Dear Colleague,

Join me and your colleagues in internal medicine at the next scientific meeting of the Arizona Chapter of the American College of Physicians, being held November 4–6, 2016, at the Memorial Union–Arizona State University in Tempe.

The meeting is a great way for you to recharge, rewind, and reflect with your peers, chapter leaders, and great speakers. Connect with the Arizona Chapter's rich source of knowledge content and networking by attending our premier meeting for general internists, subspecialty internists, hospitalists, allied health practitioners, residents, and medical students.

In addition to earning CME credits, this conference is about making personal contacts and getting involved in your chapter. You'll engage with people who know your challenges and can help you find solutions. The opportunities available at this meeting will help you meet not only your needs as a physician but also the needs of the patients you serve.

To ensure your place at this invaluable meeting, register now by visiting us online at www.acponline.org/about-acp/chapters-regions/united-states/arizona-chapter/news-meetings.

I look forward to seeing you in Tempe!

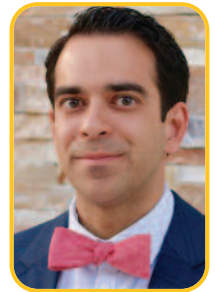

Sincerely,

Robert M. Aaronson, MD, FACP
ACP Governor, Arizona Chapter

Dear Colleague,

On behalf of the American College of Physicians Arizona Chapter Planning Committee, I would like to welcome you to this year's ACP - Arizona Annual Chapter meeting. We are in the midst of massive health care system overhauls. As a result, the Planning Committee voted to make the theme of our conference "Revolutionizing Internal Medicine with Digital Health".

Now more than ever, new digital tools are being developed with the promise to help improve our care coordination, patient visits, efficiency, and quality of care. However, do these actually improve outcomes? This is a major question that needs to be proven before the physician community adopts these new digital tools. I am excited to report you will see outcome-related work at our conference.

With all this "digitalization", our committee felt it was appropriate to also include humanism as a topic as well. At the end of the day, no matter how care is delivered, there is another fellow human in need of care. This basic aspect of health care delivery cannot be forgotten.

These exciting topics along with the usual grand poster sessions, Doctor's Dilemma™ competition, and the Governor's Dinner will make for one of the most exciting chapter meetings in recent years!

See you in Tempe!

Hamed Abbaszadegan, MD, FACP
2016 Program Chair
