

## Aerial Lift Safety & Train-the-Trainer

### About the Class

Aerial lifts are versatile and, if operated by a qualified person, safe to use. Like most equipment they make doing our jobs easier and safer but did you know that every year nearly 18 people die while working on an aerial lift? Workers are killed by being caught between the guardrail and another object such as a steel beam or by falling from the platform. Other workers on the ground may be struck and killed by a falling object.

### What You Will Learn

In this course, you will learn how to correctly inspect, use and maintain your aerial lift, whether it's a scissors-type or has a telescoping boom. You will also learn training and documentation requirements and training techniques.

### Packaged Program Contents

- Administrator Guide with learning exercise and answer key
- DVD

### Dates & Locations

1:00 - 5:00 pm

**March 4, 2014**

## About The Trainers.....

### **Bryan Doty • Director of Program Development & Training • Iowa-Illinois Safety Council**

Bryan has been involved in manufacturing for nearly 20 years, serving on safety teams and safety committees for 15 years and 5 years as a safety coordinator for a window manufacturer. He has 3 years experience in the construction industry as a safety manager/consultant. Bryan is an authorized OSHA Training Institute Outreach Trainer for General Industry and Construction. Bryan also has authorization through the Midwest OSHA Education Center to instruct the OSHA 500, 501, 502, 503, 510 and 511. He has the National Safety Council Advanced Safety Certificate and holds a certificate in Industrial Ergonomics. Bryan is an instructor for the National Safety Council 4 Hour Defensive Driving and instructor development courses as well as the National Safety Council First Aid, CPR, AED and BBP courses for adult, pediatric and instructor development. His experience and diverse background gives Bryan the ability to serve in the field as well as the classroom to help bring solutions to safety problems.

### **Jim Silvers • Trainer/Consultant • Iowa-Illinois Safety Council**

Jim is identifiably qualified as an occupational safety and health trainer by several years of experience. He has 19 years of manufacturing experience, 4.5 years in the chemical industry. He also has 10 years of conducting on-site inspections across the country. Jim has an extensive background and knowledge in OSHA compliance and is an authorized Outreach instructor for OSHA 10 Hour, 30 Hour. Jim's experience also extends into Industrial Hygiene, HAZWOPER, and Medical Team training. Jim has a personal commitment to assist you in creating a strong safety culture within your individual organizations.
