

7.2. In addition, the study should bring out key features of SHGs and their federations including their

- Inclusiveness
- Governance and accountability
- Functional effectiveness
- Financial and managerial self- reliance
- Sustainability features
- Relationship with federations and federating units
- Relationship with PRIs

7.3. Further the study should track changes in the

- Levels of awareness of members on their socio-economic reality and poverty situation, rights and entitlements
- Intra-household decision making and control over resources
- Participation in the community level social and political activities including participation in PRIs
- Levels of empowerment
- Solidarity among members and their commitment to the vulnerable and marginalized
- Perceived changes in the well being status

An illustrative list of potential areas that should be explored as part of the baseline survey is annexed (Annexure1)

8. Scope of the Survey

- 8.1. The selected consultant organization/firm would be expected to undertake:
- Data collection from sample households, community institutions and others
 - Data entry and management
 - Analysis of the data

- Preparation and presentation of the Report.
- 8.2. The state Mission desires that the consultant firm undertakes all the four inter-related tasks. However, the consultant firm may partner with any suitable survey firm to undertake task-1 and task-2 viz., data collection from sample households, community institutions and others and data entry and management. But such partnership arrangements should be explicitly stated in the proposal and the profile of the survey firm should be furnished along with the proposal. The design, translation and testing and finalization of the survey tools, however, shall be the responsibility of the principal consultant firm. The responsibility for managing the survey firm and for monitoring its work shall rest with the consultant firm. The task of identifying and hiring the services of a suitable sampling expert shall also be the responsibility of the consultant firm.
- 8.3. The selected firm shall be responsible for the four tasks indicated above. These tasks would involve the following activities;
- 8.3.1. **Preparatory arrangements:** Agreement with the state mission on the dates of survey, movement plan, logistic support, deployment of key staff and other arrangements
 - 8.3.2. **Agreement on Core Survey Modules:** Agreement with the State mission on the core modules to be included in the household and other surveys
 - 8.3.3. **Translation & Pre-Testing:** Preparation, translation (including back translation), pre-testing and revision of survey instruments/tools for the households, Community institutions and other respondents
 - 8.3.4. **Recruitment and training** – Recruitment, orientation and field training of enumerators and supervisors
 - 8.3.5. **Sample Selection:** Selection of sample blocks, gram panchayats and villages. Finalization of procedure for sampling households and community institutions with the support of sampling expert
 - 8.3.6. **Listing of households:** Listing of households in sample villages if such lists are not readily available
 - 8.3.7. **Data Collection** :Collection of data from sample households, Community Institutions, using pre-tested survey forms
 - 8.3.8. **Village Surveys:** Collection of data using village survey forms through pre-tested and revised tools
 - 8.3.9. **Data Cleaning and Entry:** Data Cleaning and data entry using pre-agreed software
 - 8.3.10. **Data Analysis:** Qualitative as well as quantitative analysis of the data
 - 8.3.11. **Concurrent Feedback:** Concurrent feedback on key issues observed during the survey and that may have implications for the programme design and implementation process
 - 8.3.12. **Draft Reports:** Preparation of Draft Reports and presentations
 - 8.3.13. **Final Reports:** Preparation of the Final Report and presentation
 - 8.3.14. **Data Transfer:** Transfer of electronic data sets and filled in survey forms

9. Methodology & Sample Design:

- 9.1. The objective of the study is to track changes in the livelihood status of the households targeted by the Mission at three points of time. As such, the baseline and two follow-up studies should be so designed as to effectively capture the changes in the livelihood status of the targeted households not only over time, but also in comparison with similar households not targeted by the Mission (double difference method).
- 9.2. However, it would be difficult to identify ‘*non-target*’ (control) households as the state Mission is expected to implement interventions for all rural poor households in the state, in a phased manner. However, given the phased approach adopted by the state Mission, it is possible to divide the districts and blocks into ‘*intensive*’ and ‘*non-intensive*’ categories. Households located in the intensive blocks/villages are expected to receive all benefits envisaged under the Mission over a period of time
- 9.3. Households in the non-intensive blocks, however, do not receive all benefits envisaged under the Mission. Thus, the two categories of households differ in terms of the range of financial and non-financial Mission benefits provided. However, all blocks and poor households would eventually become part of the Mission and entitled to receive the Mission benefits over a period of 8 to 10 years.
- 9.4. Thus on the basis of the phasing plan adopted by the mission, 18 blocks from 9 districts have been identified as treated and an equal number of blocks and districts as ‘control’ (non- intensive). The households selected and empanelled at the baseline would be revisited at two subsequent stages to assess the changes in the livelihoods of the poor.
- 9.5. The sampling expert from the consulting organization is expected to work closely with the state mission to identify treatment and control districts, blocks, villages and households.
- 9.6. The control blocks would be chosen from those blocks which will be covered under the intensive mode in the 6th of 7th year of the mission. It is important to note that both the treated and control blocks are drawn from different agro-climatic historical/cultural zones of the state such that the sample is representative of the potential state universe.
- 9.7. It may be noted that if a ‘sample ‘treated’ block is chosen from one region, the control or counterfactual block should also be chosen from the same region.
- 9.8. Further, ‘treated’ and ‘control’ blocks should not be selected from the same district. Similarly, while selecting the treated villages for the baseline, care should be taken to avoid identification of villages in which intensive work has already progressed significantly.
- 9.9. The consultant shall adhere to other normative principles of sampling villages and households to avoid judgmental/sampling errors. The consultant should adhere to the common sampling principles such as:
 - No two adjacent villages from the same panchayat would be selected for the sample
 - No two adjacent gram panchayats would be selected from the same block
 - Villages from different areas in a block would be given equal chance of getting sampled.

