When used properly protective sports equipment is designed to help protect athletes from initial injury or further injury. However, no equipment is 100% effective in preventing all injuries. If not used as intended, equipment may not prevent injuries and can even lead to injury (including catastrophic injury).

Types of equipment could include:

Helmets – In all sports that are applicable

Body Area Padding – football, volleyball, baseball, softball, soccer

This includes such pads as soft pads for joints, chest protectors, shin guards, etc.

Injury Braces – Braces and Splints designed to protect specific injuries

Mouth Guards – In all sports that are applicable

Some equipment comes labeled with warning statements. One such label is on football helmets. It reads as follows:

Warning:

Do not use this helmet to butt, ram, or spear an opposing player. This is a violation of the football rules, and can result in severe head, brain, or neck injury; paralysis or death to you; and possible injury to your opponent.

There is a risk these injuries may also occur as a result of accidental contact without intent to butt, ram, or spear

NO HELMET CAN PREVENT ALL SUCH INJURIES.

A violation of state law concerning anabolic steroids or human growth hormones is a criminal offense punishable by confinement in jail or imprisonment in the institutional division of the Texas Department of Criminal Justice.”

YEARLY PHYSICALS

The Garland ISD Athletic Department's policy requires that every student participating in athletics in the GISD have a physical examination every year. This policy supersedes the UIL policy of every two years. Physicals for the upcoming year may not be dated prior to May 1st of the previous school year.
