

Job Safety Analysis - 4 Hour Course

Control operating hazards and costs

Job Safety Analysis (JSA) is a proven process for controlling operating hazards and costs. You'll get a step-by-step overview of the process and defining your role in making it effective. You'll learn how to develop and manage a JSA program in your workplace. You'll also learn how to enlist participation from frontline employees, supervisors and upper management.

JSA is a proven process for controlling operating hazards and costs by dissecting processes within your operation and determining the best method to eliminate or subdue the hazards inherent with these processes. You'll get a step-by-step overview of the process and define your role in making it effective. Lectures, demonstrations and workshops will teach you how to develop and manage a JSA program in your workplace. You'll also learn how to enlist participation by line employees, supervisors and upper management.

What You Will Learn

- Reducing personal injuries and controlling operating hazards and costs
- Recognizing the hazards in task performance
- Completing a JSA form correctly and efficiently

About The Trainers.....

Bryan Doty • Director of Program Development & Training • Iowa-Illinois Safety Council

Bryan has been involved in manufacturing for nearly 20 years, serving on safety teams and safety committees for 15 years and 5 years as a safety coordinator for a window manufacturer. He has 3 years experience in the construction industry as a safety manager/consultant. Bryan is an authorized OSHA Training Institute Outreach Trainer for General Industry and Construction. Bryan also has authorization through the Midwest OSHA Education Center to instruct the OSHA 500, 501, 502, 503, 510 and 511. He has the National Safety Council Advanced Safety Certificate and holds a certificate in Industrial Ergonomics. Bryan is an instructor for the National Safety Council 4 Hour Defensive Driving and instructor development courses as well as the National Safety Council First Aid, CPR, AED and BBP courses for adult, pediatric and instructor development. His experience and diverse background gives Bryan the ability to serve in the field as well as the classroom to help bring solutions to safety problems.

Jim Silvers • Trainer/Consultant • Iowa-Illinois Safety Council

Jim is identifiably qualified as an occupational safety and health trainer by several years of experience. He has 19 years of manufacturing experience, 4.5 years in the chemical industry. He also has 10 years of conducting on-site inspections across the country. Jim has an extensive background and knowledge in OSHA compliance and is an authorized Outreach instructor for OSHA 10 Hour, 30 Hour. Jim's experience also extends into Industrial Hygiene, HAZWOPER, and Medical Team training. Jim has a personal commitment to assist you in creating a strong safety culture within your individual organizations.