- 9.10. The minimum size of the control sample should not be less than 1/3rd of the total sample, such that the statistical estimates of the sample are comparable. The state strongly recommends the use of equal size treated and control samples.
- 9.11. The mission also recommends selection of a household sample size which is a representative of different geographies and large enough to provide statistically significant estimates of major outcome variables.
- 9.12. As part of the study, a sample set of village level community institutions, including SHGs and their federations and livelihood collectives will be identified and studied. The consulting organization will work closely with the state mission to identify an appropriate sample of such institutions. An indicative sample is provided below:

Sr. No	Sampling Unit	Mission Intensive/ Resource	Non- Intensive	Total
1.	Districts	9	9	18
2.	Blocks	18	18	36
3.	Villages/ Habitations	90	90	180
4.	Households	2700	2700	5400
5.	SHGs	200	200	400
6.	SHG Village Organization	8	-	8
7.	Cluster/Block Level Federations	4	-	4

- 9.13. It is however important to select functioning SHGs and federations at the baseline study. The state may also include other village level institutions such as the Anganwadi centre, PDS outlets, and gram panchayats to assess the extent to which these institutions benefit the households.

10. Key outputs of the consultancy

The consultancy will consist of the following key outputs that will be submitted to the HSRLM. In each case, approval of the output from the previous stage clears the way for proceeding to the next item

- 10.1.A ***hypothesis document***: that would identify key hypotheses regarding demand for different types of project interventions by specific groups as well as the impact of such interventions and the way in which the study (including a baseline plus two follow up surveys after project initiation) would measure these. The document would describe the data required to assess impact and cost-effectiveness of specific project components and identify how the survey information to be collected would need to be supplemented by information from the project's MIS and administrative data sources. It would also discuss arrangements put in place to ensure that the

households included in the baseline survey can be re-interviewed at a later date. All this would result in a work plan that assigns responsibilities and discusses implementation arrangements including appointment of qualified investigators, supervision mechanisms for quality assurance of the data collected, etc.

- 10.2. ***Inception Report:*** This will include a detailed work plan for all the key activities, clearly indicating responsibility and timeline, details of the core team and field teams being trained and deployed.

- 10.3. ***Sampling document:*** This document will identify the overall number of treatment and control areas to be surveyed and the methodology for choosing villages, households, and groups (as well as their number) in each of these areas. It will discuss the rationale for the overall sample size and the distribution of the sample between different strata so as to be able to measure specific project impacts at a given statistical level of confidence. It will also provide the basis for computing weights for the households included in the sample so as to ensure that the results from the survey can be compared to and feed into state-wide statistics.

- 10.4. ***Draft survey instrument:*** This report will comprise the draft questionnaires, and data collection instruments including interviewer and supervisor manuals, and data entry programs to be used in the survey. Guidance note on survey implementation, training modules for enumerators and supervisors; detailed survey implementation plan including movement and field procedure plan for the survey teams

The team is encouraged to draw on the experience from other states as much as possible so as to facilitate comparative analysis across states at a later stage and to explore the usefulness of the draft instruments by using them as a basis for qualitative discussions with potential project beneficiaries and other stakeholders in the field.

- 10.5. ***Data Entry Plan:*** Details of Data Entry Plan

- 10.6. ***Field Manual & Guides:*** Report on Training of field teams, training modules used, enumerator manual (clarifying key concepts used in the questionnaire) and implementation of orientation and field training and post-training evaluation of field teams

- 10.7. ***Report on Field Pilot testing:*** Report on Process and results of pilot testing of all instruments and tools and the revisions made to them. The Data from a pilot test of the questionnaires *that* involve at least 200 households in a number of areas (not to be covered under the actual survey) that represent the range of agro-climatic and socio-economic conditions under which the project will be implemented should be

