

COURSE DESCRIPTIONS

Sign Language Basics for Health Care Professionals

July 29, August 1 & 5

Learn to use the manual alphabet and signs that you use daily while earning 9 hours of continuing education credit.

Understanding Kidney Transplantation: In and Outpatient Management

July 30

Learn about the practice of solid organ transplantation with the use of kidney allografts as the model.

Assisting Persons with Limited Vision

August 12

Lecture, demonstration and video presentation show how health care providers can best assist clients who are low vision or blind. Full scholarships available, which include manual by local author.

Developing Fetus: Issues of Teratogens, Genetics and Anomalies

August 13

Answer questions about abnormalities, some preventable, so professionals can assist patients and their families.

Intravenous Therapy Certification

August 17, 18, 24 & 25 September 7 & 8

This 38-hour weekend course teaches IV skills or is a refresher. Covers IV insertion, management and complications. Also included, calculating medication dosages, administering blood, care of central lines, etc. Prepayment of \$325 tuition required that includes \$80 skills kit of catheters, dressing change kits, fluids, etc. Call for flier.

Computer Skills Testing for EMR Charting

September 9

In a computer lab, with the direction of your instructor, show your skills of Microsoft Windows operating system and basic computer file management, which is the foundation that EMR programs are built on. Successful completion of test will show employer that you are ready for their specific EMR training on the job.

Computer Training I and II for EMR Charting

September 16 & 23

Gain the skills you need in the Microsoft Windows operating system and basic computer file management before employment. Will prepare you for the EMR training on the job.

How We Breathe: Lung Compliance and Resistance

September 11

The opening/stretch of our lungs is the compliance and the return to resting position is the resistance. Explanation of how these values change with disease and aging.

HIV/AIDS

September 19

Part I-Learn the facts of the disease. Part II-Members of the Positive Champions speakers bureau in a panel presentation share their personal experiences with this disease. African visit experiences shared by instructor. Must attend Part I to attend Part II.
