Rules for the Road

The following are the basic safety and behavior rules for all trip participants:

Fire - Heat is by woodstove. The adult leaders will maintain the woodstove fires. Scouts will not poke the fire, add a log, or burn trash in the stoves. There is no reason for you to even open the woodstove door. Everyone is expected to help gather firewood. The woodstoves get very hot. Maintain a safe distance and do not dry anything (your wet clothes) on the woodstove or the flue (the pipe running into the chimney). Drying shoes or boots should be at least twelve inches away from the stove.

Cooking & Food - A duty roster has been prepared by each Patrol Leader and approved by the Senior Patrol Leader and the Scoutmaster. This roster shares cooking, cleaning, and other duties as fairly as possible. Patrol members will follow this roster. Any changes require SPL/Scoutmaster approval. The food purchased by your patrol is your patrol's food. It is shared equally only among patrol members. It should not be shared with a non-patrol member without Scoutmaster approval.

This is a guide to help you pack. Watch the weather reports and pack accordingly.
