

## West Midlands Section Conference

### Mitigation and Enhancement: Case Studies and Best Practice

09 April 2014, Pershore

The West Midlands Section held a very successful one day conference at Deer Park Hall in Worcestershire on 09 April 2014. Delegates enjoyed the sunshine in the beautiful grounds of Deer Park Hall during the breaks and nine excellent speakers gave talks ranging from wetland mitigation and SuDs design, through mitigation for bats, badgers, small mammals, invertebrates, amphibians and reptiles to translocation of habitats and mitigation in EcIA developments.

Presentations from the event can be found on the CIEEM website [here >>](#)
