II. DESCRIPTIONS OF FORMS

Brief descriptions of the forms contained in your U.S. Legal Forms™ Contractors Package are found below.

Construction Contract - Cost Plus or Fixed Fee - This state-specific form is a construction contract that contains information regarding scope of work, work site and insurance. This contract complies with the laws of Kentucky with regard to the contract and notice requirements for a contractor dealing with homeowners.

Construction Project Information Sheet - This form identifies all of the important parties working on a particular construction project, the date of commencement, and any other relevant information.

Change Order Sheet - This multi-state form may be used to change or amend an original contract between a subcontractor and a contractor.

Certificate of Completion - This form certifies the satisfactory completion of all work on a particular construction project.

Weekly Equipment Summary – This form is used to record information about the equipment used on a particular project. This Summary allows the Contractor to keep track of information such as the amount use of the piece, its make and model, maintenance or repairs performed and ownership status.

Time and Material Log - This form allows a Contractor to send a separate bill to a customer for payment of the contractor's time and/or materials used on a particular project.

Bid Log – This form allows a contractor to keep track of bids that are outstanding. Information about each bid, such as due date, sent date, bid price and status are detailed.

Bid Follow Up Letter - This letter is used by a contractor to follow up with a particular agency or customer after submitting a bid to receive a contract.

Summary of Estimate – This form enables a contractor to summarize the various tasks involved in completing a given project. The sum of the work and expense involved with each task will assist the contractor is generating a contract price.

Schedule Sheet – This form assists a general contractor in the planning and scheduling of the various trades involved in a specific project. The form is designed to help track the completion of certain phases of the project.

Job Progress Sheet – This form allows the contractor to track the progress of a particular project or job. The contractor is able to record the percentage of completion of each phase along with the estimated start and completion dates.

Final Project Punch List – This Final Punch list form contains a list items or tasks that remain unfinished or incorrect on a particular project. The form details the issue and contains areas for the property owner to initial when the task is complete or resolved.

Worker Safety and Health Plan – This comprehensive Construction Safety and Health Plan is designed to help a contractor comply with the General Safety & Health Provisions for construction and aid you should your company be inspected by OSHA. Implementation of an effective plan such as this form is a good way to reduce workplace injuries.

Accident Report Form – This Accident Report form records all relevant information when an accident occurs at a construction site or during a particular project.

Customer Satisfaction Survey - This Customer Satisfaction Survey may be used by a contractor to solicit feedback from a customer upon the completion of a project or job.

Company Evaluation by Customer – This form is designed to solicit feedback or input from past customers regarding the construction company. It seeks input regarding project management as well as company operations.

III. TIPS ON COMPLETING THE FORMS

The form(s) in this packet may contain "form fields" created using Microsoft Word or Adobe Acrobat (".pdf" format). "Form fields" facilitate completion of the forms using your computer. They do not limit your ability to print the form "in blank" and complete with a typewriter or by hand.

It is also helpful to be able to see the location of the form fields. Go to the View menu, click on Toolbars, and then select Forms. This will open the Forms toolbar. Look for the button on the Forms toolbar that resembles a shaded letter "a". Click this button and the form fields will be visible.

By clicking on the appropriate form field, you will be able to enter the needed information. In some instances, the form field and the line will disappear after information is entered. In other cases, it will not. The form was created to function in this manner.

Some of the forms, particularly the Construction Contract, may not be locked for editing in order for you to modify the content to suit your individual situation. By locking the forms, using the padlock symbol on your control bar in Word, you will be able to move from one form field to the next simply by using your tab key.
