#### SUMMARY OF EMPLOYER RESPONSIBILITIES

Employers are <u>not</u> required to withhold Multnomah County Personal Income Tax from the wages of their employees. Also, an employer should only withhold the tax if authorized in writing by the employee. A sample authorization form is included in this handbook.

All employers who withhold any Multnomah County Personal Income Tax from the wages of their employees during a quarter must remit a payment of the taxes withheld for that quarter per the schedule below.

For all payments of withheld taxes that are remitted by mail, a completed Form MC PC Multnomah County Employer Payment Coupon and Employer Report/Registration must be enclosed along with the payment.

In addition to the remittance of withheld taxes, the employer must provide the employee with a Form W-2 by January 31<sup>st</sup> following year end. The employer must also file an annual report, FORM MC WR, with Multnomah County to summarize the taxes withheld during the previous calendar year. This report must be filed on or before March 31<sup>st</sup> following each calendar year.

#### IMPORTANT INFORMATION

#### What is the Multnomah County Personal Income Tax?

On May 20, 2003, Multnomah County residents passed Measure 26-48, which established a temporary three year personal income tax on County residents. The tax was effective January 1, 2003. The tax is 1.25% of Oregon taxable income after deducting an exemption (\$5,000 for joint filers and \$2,500 for a single filer). The County has authorized employers to withhold the County income tax from the wages of County resident employees.

#### Tax Tables

#### 2005 Withholding and the Tax Calculator

The Multnomah County Website has a tax calculator at <a href="www.multcotax.org">www.multcotax.org</a> which will allow employees to estimate their 2005 Multnomah County income tax. The employee may use the calculator to compute additional withholding per pay period if the employee has other outside income, like rent, interest or capital gains or a spouse that works but whose employer doesn't withhold.

#### **Major Payroll Services and Paid Preparers**

Many major payroll services like ADP, Ceridian, Paychex and Prime Pay are already set up for withholding of the Multnomah County income tax. Please contact them about having them withhold the tax for your company. If you use a paid tax preparer, please check to see if the preparer needs this handbook to file your reports.

#### Easy, Free Electronic Filing

You may be able to file and pay your quarterly Multnomah County Employer Payment Coupon and Employer Report/Registration (Form MC PC) electronically. You may also submit the data required on Form MC WR electronically. Please refer to FILING ELECTRONICALLY on page 10 and ELECTRONIC PAYMENT OPTION on page 16.

#### **Record Keeping**

All payroll records must be kept at least five years after filing the required reports.

#### WITHHOLDING METHODS

#### Taxable Wages

The Multnomah County income tax is based on Oregon taxable income. Therefore, Multnomah County taxable wages will be the same as taxable wages for Oregon income tax purposes.

#### Withholding Methods

⇒ **Withholding Tables** Recommended withholding tables are located at page 17 of this handbook along with the computer formula to calculate the amount to be withheld per pay period using an automated payroll accounting system. The tables and formula are based on payroll frequency and includes a deduction for the appropriate Oregon standard deduction (Joint \$3,280 − Single \$1,640) and for the appropriate Multnomah County exemption (Joint \$5,000 − Single \$2,500).

- The employee will generally have the same filing status as they do for Oregon income tax withholding. Married filing joint, Head of Household and Qualifying Widow(er) are entitled to a \$3,280 standard deduction and a \$5,000 exemption. Single and Married Filing Separate are entitled to a \$1,640 standard deduction and a \$2,500 exemption.
- Note: The standard deduction amount for Oregon is the 2003 standard deduction. The Multnomah County withholding tables will not be adjusted for any CPI change in the Oregon standard deduction for years 2004 and 2005.
- ⇒ *Flat Rate Withholding* An employer may also use a flat rate such as 1.25% or other appropriate rate for withholding purposes if authorized by the employee.
- ⇒ **Fixed Dollar Amount Withholding** An employer may also use a fixed dollar amount per pay period if authorized by the employee.

#### **EMPLOYEE AUTHORIZATION TO WITHHOLD**

Employees need to provide their employer with written authorization to withhold the Multnomah County income tax from their wages. A suggested Employee Authorization Form is located on page 24 and on our Website at <a href="https://www.multcotax.org">www.multcotax.org</a>. A copy of the signed authorization should be retained by the employer. It should not be forwarded to Multnomah County.

The Multnomah County income tax that is withheld should be reflected in an itemized statement furnished to the employee at the time of the payment of wages, salary or commission. The statement may be part of the check, draft or other instrument of payment or may be delivered separately from such instrument. The statement should sufficiently itemize the amount of Multnomah County income tax withheld.

The County ITAX Helpdesk (503) 988-ITAX (4829) is available to assist employees with questions about the Multnomah income tax and how to fill out their withholding authorization.

