Attachment A

90-day Transition Plan

This form is for you to develop a plan when you are within 90 days of leaving foster care. This plan will focus on activities that you will complete during this time. This is as an agreement between you and those supporting you to work toward completing your transition plan. This should be developed with you in a transition conference setting, or group meeting, with those you want involved and who are helping you to successfully transition out of foster care.

Instructions To Youth: During the 90 day period before you leave foster care, you will make a transition plan that shows where you plan to live, receive additional support, work and/or go to school after you leave care and help keep family connections. The purpose of this plan is to help you take steps to successfully live on your own.

Instructions to Caregiver/other adults: If asked by the youth, you are also agreeing to assist the youth in the development of a 90 day transition plan that will help him/her to successfully transition out of foster care.

Instructions to Social Worker/Probation Officer: During the 90 day period prior to the youth exiting foster care, you are agreeing to assist the youth in developing a transition plan that will address his/her needs for housing, employment, education, mentors, continuing support services and health insurance.

Instructions for Family, Service Providers, CASA and others connected to and supporting the youth: If asked by the youth, you are also agreeing to assist the youth in the development of a 90 day transition plan that will help him/her to successfully transition out of foster care.

During the 90 day period prior to aging out of care:

This plan is to be completed within the 90 day period before you turn 18, 19, or graduate from high school, whichever event will coincide with his/her exit from foster care. If you emancipate from care before age 18, this plan should be completed within 90 days before your target emancipation date.

The sections on the next page must be completed to include your plan for education, employment, housing, mentoring, family connections, continuing support services and health insurance. The plan must be personal to you and as detailed as you can get. The plan must contain specific actions that you and others will take to help you prepare for leaving care.

*Note: The last page of this form has an example grid that can give you ideas to help make your planning very concrete.

Legislative & Regulatory References:

Public Law 110-351, which states that a Transition Plan must be developed at the direction of
the youth during the 90 day period prior to the youth aging out. The plan must contain
specific options on housing, health insurance, education, local opportunities for
mentors/continuing support services and workforce support/employment services.
