**(Interviewer Note:** A certificate would include fields such as accounting, marketing, office administration, fashion design, drafting, x-ray technician, and hospitality/tourism management. These programs are almost exclusively 1 year (or less) in length.

An apprenticeship program would include trade/journeyman/designated occupation certificate.

A diploma program – college/technical institute diploma programs are (generally) 2-year programs, often in many of the same fields as the “regular” certificates described above.

It is important to distinguish certificates from trade/journeyman/designated occupation certificates. If the respondent identifies a certificate that may be apprenticeship-related (e.g., “They have a millwright certificate” or “They have a warehousing certificate”), probe by asking “Did they enroll in/complete an apprenticeship training program in the \_\_\_\_\_ trade occupation?” If the respondent indicates “Yes” (or indicates they wrote an exam to qualify for the certificate) then code as trade/journeyman/designated occupation certificate. All other responses should be coded as certificate.
