Client Introduction

Thank you for applying to Fairview Recovery Services Supportive Living Program. Supportive Living is a program for the recovering individual struggling with chemical dependence. Our Supportive Living program is a scattered site apartment setting. Program participants will be sharing a two-bedroom apartment with another individual in Supportive Living. Clients share the responsibility for basic activities of daily living (i.e. housekeeping). Each apartment is furnished with bedroom furniture, living room furniture (including television), kitchen table and chairs, and essential household items. Clients are responsible for providing their own bed linens and bathroom towels, personal hygiene and cleaning products. (Emergency 911 phone capability only) (Cable service not included).

We will develop an individualized Recovery Plan (i.e. Alcohol and Drug, Mental Health, Marital/ Family, Social, Educational/Vocational/Employment, Health and Legal), with you within thirty days (30) of admission to Supportive Living, with input from the referral source. Length of stay is based on an individual's progress and need for continued services.

To help us know you better, we ask you to fill out the accompanying forms in a **thorough and honest manner.**

All information will be treated confidentially. If you are accepted into Supportive Living, all information supplied by yourself, your primary counselor, and your current treatment agency will be part of your permanent record and will be referred to throughout your stay at Fairview.

After we receive all of this information, from you and your counselor, your counselor will be notified of your appropriateness as a candidate for our Supportive Living Program. Your admission will be prioritized in conjunction with the waiting list policy in compliance with the NYS OASAS guidelines.

Again, thank you for applying for residence at Fairview Supportive Living Program.

POLICY AND PROCEDURE

PROCEDURE FOR: Addressing tobacco use at Fairview Recovery Services, Inc. programs.

PURPOSE: To reduce addiction, illness and death caused by tobacco products.

Policy Statement:
Fairview Recovery Services programs provide crisis, residential and educational services for adults dealing with chemical dependency. Fairview is dedicated to providing quality services in a healthy, drug free environment.

In 1988 the U.S. Public Health Services, under Surgeon General C. Everett Koop, published the report, The Health Consequences of Smoking: Nicotine Addiction. In this report Dr. Koop states, "Smoking is the chief avoidable cause of death in our society." He indicates that nicotine is the substance in tobacco that causes addiction. Nicotine is a mood altering, psychoactive substance that is highly addictive. Since 1980, DSM (Diagnostic and Statistical Manual of Mental Disorders) has listed both nicotine withdrawal and nicotine dependence as diagnosable conditions.

These facts about tobacco/nicotine impact Fairview Recovery Services programs in several ways. First, Fairview Recovery Services is aware that many of our clients have a history of tobacco use and others began using tobacco while in our care or through relapse. Second, Fairview Recovery Services recognizes that tobacco smoke at this facility is a dangerous pollutant which harms non-smokers and smokers alike. Third, Fairview Recovery Services recognizes that nicotine in tobacco is a psychoactive, mood altering, addictive substance.

Objectives:
1. To provide a healthy environment for staff, clients, volunteers, workfare participants, and visitors; one that is free from tobacco smoke pollution and cues to use tobacco products.

2. To establish a tobacco free program including tobacco free grounds.

3. To provide quality, comprehensive crisis, residential, and educational services to the clients at Fairview Recovery Services.

4. To provide tobacco/ nicotine dependence recovery assistance/options to staff.

5. To integrate tobacco/nicotine dependence within the care offered to the clients of Fairview Recovery Services programs through assessment, education, prevention, and treatment.

1. Establish a Tobacco-Free Facility

A. All clients will be informed of this policy as part of the admission process and will sign a written contract at that time.

B. Effective 6-1-2008, all prospective employees will be notified of this policy in employment announcements, during their first interview, prior to hire, and during orientation.

C. Referral sources will be notified of this policy by 6-1-2008 and will continue to be notified on an ongoing basis thereafter.

D. All current staff, volunteers, and workfare participants will receive a copy of the final policy. All new staff and volunteers will be notified of this policy at orientation.

2. Provide Tobacco/Nicotine Dependence Education and Recovery options for staff

A. All employees will be offered an in-service on the medical complications of tobacco use and nicotine dependence.

B. All clinical staff will be offered training on how to identify nicotine dependence. This will include training on assessing, education, treatment planning, and on-going care for nicotine dependence.

