Title: Change is Hard – but it does not have to hurt

(transitions workshop)

**Description:**Experts estimate that 20 - 30% of a young child's day involves transitioning from one activity to another. That's a lot of moving and a lot of wasted time! Unless teachers plan transitions as intentionally as they plan the rest of their day, transitions can be stressful and frustrating for teachers and children. Participants will identify the transitions in their daily schedule, determine ways to eliminate some transitions and learn strategies to support SMOOTH transitions!!!
