GEM-CAR: Automotive Repair & Tire Shop Management Software

A simple philosophy!

When choosing to implement ***GEM-CAR Enterprise*** in your business, you actually cross an important threshold in your commitment towards your customers, your staff and your business. The benefits are not solely linked to product purchases but, more importantly, linked to the training, coaching, ease of implementation and the simplified day to day management included in the overall product offer. Whether you specialize in automobile or truck repair, tire sales, used cars or a recycler, when the new functionalities of ***GEM-CAR Enterprise*** are fully applied, the entire business will enjoy the benefits the software was designed to provide.

Putting modern technology to work for you!

When choosing ***GEM-CAR ENTERPRISE***, you've selected **a business system based on the most recent technological advancements**. You always get the most up to date version and benefit from all our on-going advancements and improvements from our research & development team. Putting ***GEM-CAR ENTERPRISE's*** modern technology to work for you means;

- Quickly put to work at very little cost,
- Designed to easily transfer your customer data and history from other programs such as VL, etc.
- Easy to use and so intuitive, thus less training time,
- Remote access,
- Multiple user stations,
- Very user friendly.

Implementing a management system; *a sound strategic objective!*

The implementation of ***GEM-CAR*** as a management tool allows for effective *real life* performance measurement of overall and per work order time management and profitability, generating a permanent and accurate historical database for instant consultation, evaluation and faster corrective response.

GEM-CAR is so easy, user friendly and practical, your staff will truly enjoy using it!

GEM-CAR: Automotive Repair Shop Management Software

A smart implementation plan is key!

The implementation of ***GEM-CAR ENTERPRISE*** in your business requires a commitment from all staff members that will be using the system, including key managers and owners. Like tools in your shop, without proper training, you can not enjoy their benefits and full potential. Proper training and support of all team members is essential and is directly linked to the quality of the work life for your staff and the business results ***GEM-CAR ENTERPRISE*** was designed to provide.

Training: a major component for success!

The commitment and understanding from all staff members is the key to any change or improvement. In preparation for training, it is critical that training be adapted to the individual competencies of each staff member. ***GEM-CAR*** was designed specifically by & for the auto repair industry and environment, further making ***GEM-CAR*** *the software of choice*!

Testimonials :

« I enjoy the flexibility offered by GEM-CAR that allows us to get accurate and real time costs and prices with Uni-Select. Also, the very easy to find and user friendly icons allows us to perform end of days very fast and find any mistakes. »
Steve Poulin, **Garage Grenier Poulin - Uni Pro**

« GEM-CAR invoices clearly detail all the labour and parts used for each job or operation which, in turn, makes it easier to explain and justify the work we do for the customer. »
Bernard Poisson, **Garage Bernard Poisson - The Specialist**

With GEM-CAR;
Goodbye paperwork, hello productivity!

New Functions!

In addition to the many basic functions available from the Point of Sales window, such as reminders, agenda, part search and ordering, ***GEM-CAR ENTERPRISE*** now offers;

- Customize your invoices with colours, logo(s), and legal text such as warranties and for CAA members, etc.
- Select from various invoice models for each type of customer. Use one model for mechanical services or the one for your banner or franchise for example and select another invoice model for tire sales, towing or other services,
- Manager manufacturer rebates,
- Customize your work orders to add images for certain operations and customize your visual inspection procedures,
- Create your very own specials and packages,
- Use the reservations module to « hold » parts and make sure you don't sell the same parts or tires twice.

Minimal configuration requirements

We recommend the use of a simple PC based computer with a minimum 256 memory, 15" screen with an 800 x 600 resolution and a printer.

GEM-CAR is available as :

A single user station application with Windows 98 or XP Pro

Multiple user stations using Windows XP Pro or NT/2000