C. All employees will not exhibit any tobacco products including paraphernalia (lighters, tobacco brand specific products, promotional clothing, and rolling papers).

D. All employees who currently use tobacco products will be encouraged to discontinue use and offered the following:

1. Pamphlets, brochures and other reading materials to assist and educate them on the effects of using tobacco/nicotine products.
2. Over-the- counter nicotine replacement when not able to obtain through insurance.
3. Counseling through EAP referral.
4. New York State Tobacco Free Quit Line

3. Provide tobacco/nicotine prevention, education and nicotine replacement treatment for clients

A. During all intakes and reviews, the clinical staff will assess clients for tobacco/nicotine dependence using the Fagerstrom Test for Nicotine Dependence and document their level of dependence.

B. All clients, regardless of the tobacco history, will be offered an educational seminar on the effects of tobacco use.

C. During the admission process, all clients will sign an agreement stating that they have been informed of the tobacco free policy and understand its guidelines. All clients in residence on 6-1-08 will also sign the agreement.

D. Clinical staff will assist the clients in obtaining Nicotine Replacement Therapy upon request.

E. While at the program, clients will not exhibit any tobacco/nicotine products including paraphernalia, lighters, rolling papers, promotional clothing and other tobacco/nicotine brand specific items. If clients are found to have any of these items, the items will be confiscated and destroyed.

F. All clients who are identified as needing tobacco cessation will have this area addressed in their service plan.

MONITORING AND COMPLIANCE:

1. All employees, clients, volunteers, workfare participants and visitors are expected to adhere to this policy.

2. All employees are expected to be familiar with this policy and are responsible for monitoring compliance.

3. Employees who violate this policy will be subject to the same disciplinary procedures used for any other policy violation related to work performance.

4. Violation of this policy by clients will be addressed as a treatment issue first, and as disciplinary issue if violations persist. The clinical staff will address non-compliance with the client. Repeated violations may result in termination guided by the way staff deals with other addictions.

5. Visitors who violate this policy will be informed of the policy and asked to comply. A visitor who persists in violating this policy will be asked to leave.

6. Workfare participants and volunteers who violate this policy will be reminded of the policy and asked to comply. A workfare participant or volunteer who persists in violating the policy will be relieved of duty until that workfare participant or volunteer agrees to comply.

DEFINITIONS:

Tobacco- Free
When tobacco use is not permitted in any form indoors or on the grounds, the facility is tobacco-free. Tobacco-free programs understand that any use of tobacco products is incongruent with a lifestyle free of addictive drugs and recognize the need to assist clients, employees and volunteers at the facility in addressing their own tobacco use behavior.

Fairview Recovery Services, Inc.

To support a tobacco free environment, I agree to the following:

- I will not use any type of tobacco products while on the Fairview Recovery Services premises. I understand this includes the community residence, crisis center, supportive living apartments, parking lots, and vehicles.

- As a tobacco user I understand treatment goals specific to nicotine dependence will be included in my treatment plan.

- I agree I will not bring tobacco products or paraphernalia including lighters, snuff, chewing tobacco, cigars, cigarettes, etc. to any Fairview Recovery Services site understanding that staff will confiscate and destroy them.

- In the event that I violate such policy I understand that my case will be reviewed with possible revisions to my treatment plan. I understand that if I am found to be smoking in any of Fairview Recovery Services facilities I may be discharged from that program immediately.

- In an effort to support peers who have also agreed to this initiative, I agree to take measures to remove the odor or evidence of smoking from my person before I enter any of Fairview Recovery Services facilities (i.e. washing hands).

- As a non-smoker as part of the Fairview Recovery Services admission process I have been informed of this policy.

PASS REQUEST

In keeping with the philosophy of Supportive Living programming the following resident's pass and curfew policy has been designed. Our goal is to help residents build their individual internal accountability.

1. Pass requests must be approved by your Case Manager or Program Coordinator PRIOR to departure.
2. Residents may receive weekend passes according to the Phase assignment.
3. Upon approval, residents must provide the following information:
    a. Destination and address.
    b. Contact name and phone number (CM must have a release on file for contact).
    c. Date leaving.
    d. Date returning.

If an emergency arises and you are unable to return as scheduled, you MUST contact on-call staff. Staff reserves the right to urine drug screen and breathalyze you upon return. This may include reporting to the Addictions Crisis Center (A.C.C.)
Case managers reserve the right to adjust the pass request policy as deemed necessary.

