DELIVERY

All orders placed are subject to stock availability. Normal despatch will be effected in 10 days, however, some items may take up to 21 days.

To make sure your order arrives safely, our delivery staff will not leave your order unless someone has accepted delivery. If you will be unavailable when we call, we will need special instructions to tell us what you want us to do. **Shop from Home** will not accept responsibility for the security of a package left under special instructions.

REFUNDS/EXCHANGES

Shop from Home refunds and exchanges are in accordance with the Kmart returns policy. For further information regarding our returns policy contact us on 1800 124 125 or visit our website www.kmart.com.au. Freight charges will not normally be refunded unless goods are faulty, do not match product description or are unfit for the purpose made known. However, all exchange items will be sent freight free. When returning merchandise, please include your receipt so we can process your return or exchange straight away.

SIZE GUIDE

The quickest and easiest way to make sure that you are ordering the correct size is to check it against this simple measurement chart. **Shop from Home** uses standard body sizes when cutting garments, in line with current fashion fits, and these measurement guidelines will help ensure you get the perfect fit.

If your measurements fall in-between recommended sizes, **Shop from Home** suggests you order the bigger size. All measurements are given in centimetres.

Important: Please use this chart as a guide only.

HOW TO MEASURE

Measurements will be most accurate when taken standing in your underwear.

Chest/Bust With the tape measure over your shoulder blade, measure around the fullest part of your bust/chest.

Waist Take measurement around your natural waistline.

Hip Measure 20cm below waistline and then take the circumference of your hip.

Neck Measure around the part of your neck where the collar would sit.

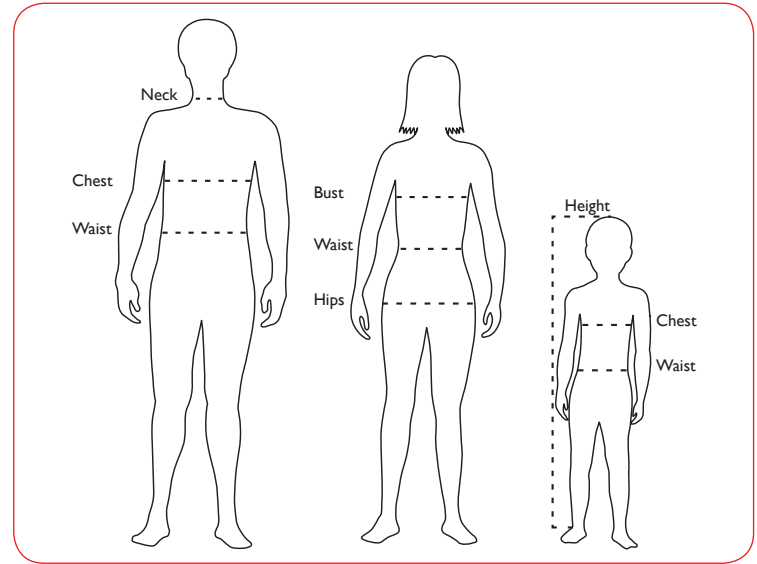

Height Take height measurements for all sizes without shoes.

Shoes & Socks It is best to order your usual shoe or sock size.

Bra Size You can work out your bra size in 2 easy steps.

1. Measure under bust: measure the distance around the body right under your bust where the bottom band of bra rests. This gives the correct bra size.

2. Measure bust: measure the distance over the fullest part of the bust. This gives the correct cup size.
