DISINTERESTED THIRD PARTY CONTINUING EDUCATION AFFIDAVIT

A disinterested third party means a person not related to the examinee, an immediate supervisor or employee of the examinee, and not concerned, with respect to possible gain or loss, in the result of a pending course final examination. Independent study programs qualify for continuing education only when there is a proctored examination administered by a disinterested third party, such as a testing center, public library, public school, independent insurance school, college or university and graded by the course provider/vendor. No examination administered or graded by any insurance company personnel for its own employees will be considered to be administered by a disinterested third party unless that individual is not a work supervisor or immediate employer nor interested, in any way, in the result of a pending course final examination. Examples may include Regional Trainer or Home Office Representative.
