

## Certification of Secure Gun Storage or Safety Devices

As required by 18 U.S.C.A. § 921(a), I certify that secure gun storage or safety devices will be available at any place in which firearms are sold under the Federal Firearms License to persons who are not licensees. The term "secure gun storage or safety device" means:

- A. A device that, when installed on a firearm, is designed to prevent the firearm from being operated without first deactivating this device;
  - B. A device incorporated into the design of the firearm that is designed to prevent the operation of the firearm by anyone not having access to the device; or
  - C. A safe, gun safe, gun case, lock box, or other device that is designed to be or can be used to store a firearm and that is designed to be unlocked only means of a key, a combination, or other similar means.
