Failure to renew will jeopardize release of your pay warrant or direct deposit. You cannot be paid for days worked without proper certification per Education Code Section 45034:

**Education Code Section 45034** - No order for a warrant, and no warrant drawn pursuant to Section 42647, shall be drawn in favor of any person employed in a position requiring certification qualifications, unless such person is at the time the holder of a proper certification document in full force for the full time for which the requisition or warrant, as the case may be, is drawn, and on file or registered as required by law at the time and unless he is employed by the governing board of the unified school district, or district with over 10,000 average daily attendance or by the county superintendent of schools as provided in this code.

#### **Delays**

Delays may occur for various reasons. One of the most common reasons is answering “yes” to any Professional Fitness question(s) on your application. When this occurs, the application is forwarded to the Division of Professional Practices (DPP) for further review within the Commission on Teacher Credentialing (CTC).

An application reflecting “Pending Additional Evaluation” longer than 90 days requires you to contact the DPP for a status update at [dppinfo@ctc.ca.gov](mailto:dppinfo@ctc.ca.gov). Include your full name and date of birth in the email. Visit the Credentials Office with the DPP’s written response.

To view your application status visit [www.ctc.ca.gov](http://www.ctc.ca.gov) and follow these steps:

- 4) Click Next; 5) Click on Application tab.

## TWENTY-FIVE TIPS FOR SUBSTITUTE TEACHERS

1. Arrive at school early to survey lesson plans, locate materials, review fire and earthquake instructions, and meet a few teachers.
2. Look over the seating chart and zero in on a few names so that you can establish a rapport immediately.
3. Ask questions – regular staff members will be glad to help.
4. Be confident, concise and firm. Your first words and actions go a long way toward setting the tone of the day.
5. Follow the regular teacher's lesson plans and discipline system to the best of your ability.
6. Speak softly and wait until all the students are listening before giving instructions.
7. Deal with the individual, not the group, when discipline problems occur. Be firm and stay in control of the situation. Request help if needed.
8. Have your own simple discipline and reward system in case you can't figure out the classroom's behavior management system.
9. Avoid commanding and threatening. Solicit cooperation. You are on the same team.
10. Compliment the students on class displays, behavior, enthusiasm, etc.
11. Circulate as students are working. Make positive comments and/or put various colored pluses on their papers (i.e. green for a proper heading, red for working quietly, and blue for having solved a problem correctly).
12. Listen to the students and be observant.
13. Allow students to help you with daily routines – involve the students. When appropriate, help students check their own work.
14. Bail out of a lesson that is failing. Move on to something you are comfortable with or review.
15. Have a story, game or other activity prepared in case you finish lessons early.
16. Have generic lessons that can be used at a variety of grade levels just in case a blank spot occurs.
17. Avoid assigning "busy work."
18. Never leave the class unattended.
19. Grade papers that can easily be checked.
20. Do not dismiss students early.
21. Dismiss students in an orderly fashion, one group at a time.
22. Be respectful of classroom equipment and supplies. Put pencils, paper, books, etc. away neatly.
23. Leave the room in order. Have the students' pickup papers, straighten desks, etc.
24. Lock the door when you leave the room.
25. Leave a note for the teacher. Include positive experiences, a progress report, list of absent students, and names of cooperative, as well as, uncooperative students.