- submitted to the State Mission. This will be accompanied by summary tables analysing these data and a report that reviews the pre-test experience and identifies lessons for modification of the survey instruments and the logistical arrangements for survey implementation and data entry. Based on a review of the data from the pilot test, a set of minimum quality standards will be agreed upon prior to start of the fieldwork.
- 10.8. **Monthly Progress Report:** Brief reports on the monthly progress of field work indicating coverage of districts, blocks, households and community institutions.
 - 10.9. **Field Work Completion Report:** Report on completion of field work as per the approved sample plan
 - 10.10. **Report on Database:** Detailed report on progress of data cleaning and entry along with the compiled database of all the completed data including listing of data, household data, village data etc
 - 10.11. **The cleaned and documented data** (including household weights) from the various surveys that satisfy the quality criteria agreed upon earlier as well as other data from project MIS and administrative sources needed to conduct the analysis agreed upon earlier.
 - 10.12. **Draft Baseline Report:** Draft report on baseline study (the empirical results from the baseline survey (e.g. characteristics of the target population including their organization in groups, their asset endowments, and the productivity with which they use the resources at their disposal, demand for certain types of interventions, socio-economic characteristics, etc.)) along with complete set of data in electronic and physical form
 - 10.13. **Revised report:** Revised report on baseline study incorporating feedback from the state mission along with final data set in electronic and physical form. A brief presentation on key finding should also be provided.

11. Duration and Timeline of submission of key outputs and Deliverables

- 11.1. The duration of the baseline study is 6 months from the date of contract. The final report along with the complete dataset shall be submitted within the stipulated 6 month period. The two follow-up surveys will also have a time duration of 6 months each from the date of renewal of contract, within which period the

consultant firm will be required to submit final reports and datasets. However, based on the performance of the agency during the baseline, the State Mission may or may not retain the services of the consulting organization for all the 3 surveys.

- 11.2. However, the consultant is required to submit three financial proposals separately for baseline and the two follow-up surveys. The first follow-up survey will begin two years and six months after the commencement of the baseline survey. The second follow-up will start two years and six months after the commencement of the first follow-up survey.
- 11.3. The selected firm will be entrusted with the follow-up survey-1, only if the performance of the firm in the conduct of baseline survey is satisfactory. Similarly, the second follow-up will be entrusted to the same firm only after evaluating its performance in the conduct of baseline and first follow-up surveys. The renewal of the contract for two follow-up surveys is also subject to the consultant firm ensuring deployment of the size and expertise composition of the core team and the field teams as agreed upon.
- 11.4. The firm shall be obligated to submit along with the final reports, complete dataset with matched households from three rounds. A substantial effort must be made by the firm to ensure that all respondents are tracked as effectively as possible to minimize attrition of households in the follow-up surveys. In any case, the attrition should not be more than 5% of the total sample across three rounds.
- 11.5. The time line for submission of deliverables in Annexed. (Annexure 2)
- 11.6. In addition to the hard copies, the consultants will make available electronic copies on Compact Disks (CD) of:
 - All reports in MS Word File format;
 - All raw data and data entry programs in CS PRO and Strata format, together with relevant summary tables in MS Excel Files with analytical tables at the time of submission of draft report and revised final report.

12. Key qualifications and experience of the consultant

- 12.1. The consultant firm should have a successful track record of designing and completing
- 12.2. The organization must have a substantial research infra-structure to support field based data collection, electronic archiving of data ensuring highest level of confidentiality for research subjects as well as high validity of responses
- 12.3. The organization must have completed at least 3 large monitoring and evaluation studies or research studies or studies of similar nature involving fairly large samples during the last three years

- 12.4. The consultant organization should be able to deploy the following core team exclusively for the baseline and two follow up studies, clearly indicating the time commitment of each member for the studies. The CVs of the core team members will be evaluated as part of the evaluation of the technical proposal

13. Composition of the Core team

The following positions must be included in the composition of the core team

Table No. 5					
Sr. No	Position	No. of Persons	Area of expertise	Educational qualification	Desired Professional Experience

5	Field Survey Manager	1	Planning and Supervision of Field Work	Post graduate in social science/rural management	At least 4 years of experience in supervising and managing field surveys

- 13.1. In addition to the core team indicated above, the consultant firm should deploy adequate number of field survey supervisors, enumerators and data entry staff required to complete the study within the stipulated period. As the key respondents of the survey are women members of SHGs, the consultant would be expected to deploy as many female field staff as possible. Further, the consultant is advised to identify and use the services of experienced women CRPs with required minimum

qualifications as enumerators. The CRPs are experienced members/leaders of the SHGs and have themselves come out of poverty through the SHG-centric model and understand the nature and dynamics of rural poverty much better than enumerators who come from outside.

14. Review Committee

The CEO of the Mission or an officer designated by him shall be responsible for reviewing and monitoring the progress of the consulting organization's work and the deliverables.

15. Ownership

- 15.1. The State Mission shall be the owner of the outputs and other deliverables of the consultancy. The consultant will have no right of claim to the assignment or its outputs.
