1. Introduction

Newsletters are important part of marketing. This method is tested and widely used and will help you to get more orders and more newsletter subscribers. How it works ? This extension show one time per customer popup with newsletter subscribtion form, and suggested to subscribe and get free gift coupon (e.g 5 euro.) for it. If customer has small coupon he want to buy much more. And you have customer email and can send newsletter. You can use only coupoun function without popup.

Features

- **Easy installation**
- **Flexible configuration**
- **User guide**
- **Support**
- **Use coupon function without popup**
- **Different themes**
- **If you need other version implantation or more themes please contact with us.**

2. Installation
