Example:

I'm Justin Clupper, I was born on October 25, 1984, which makes me 29. I was not born in a small town, but I lived in a small town (yes I'm a John Mellencamp fan), I grew up in Columbia City, Indiana. My college experience was spent at Taylor University in the even smaller town of Upland, Indiana. I graduated with a degree in Mass Communication, but learned so much more. I chose that degree because I originally wanted to go into the radio business, and when I learned there wasn't any money in radio, I went into nonprofit work! (wait, what?) My involvement on campus was pretty extensive, I was the radio stations General Manager for three years, I organized the big concert for the annual Youth Conference each year and I was a co-director for a local children's ministry. To answer your question, I only slept about four hours a night.

I'm interested in the Fellows because I think it is a fantastic way to bring bright, quality college students into the Fort Wayne area, allowing them to experience all of the great amenities I've come to fall in love with! My favorite activity on the weekend is catching up on my DVR. Life seems to move so quickly during the week, I love taking a few hours on Saturday or Sunday to relax and get lost in a great comedy or drama. And if my wife and I are going out on the weekend, there is a very real chance it's for Mexican – we love everything about it.

Something you should know about me? I am petrified of snakes. I will ignore that part of the Zoo when we visit.
