Please join us for the next of our 2013 informative seminars on hot topics!

Parenting Your Transition-Aged Child
as They Enter Adulthood

Speaker: Fran Goldfarb, MA, MCHES

As teenagers transition to young adulthood, parents face understandable fears and often go into "overprotection mode." Join us as we discuss "letting go," starting early, helping your child to become independent, and the resources that are available to help you. Our speaker is the Director of Family Support at the USC Center for Excellence in Developmental Disabilities at Children's Hospital of Los Angeles, and the parent of a young adult with a developmental disability.
