

MEDICAL EXAMINATION REPORT OF DRIVER UNDER ARTICLE 19-A dmv.ny.gov

INSTRUCTIONS TO MEDICAL EXAMINER: The complete standards and instructions for conducting this examination are found in Section 6.10 of the Commissioner's Regulations, 15NYCRR6, and can be found at dmv.ny.gov/art19. They are also available from the driver's carrier named below or from the Bus Driver Unit. For New/Initial Examinations and Recertification—review/complete ALL items on the form and sign where indicated on last page. For Follow-up Examinations—complete ONLY those items which require follow-up information and/or evaluation from a prior examination. Sign the form where indicated. If additional space is required for further comments and information, use form DS-874C, and attach it to this form.

7 PHYSICAL EXAMINATION (to be completed by the medical examiner) - Height _____ (in.) Weight _____ (lbs.)

The presence of a certain condition may not necessarily disqualify a driver, particularly if the condition is controlled adequately, is not likely to worsen or is readily amenable to treatment. Even if a condition does not disqualify a driver, the medical examiner may consider deferring the driver temporarily. Also, the driver should be advised to take the necessary steps to correct the condition as soon as possible particularly if the condition, if neglected, could result in more serious illness that might affect driving.

Check YES if there are any abnormalities. Check NO if the body system is normal. Discuss any YES answers in detail in the space below, and indicate whether it would affect the driver's ability to operate a commercial motor vehicle safely. Enter applicable item number before each comment. If organic disease is present, note that it has been compensated for.

BODY SYSTEM	CHECK FOR:	Yes* No	BODY SYSTEM	CHECK FOR:	Yes*	No
1. General appearance	Marked overweight, tremor, signs of alcoholism, problem drinking, or drug abuse	. 🗆 🗆	7. Abdomen and Viscera	Enlarged liver, enlarged spleen, masses, bruits, hernia, significant abdominal wall muscle weakness	. 🗆	
2. Eyes	Pupillary equality, reaction to light accommodation, ocular motility, ocular muscle imbalance extraocular movement,		8. Vascular System	Abnormal pulse and amplitude, carotid or arterial bruits, varicose veins	. 🗆	
	nystagmus, exophthalmos. Ask about retinopathy, cataracts, aphakia, glaucoma, macular degeneration and refer to a		9. Genito-urinary System	Hernias.	. 🗆
