Model MS-8

MS-8 Electronic "Mail-Master" Scale

Weigh, rate and count your mail accurately with Detecto's MS-8 "Mail-Master"! The "Mail-Master" is a power-packed, auto rate calculating, 8 lb capacity scale designed for long-lasting performance and utilizing heavy metal construction and a large, brilliant red LED display. Value added features include letter counting and a selectable default service setting for maximum operational speed. A wide range of postal rates are supported such as pre-sort, international and express mail as well as many special services.

Cert. No. 94-066

The highly-visible, red LED display provides instant display of weight, postage rate and numeric operator input such as zip/zone, country code and so forth. The interactive keyboard provides instant indication when a service is selected. "Sleep Mode" may be enabled to automatically turn off the display after ten minutes of non-use.

MSB-25 Bulk Mail Scale

Detecto's MSB-25 bulk mail scale can display weight of a single mailpiece, the number of pieces per pound, or the number of pieces on the scale after entry of a sample, making it a versatile scale for the mailroom or shipping department. Status indicators are included for motion, zero, gross weight, net weight, tare, weight per piece, piece per weight, count, sample, pounds, and pounds-ounces. You can use the rear-mounted serial data interface for connection to an optional printer or computer for output of displayed information. A pullout card is attached underneath the front of the MSB-25 with operating instructions that are readily visible.