#### Married Filing Jointly/Head of Household/Qualifying Widower

Withholding per payroll period =  $[(Wages \times 52) - 3280 - 5000] \times .0125/52$ 

#### Two Week Pay Period

Withholding per payroll period =  $[(Wages \times 26) - 3280 - 5000] \times .0125/26$ 

#### **Twice Monthly Pay Period**

#### **Monthly Pay Period**

Withholding per payroll period =  $[(Wages x 12) - 3280 - 5000] \times .0125/12$ 

#### Single/Married Filing Separately

#### **Weekly Pay Period**

Withholding per payroll period =  $[(Wages \times 52) - 1640 - 2500] \times .0125/52$ 

#### Two Week Pay Period

#### **Monthly Pay Period**

Withholding per payroll period =  $[(Wages \times 12) - 1640 - 2500] \times .0125/12$ 

### **Alternative Withholding Method for Wage Payments**

Employers may use a 1.25% percent flat rate to figure withholding on supplemental or irregular wages that are paid at a different time than an employee's regular payday. Some employers may find this a convenient alternative. Supplemental or irregular wages include bonuses, overtime pay, commissions, or any other form of payment received in addition to the employee's regular pay. Note: If authorized by the employee you may withhold at the rate of 1.25% or withhold a fixed dollar amount per pay period.

#### TAX CALCULATOR INSTRUCTIONS

#### Do I need to file a Multnomah County Personal Income Tax (ITAX)?

Multnomah County residents passed Measure 26-48 which established a personal income tax on County residents. The tax is effective January 1, 2003. The County has authorized employers based in Multnomah County to withhold the County income tax from the wages of County resident employees.

The tax is 1.25% of Oregon taxable income after deducting an exemption (\$5,000 for joint filers and \$2,500 for a single filer.) The enclosed withholding tables compute Multnomah County withholding on wages at the 1.25% rate less the applicable Oregon standard deduction for joint and single filers along with a deduction for the exemption amount.

Withholding of the Multnomah County Resident Income Tax from employees wages is not mandatory and an employer should only withhold the tax if authorized by the employee.

#### Is taxable income the same as wage income?

**No.** The payroll tax withholding is based only on your income from wages. The County tax is based on taxable income as reported to the state of Oregon (line 28 of Form 40 or line 12 of Form 40S). Oregon taxable income includes wages plus other forms of income (e.g. capital gains, rental income, dividends and interest). You will also receive the benefit of your Oregon standard deduction or Oregon itemized deductions, whichever is higher and an exemption amount. You may authorize additional payroll withholding (catch up adjustment) in order to make up for the tax on wages in prior months which were not subject to withholding or to cover additional non-wage income.

This Tax Calculator will allow you to estimate the Multnomah County Income Tax you will need to pay at year end. This form will also allow you to calculate the catch up adjustment for the lack of withholdings for previous payroll periods or to cover non-wage income. You may want to visit our Website, <a href="www.multcotax.org">www.multcotax.org</a>. An active Web based calculator will automatically compute your estimated Multnomah County income tax and expected withholding amounts based on your individual circumstance.

⇒ Reminder: Don't forget to change your withholdings again in January if you are withholding to cover prior payroll periods.

# Employee Authorization to Withhold Multnomah County Resident Income Tax Instructions

#### What is the Multnomah County Personal Income Tax (ITAX)?

Ballot Measure 26-48 established a personal income tax on residents of Multnomah County. The tax is 1.25% of Oregon **taxable income** reduced by an exemption (\$2,500 for a single tax filer and \$5,000 for Joint filer). **The tax is effective January 1, 2003** and will be in place through calendar year 2005.

#### Is taxable income the same as wage income?

**No.** The payroll tax withholding is based only on your income from wages. The County tax is based on taxable income as reported to the state of Oregon (line 28 of Form 40 or line 12 of Form 40S). Oregon taxable income includes wages plus other forms of income (e.g. capital gains, rental income, dividends and interest). You will also receive the benefit of your Oregon standard deduction or Oregon itemized deductions, whichever is higher and an exemption amount. You may authorize additional payroll withholding (catch up adjustment) in order to make up for the tax on wages in prior months which were not subject to withholding or to cover additional non-Multnomah County income.

#### Purpose of this form:

This form will authorize your employer to withhold taxes from your wages based on County withholding tables (Box 1). You may also authorize additional withholding for each pay period (Box 2). If you only want to withhold based on the tables – check Box 1. If you want additional taxes withheld – check both Box 1 and Box 2.

Employees may want to consider having additional taxes withheld. Withholding tables are annual tables designed to withhold enough tax over a full year so that on April 15th, the employee isn't left with a substantial tax to pay. If you are starting to withhold after several pay periods in the calendar year have passed, you may wish to consider additional withholding to "catch up".

In addition, employees may owe more tax as a result of having outside income (capital gains, rental income, dividends, interest, etc.) or a working spouse who does not withhold. Employees may want to take advantage of the fact that Multnomah County income tax withheld in 2005 may be a deduction to federal and state taxable income for the 2005 tax year.

If the employee determines additional tax should be withheld, the employee may estimate the approximate additional tax and divide the additional tax by the number of pay periods left in 2005 to determine the additional tax to be withheld. Example: A joint tax filer has estimated the total tax to be paid as \$750.00. The tax filer is paid bi-weekly and will only have withholding for 11 pay periods (approximately 42% of year). It is estimated that an additional \$435.00 would be due. In this case the taxpayer may elect to have an additional \$40.00 withheld per paycheck to approximately equal the Multnomah County income tax due on April 15.

The Multnomah County income tax calculator will allow you to calculate the amount of additional estimated Multnomah County income tax you will need to pay on April 15th. This tax calculator is located at the Multnomah County Website at <a href="www.multcotax.org">www.multcotax.org</a> and will automatically calculate the necessary additional withholding per pay period.

Reminder: If your employer did not offer withholding for all of 2004, you may wish to reduce or eliminate your additional withholding in January 2005 because you will be able to withhold for the entire year.
