Open Research Data Pilot in Horizon 2020

If selected, all applicants have the possibility to participate in the [Pilot on Open Research Data in Horizon 2020](#)¹, which aims to improve and maximise access to and re-use of research data generated by actions. Participating in the Pilot does not necessarily mean opening up all research data. Actions participating in the Pilot will be invited to formulate a Data Management Plan in which they will determine and explain which of the research data they generate will be made open.

We wish to participate in the [Pilot on Open Research Data in Horizon 2020](#) on a voluntary basis Yes No

Participation in this Pilot does not constitute part of the evaluation process. Proposals will not be evaluated favourably because they are part of the Pilot and will not be penalised for not participating.

¹ According to article 43.2 of Regulation (EU) No 1290/2013 of the European Parliament and of the Council, of 11 December 2013, laying down the rules for participation and dissemination in "Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)" and repealing Regulation (EC) No 1906/2006.

Proposal summary (identical to the abstract from the online proposal submission forms, section 1).

The abstract (summary) should, at a glance, provide the reader with a clear understanding of the objectives of the research proposal and how they will be achieved. The abstract will be used as the short description of your research proposal in the evaluation process and in communications to contact in particular the potential remote referees and/or inform the Commission and/or the programme management committees and/or relevant national funding agencies (provided you give permission to do so where requested in the online proposal submission forms, section 1). Section c. Resources (including project costs)

(Note: State and fully justify the amount of funding considered necessary to fulfil the objectives for the duration of the project. To facilitate the assessment of resources by the panels, the use of the following budget table is strongly suggested. All eligible costs requested, should be included in the budget. Please use whole euro values only.)

¹ Instructions for completing Part B2 can be found in the 'Information for Applicants to the Advanced Grant 2016 Call'.

Cost Category		Total in euro
Direct Costs ²	Personnel	PI ³
		Senior Staff
		Postdocs
		Students
		Other
	i. Total Direct costs for Personnel (in euro)	
	Travel	
	Equipment	
	Other goods and services	Consumables
		Publications (including Open Access fees), etc.
		Other (please specify)
ii. Total Other Direct Costs (in euro)		
A – Total Direct Costs (i + ii) (in euro)		
B – Indirect Costs (overheads) 25% of Direct Costs ⁴ (in euro)		
C1 – Subcontracting Costs (no overheads) (in euro)		
C2 – Other Direct Costs with no overheads ⁵ (in euro)		
Total Estimated Eligible Costs (A + B + C) (in euro) ⁶		
Total Requested Grant (in euro) ⁶		

The project cost estimation should be as accurate as possible. Significant mathematical mistakes may reflect poorly on the credibility of the budget table and the proposal overall. The evaluation panels assess the estimated costs carefully; unjustified budgets will be consequently reduced.

In case you are requesting additional funding above the normal EUR 2 500 000, fully justify your request by filling in the table below.

Request for additional funding above EUR 2 500 000 for	Justification
Keep only that category(ies) that apply to the project. (a) covering eligible 'start-up' costs for a PI moving from another country to the EU or an Associated Country as a consequence of receiving an ERC grant and/or, (b) the purchase of major equipment and/or, (c) access to large facilities.	

² An additional cost category 'Direct costing for Large Research Infrastructures' applicable to H2020 can be added to this table (below 'Other Goods and services') for PIs who are hosted by institutions with Large Research Infrastructures of a value of at least EUR 20 million and **only** after having received a positive ex-ante assessment from the Commission's services (see 'Information for Applicants to the Advanced Grant 2016 Call' for more details).

³ When calculating the salary, please take into account the percentage of your dedicated working time to run the ERC funded project (i.e. minimum 30% of your total working time).

⁴ Please note that the overheads are fixed to a flat rate of exactly 25%.

⁵ Such as the costs of resources made available by third parties which are not used on the premises of the beneficiary (see 'Information for Applicants to the Advanced Grant 2016 Call' for details).

⁶ These figures MUST match those presented in the online proposal submission form, section 3 – Budget.

The requested contribution should be in proportion to the actual needs to fulfil the objectives of the project.

Please indicate the duration of the project in months:⁷	
Please indicate the % of working time the PI dedicates to the project over the period of the grant:	%
Please indicate the % of working time the PI spends in an EU Member State or Associated Country over the period of the grant:	%

Specify briefly your commitment to the project and how much time you are willing to devote to the proposed project in the resources section. Please note that you are expected to devote at least 30% of your total working time to the ERC project and a minimum of 50% of your total working time in an EU Member State or Associated Country.

⁷ The maximum award is reduced pro rata temporis for projects of a shorter duration (e.g. for a project of 48 months duration the maximum requested EU contribution allowed is EUR 2 million). Additional funding to cover major one-off costs is not subject to pro-rata temporis reduction for projects of shorter duration (e.g. with additional funding it is possible to request a maximum EU contribution of EUR 3 million for a project of 48 months duration).
