Statutory Living Will – This Statutory Living Will form allows you to express your wishes and desires if it is determined that your death will occur whether or not life-sustaining procedures are utilized and where the application of life-sustaining procedures would serve only to artificially prolong the dying process. It is a declaration that such procedures be withheld or withdrawn, and that you be permitted to die naturally with only the administration of medication or the performance of any medical procedure deemed necessary to provide you with comfortable care.

Revocation of Statutory Living Will - This is a revocation of the wishes and desires you expressed in Form FL-P023, which is a Statutory Living Will form that allows you to express your wishes and desires if it is determined that your death will occur whether or not life-sustaining procedures are utilized and where the application of life-sustaining procedures would serve only to artificially prolong the dying process. This form acts as a revocation of a previously executed living will. This form complies with all applicable state statutory laws.

Uniform Anatomical Gift Act Donation - This Uniform Anatomical Gift Act Donation form pursuant to state statutes designates the specific body parts and organs an individual wishes to donate at the time of death. ### **III. TIPS ON COMPLETING THE FORMS**

The form(s) in this packet may contain "form fields" created using Microsoft Word or Adobe Acrobat (".pdf" format). "Form fields" facilitate completion of the forms using your computer. They do not limit your ability to print the form "in blank" and complete with a typewriter or by hand.

It is also helpful to be able to see the location of the form fields. Go to the View menu, click on Toolbars, and then select Forms. This will open the Forms toolbar. Look for the button on the Forms toolbar that resembles a shaded letter "a". Click this button and the form fields will be visible.

By clicking on the appropriate form field, you will be able to enter the needed information. In some instances, the form field and the line will disappear after information is entered. In other cases, it will not. The form was created to function in this manner.
