<input type="checkbox"/> Option 1: Community-Based Tropical Disease Research (2 weeks) Dates: June 24, 2017- July 8, 2017	Cost			
	OHIO Program Fee \$2,929.00	Administrative Fee \$150.00	Out of Pocket Estimate \$1,815.00	Total Cost Estimate \$4,894.00
Description: The coastal region of Ecuador was hit by a magnitude 7.8 earthquake on April 16, 2016, which killed more than 670 people, injured nearly 5,000 and left as many as 80,000 homeless. The coastal province of Manabí was hardest hit. Disaster relief efforts continue. Following ITDI and CISEAL's aim of fostering scientific engagement with science-driven and community-based research initiatives, this 15th Tropical Disease Research Program will transfer its efforts to Manabí province, one of the region's most severely affected by the earthquake. Options 2 and 3 will allow students to gain practical research experience in one of the following research components: Health research in earthquake recovery context, Interprofessional Clinical Research and Disaster Relief Health Care Clinic, and Communications – Multimedia Production				
<input type="checkbox"/> Option 2: Community-Based Tropical Disease Research (3 weeks) Dates: June 24, 2017- July 15, 2017	Cost			
	OHIO Program Fee \$3,571.00	Administrative Fee \$150.00	Out of Pocket Estimate \$1,815.00	Total Cost Estimate \$5,536.00
Description: Same as option 2, but 3 weeks in duration				
<input type="checkbox"/> Option 3: Humanitarian Service Learning in Ecuador (5 weeks) Dates: June 17, 2017- July 22, 2017	Cost			
	OHIO Program Fee \$4,335.00	Administrative Fee \$150.00	Out of Pocket Estimate \$1,815.00	Total Cost Estimate \$6,300.00
This Tier III five-week course (INST 4100) will take place in Ecuador and will introduce students to the concept of global service-learning and community recovery in a post-earthquake zone. Students will learn about different models and philosophies of service-learning while contributing to disaster relief and community regeneration in communities afflicted by the April 2016 earthquake in Manabí province. The service-learning group will work collaboratively with Catholic University of Ecuador faculty and staff as well as members of local, community-based organizations on a community-identified, humanitarian service project in an under-resourced community in Manabí, Ecuador. Students will gain a greater understanding of the concept of resilient communities and explore what it means to be a global citizen while gaining an understanding of service-learning in an international context.				
<input type="checkbox"/> Option 4: Laboratory Research at CISEAL (2 week minimum, Up to 15 weeks) Dates: Variable from May 6-August 19	Cost			
	OHIO Program Fee \$1,755.00	Administrative Fee \$150.00	Out of Pocket Estimate \$1,815.00	Total Cost Estimate \$3,720.00
A limited number of participants can prolong their stay conducting laboratory work at the Center for Research in Health in Latin America (CISEAL). CISEAL's new 100,976 sq. ft. facility includes biosafety level 2 laboratories, an insectary, an animal facility, climate controlled experimental rooms, as well as a clinical research suite and a data management center. All of them will be available for students enrolling in this component according to their research backgrounds and interests. Projects include: Mosquito biology, physiology and control; molecular biology toward Malaria elimination in Ecuador; Chagas disease biology, ecology risk factors, vector population dynamics and molecular biology; Clinical research and blood banks referral unit; Evaluation of social and biomedical program, led by Dr. Ana Lucia Moncayo; Bacterial antibiotic resistance; Bioprospection of medically active compounds, Mtr. Alexandra Narvaez and Myriam Rivera.
