

**2014 West Virginia State Science and Engineering Fair
Rule Agreement Form**

As a participant in the West Virginia State Science and Engineering Fair (WVSSEF), I have read the 2014 Intel International Science and Engineering Fair (ISEF) rules. I understand that all scores will be kept confidential following the WVSSEF and will not be released.

I understand that the Grand Prize Winner (or Winning Team) will be sent to the Intel ISEF in Los Angeles, CA during the week of May 11-16, 2014. The winner (or winning team) will be accompanied by one (1) adult academic advisor. Thus, if the winner of the WVSSEF is an individual project, WVSSEF will send the winner and one (1) adult academic advisor. If the winning project is a team project the WVSSEF will send the winning team plus one (1) adult academic advisor.

It is the responsibility of the WVSSEF to pay ISEF registration fees and to book all transportation and lodging arrangements for the winner (or winning team) and adult academic advisor prior to the ISEF. All transportation and lodging booked by outside parties will not be reimbursed. The WVSSEF will reimburse the travel party for all ground transportation and display shipping upon the production of proper documentation.
