

# ASC FRAUD AND COMPLIANCE TRAINING VIDEO INCLUDING COMPLIANCE PLAN TEMPLATE

## WHY IS THIS IMPORTANT TO YOUR ASC?

- Healthcare providers have been, and continue to be, the target of criminal, civil and administrative enforcement actions.
- Federal and state officials are intent on eliminating fraud and abuse from the healthcare delivery system.
- As the governmental payors and private payors increase the intensity of their efforts to combat healthcare fraud, the burdens placed upon honest healthcare providers have also increased.
- ASCs must meet the current environment of heightened scrutiny and new laws by carefully assessing their compliance risks and then implementing strategies to control those risks.

Combating healthcare fraud and abuse is a key element of healthcare reform. The Patient Protection and Affordable Care Act now requires that ASCs implement and maintain a compliance program.

March 18, 2011 WASCA presented a Compliance Seminar to review the new requirements of a compliance program and examine fraud issues ASCs need to address to satisfy the new legal requirements.

The seminar was recorded at the request of members who were unable to attend the seminar. We are pleased to present to you the three-disc DVD set. This is a **"must see"** for ASC shareholders, medical directors, board members, administrators, business managers, billing and coding personnel.

The WASCA Board of Directors strongly advises ASCs not only to satisfy the new legal requirements, but also to ensure their plans, policies and procedures enable them to manage the risks of regulatory compliance.

### DAVID SMITH, GARVEY SCHUBERT BARER FEDERAL PROSECUTIONS IN THE HEALTHCARE SECTOR