CURFEW

1. Residents must observe curfew as stated above.
2. If you determine that you are in a situation that warrants a time extension you will need to follow the procedure stated above.
3. If you plan on attending a special event which will prevent you from returning at curfew; you will need to discuss this with your Case Manager or Program Coordinator PRIOR to the event.

Non-compliance with this policy may result in immediate discharge.

MEDICATION POLICY

COMMUNITY RESIDENCES/SUPPORTIVE LIVING:

It is the policy of Fairview Recovery Services, Inc. Community Residential and Supportive Living programs to provide a supportive alcohol and drug-free environment. Therefore alcohol and/or mood altering drugs are not allowed on the premises. We recognize that there is an individualized need for certain residents to take medications for both their physical and mental health needs. Therefore the only acceptable mood altering drugs that are allowed on the premises are those medications that are prescribed by a physician.

Procedure: On Admission to Supportive Living, Residents will review all the medications that have been prescribed to them with their Case Manager. The resident must demonstrate the ability to manage their medication on their own prior to admission.

Residents must inform staff when any of the following situations occur:

Changes in the prescription
Beginning a new medication
Experiencing adverse reactions or side effects to medications

The Supportive Living staff reserves the right to meet with the client and count the quantity of medication with the client present at any time to ensure that no medications are being abused.

Any issues of non-compliance with medications will be managed as a therapeutic issue with the provider. Ongoing issues of non-compliance may ultimately result in discharge and a referral to an alternative level of care.

Promoting growth and self-sufficiency for people in recovery since 1970.

Our History

In 1970, The Fairview Inn, a rambling Victorian house overlooking the Susquehanna Valley on the east side of Binghamton, opened its doors to three people affected by alcoholism. With a budget of $4 per day per resident, John and Janice Morrell realized a vision of providing safe housing for alcoholics who wished to maintain a sober lifestyle. From that modest start, Fairview Recovery Services, Inc. now operates a seven-program continuum of care with a budget of $2.5 million.

How we got there

In 1975 a "Sobering Up Station" (now the Addictions Crisis Center) was opened in downtown Binghamton to house intoxicated individuals found on the street, as an alternative to jail. During the 1980s, information, referral, and professional counseling were introduced at this location and the Halfway House (now known as Community Residence). The concept of treating alcoholism as a disease rather than a moral failing gained acceptance and was reflected in the care that clients received. Beginning in 1997, apartments were developed to provide structured yet independent living for individuals who had completed the Community Residence phase of their recovery. In 2000, HUD-subsidized housing was offered to individuals who were able to live and work independently, yet could continue to benefit from association with the recovering community. From 1997 to the present, supportive services such as vocational educational counseling and intensive case management have been added to enhance the effectiveness of the care provided to persons who are chemically dependent as they progress through the continuum of care.

Supportive Living Phases

The clinical staff of Fairview Recovery Services, Inc. has designed these phases to assist the newly admitted client with an opportunity to connect with his/her peers, clinical staff and community supports. The first phase will provide clinical staff with an evaluation period to assess the client's appropriateness for continued Supportive Living stay. To accomplish these goals, the following guidelines are in effect:

Phase I – Orientation Phase

- *30 day orientation*
- *10:00PM Curfew 7 days a week*
- *No overnight guests allowed (children are an exception)*
- *No overnight passes (Case Manager may approve on an individual basis if clinically appropriate)*
- *Must complete self-help meeting journals*
- *2 one-on-ones with case manager weekly; 1 in apartment, 1 in office*
- *Weekly "pop-in" by case manager*

Phase II

- *11:30PM curfew 7 days a week*
- *2 weekend passes per month*
- *Weekly one-on-one with case manager in apartment*

Phase III – Discharge Phase

- *Discharge planning*
- *11:30PM curfew 7 days a week*
- *Increased weekend passes*

Non-compliance with these guidelines will be addressed as a clinical issue
and may jeopardize residency at Fairview Recovery Services, Inc.
If you have any questions about the above guidelines, please talk to your Case Manager.

Case managers reserve the right to move client's back to an earlier phase if deemed necessary.

By signing this form, I acknowledge the Phase, Pass Request and Curfew policies.
I have been given the opportunity to ask questions.
