How many points do I need each week?

- **Step # 1:** points needed per week to reach the goal.
 - AR Goal: _____
 - Weeks to meet goal: _____
 - $\frac{\quad}{\quad} = \quad$ points per week

How long do I have to finish this book and still meet my goal?

- **Step # 2:** Time to read an individual book.
 - AR books point value: _____
 - Points needed per week: _____ (from step 1)
 - $\frac{\quad}{\quad} = \quad$ weeks to finish this book

Note: you can calculate the pages needed to be read each day by dividing the number of pages left in your book by the days needed to finish the book.

*Days to finish book/Pages left = pages per day
