According to life expectancy tables, the life expectancy of a male/female who was years of age in would be more years. This figure is to assist you in determining the probable life expectancy of . It is not conclusive and you are not bound by it. It is only an estimate based on average experience. You may consider this figure if you believe that was in good health at the time of the accident and that his/her occupation was neither extra-hazardous nor likely to impair his/her health. You may find that probably will live a longer or shorter period than more years.
