SHOULD I USE GITKRAKEN OR SOURCETREE FOR GIT?

Who Are You?

An Actual Kraken

NO → Seriously?

YES → **Use GitKraken**

Software Developer

Which do you use?

- Windows
- MacOS
- Linux

Windows / MacOS → Is a fast, easy, and intuitive interface important to you?

NO → Spock or Kirk?

Spock → See our other infographic:

GitKraken vs CLI

Kirk → Do you want multiple profiles to easily switch your `.gitconfig` on the fly?

YES → **Use GitKraken PRO**

NO → Do you need to undo a commit?

NO → Do you dislike chocolate?

YES → **Use SourceTree**

NO → Would you like to simply drag and drop to merge, rebase, reset, push, etc.?

YES → **Use GitKraken**

NO → Do you want to open pull requests in app, use Fuzzy Finder, and resize your commit graph?

YES → **Use GitKraken**

Is a fast, easy, and intuitive interface important to you? YES → **Use GitKraken**

Linux → **Use GitKraken**

Tired of switching apps to resolve merge conflicts?

YES → Even if the merge tool has a robust output editor?

NO → Do you want a choice when faced with the Light and Dark side of the Force... err we mean color themes?

YES → **Use GitKraken**

NO → **Use GitKraken**

Wow, really? OK, YES! → **Use GitKraken PRO**

Student

Do you have a GitHub Student Developer Pack?

NO → Want one?

NO →

YES → Free for Students: education.github.com/pack → **Use GitKraken PRO**

YES → **Use GitKraken PRO**
