## **Keep It Clean Partnership** Standard Operating Procedures (SOPs) for Street Sweeping, Sweeper **Cleaning and Waste Disposal** Revised September 24, 2014 Stormwater pollution prevention procedures for the operation of street sweepers, frequency of Purpose of SOPs: sweeping, disposal of debris, and cleaning of sweeper. Indicate where SOPs are kept: Facility SWPPP, other document or electronic: Location of SOPs: Administrator of SOPs: Indicate who reviews and updates SOP: **Prerequisites** 1. Employees should attend KICP general stormwater pollution prevention training. Contact KICP at 303-441-1564. 2. Employees performing the procedures in this SOP should read and refer to the materials in the References and Related Procedures section of this SOP. **Stormwater Protection Equipment and Materials** 1. List sweepers or other street cleaning equipment: **Standard Operating Procedures** 1. Operation of Street Sweepers → Operate all sweepers according to the manufacturer's recommended procedures. → While sweeping, drive between \_\_\_\_ and \_\_\_\_ mph. → Make sure brushes and water spray hoses are functional before leaving the shop. → Fill the water tank daily or as needed. $\rightarrow$ Replace brushes when bristle length is less than \_\_\_\_\_ inches. 2. Sweeping Frequency → Streets should be swept according to an established schedule. The schedule is located at: \_\_\_\_\_

(Please fill out the Table, below, or place a copy of your schedule here.)

Area	(Suggested) Minimum Frequency	Actual Frequency
Main Arterials	Every 2 weeks	
Commercial areas	Every 2 months	
Industrial areas	Monthly	
Downtown area	Every 2 weeks	
Municipal Parking Lots	Monthly	
Residential areas	2x's/year	
Hot Spots	Every 2 weeks	
Seasonal Sweeping	After leaf pickup in Fall or debris pickup in the Spring.	
Winter Sand Removal	CDPHE Regulation 16 - within 4 days of snow/sanding event.	
Outdoor Special Events	After each event	

Winter Sand Removal	CDPHE Regulation 16 - within 4 days of snow/sanding event.	
Outdoor Special Events	After each event	
How often are they swept?	ave been identified for extra sweepingx's/ vents (fairs, festivals and parades).	
List any events that are identif	, ,	

	→ Always decant sweeper wastewater into the sanitary sewer.
	Decant areas are located at:
	→ Dispose of debris at the designated, temporary, storage area. The debris storage areas should be on an impervious
	surface and bermed. The temporary storage area is located at:
	<ul> <li>→ Debris should be disposed of regularly or as needed.</li> </ul>
	→ How often is debris disposed of?x's/ weekx's/month Other
	→ The permanent disposal site is located at:
4.	Cleaning the Sweeper
٠.	→ Clean out solid debris and store in an impervious area or in a temporary disposal area such as a truck or dumpster.
	→ Scrape out left over debris from the hopper after the last dump of the day. Dispose of waste in trash or dumpster or
	temporary storage area.
	<ul> <li>→ Always wash sweepers in a wash area or wash bay that drains to sanitary sewer.</li> <li>→ The wash area is located at:</li></ul>
	7 THE Wash area is located at.
5.	Other SOPs
	→ Do not wash down any streets or curbs for routine cleaning.
	→ If spills or illegal discharges are seen report them immediately to Stormwater Coordinator for City of Phone #:
	Coordinator for City of Priorie #
	tracts & Contractors
	Contracts should include stormwater pollution prevention language.
-	Ensure that contractors implement proper Best Management Practices (BMPs) to prevent stormwater pollution.
Em	ployee Training
_	<ul> <li>All applicable employees should be trained in stormwater pollution prevention; including now to recognize and report</li> </ul>
-	<ul> <li>All applicable employees should be trained in stormwater pollution prevention; including how to recognize and report illegal connections or discharges.</li> </ul>
	illegal connections or discharges.
	illegal connections or discharges.  ord Keeping and Documentation
	ord Keeping and Documentation  1. Keep a written street sweeping schedule or prioritized routes. This is located:
