Sage VIP InfoSlips

Keep your employees in the loop with electronic & mobi payslips

A VIP InfoSlip is a secure electronic payslip that not only mirrors the VIP paper payslip, but offers your employees an interactive compensation statement that shows them all their benefits in an easy-to-read, engaging format.

For more info, visit www.sagevip.co.za or contact us on 0861 55 44 33 or email sales@vippayroll.co.za Plus - the InfoSlip offers you a unique way to communicate with your employees: simply attach data in Microsoft Word or Excel and you have a powerful new communication channel for newsletters, travel claims, increase letters, etc.

When you keep your employees in the loop, you recognise their worth and importance to you. And you keep them motivated.

Safe and secure

All InfoSlip files are secured with 256 bit encryption. To open the InfoSlip, your employees are issued with PUK (Personal User Key) codes. They are then required to choose a personal password.

Online archiving for seven years

All InfoSlip files (payslips and IRP5s) are archived online for seven years. Your employees can simply register online for access to historic InfoSlips or IRP5s. Should employees leave the company, they will still have access to their history records.

InfoSlips make life easier for you and your employees

 InfoSlips comply with the Electronic Commerce and Transaction Act (ECT Act), Protection of Personal Information Act (POPI) and the guidelines issued by the South African Revenue Service.

- An InfoSlip gives your employees much more information than a paper payslip.
- Your employees can inform you of changes in their personal details or send queries about their salary or leave via email using the embeded query links, significantly reducing your HR admin.
- It takes a fraction of the time to compile and distribute InfoSlips compared to printed payslips. You can also schedule the specific delivery date and time.
- There's no need to reprint lost or deleted payslips and IRP5s.
 Employees can print or forward their archived InfoSlips through the online self-help portal. Delivery is free and immediate.
- Our iOS, Android and Windows phone app lets your employees access their archived InfoSlips on their smartphones.
- Online resends mean there's no need to restore old backups to reissue past payslips.
- InfoSlips cut your courier and stationery costs and save paper.
- It is far more secure than manuallydistributed paper payslips.
- InfoSlip files can be sent to third parties (e.g. financial institutions and accountants) online.

InfoSlips gives you the following standard features		Welcome note Your HR department can communicate important news or events to your employees.		Graphic display of remuneration package Gives your employees a snapshot overview of Total Package or Cost-to-	
					Customised branding
