

SASPAC v9.83 RELEASE NOTES (September update)

This note describes how to update to v9.83 of the SASPAC software application and details of the latest Census data available as part of releases 3.3 and 4.2 published on 30/8/13 by the Office for National Statistics. These datasets represent the latest Detailed and Local Characteristic tables to be published and are now available through SASPAC.

What's new?

SASPAC v9.83 provides:

- access to all Census Detailed and Local Characteristic tables for LA, Ward and statistical geographies;
- enhanced CSV metadata export functionality;
- data and table layout corrections to previous releases

Introduction

On 30 August 2013 ONS published 25 Detailed Characteristic Census tables for Census Merged Wards¹ and Middle Layer Super Output Area (MSOAs) in England & Wales. Two of these tables (DC2210EW and DC2302EW) are for regions only and one table (DC2115WA) is only available in Wales. In addition, 13 Local Characteristic tables were also released, these are available for Output Areas and higher geographies in England and Wales. To support access to these new tables and geographies, the SASPAC team have produced an updated version of the application (v9.83) and supporting System files. Links to new data downloads and details of how to update to this version of the application are provided below.

Do I need to update to SASPAC v9.83?

Users will need to update to v9.83 update to access **all** the current Detailed and Local Characteristics tables published as at August 30 2013 as part of Census releases 3.0 and 4.0. SASPAC v9.80 may continue to be used to provide access to 2011 Census Key and Quick Statistics tables published as part of Census Release 2.0. However, we **would advise users update to v9.83**.

¹ In order to prevent disclosure of individuals' information, Detailed Characteristic (DC) tables have been produced for areas with a minimum threshold of 1,000 persons or 400 households. Some wards fall below this threshold and have been merged with a neighbouring ward, or wards, until the population or household threshold is reached. DC tables have been produced for these 2011 Census Merged Ward geographies.

How do I update to v9.83 from v9.80?

SASPAC v9.83 is available as a "**copy & paste**" update, instead of the full installation package usually provided (available with v9.80 from: <u>www.saspac.org</u>). This is due to the relatively small nature of the update and to help organisations' avoid the, sometimes costly, time-consuming process of arranging a full software installation.

There are four steps to the update process:

- Download and unzip the software update files from: <u>http://bit.ly/1fBIIhM</u> (8MB.zip)
- With the application closed, copy the files from the downloaded zip file to the following locations (replace any existing files if prompted).
 - copy the file "WSAS32.EXE" into c:\SASPAC\
 - copy the files within the "**METADATA**" folder into "c:\SASPAC\METADATA\" folder
 - copy the files within the "**FRWORK**" folder into "c:\SASPAC\FRWORK\" folder
 - copy the files within the "FRWDATA" folder into "c:\SASPAC\FRWDATA\" folder

NB: This assumes a c:drive local installation and an alternative location may be necessary if a networked installation has been undertaken.

Locate the "saspac.ini" configuration file: this file can be found by running the application
"C:\SASPAC\findsasini.exe" which will produce a window (below) containing the file location.

R	Your SASPAC INI file pathname is as follows:
Ψ	C.\Users\alewis\AppData\Roaming\SASPAC\SASPAC.ini
	Click the Copy to Clipboard button to place a copy of the complete INI file pathname on the Windows clipboard; you may then paste the text elsewhere.

Select "Copy to Clipboard", paste this text into a Windows Explorer window (below) and this file should open in Notepad (or a similar text editor).

💭 🗢 📕 C:\Users\alewis\AppData\Roan	ning\SASPAC\SASPAC.ini		- >	Search SASPAC
ile Edit View Tools Help Irganize ▼ 📾 Open Burn Ne	w folder

Alternatively, this file may be found in the following locations depending on the Operating System in use:

Windows XP: C:\Documents and settings\<user area>\Application Data\SASPAC\saspac.ini

Windows Vista: C:\Users\<userarea>\AppData\Roaming\SASPAC\saspac.ini

Windows 7: C:\Users\<userarea>\AppData\Roaming\SASPAC\saspac.ini

Having opened this file, navigate to the section headed "[Framework, Table & Cell Metadata]".

Now copy and paste the following text on two new seperate lines inserted between the existing

2nd and 3rd lines (beginning "2011QS=origin..." and "2011CT=origin...").

2011DC=origin:"SASPAC",fwk:"DC11.fwk",fdesc:"Detailed Characteristics",year:"2011",type:"S",lookup:"DC11DA", xml:"DC11" 2011LC=origin:"SASPAC",fwk:"LC11.fwk",fdesc:"Local Characteristics",year:"2011",type:"S",lookup:"LC11DA", xml:"LC11" The saspac.ini file should now look similar to below (the additional lines are highlighted):

[Framework, Table & Cell Metadata]

2011KS=origin: "SASPAC", fwk: "ks11.fwk", fdesc: "Key Statistics", year: "2011", type: "S", lookup: "KS11DA", xml: "KS11" 2011QS=origin: "SASPAC", fwk: "qs11.fwk", fdesc: "Quick Statistics", year: "2011", type: "S", lookup: "QS11DA", xml: "QS11" 2011DC=origin: "SASPAC", fwk: "DC11.fwk", fdesc: "Detailed Characteristics", year: "2011", type: "S", lookup: "DC11DA", xml: "DC11" 2011LC=origin: "SASPAC", fwk: "LC11.fwk", fdesc: "Local Characteristics", year: "2011", type: "S", lookup: "LC11DA", xml: "LC11" 2011CT=origin: "SASPAC", fwk: "CT11.fwk", fdesc: "Commissioned Tables", year: "2011", type: "S", lookup: "CT11DA", xml: "LC11" 2001KS=origin: "SASPAC", fwk: "ks01.fwk", fdesc: "Key Statistics", year: "2001", type: "S", lookup: "KS01DA", xml: "KS01" 2001UV=origin: "SASPAC", fwk: "uv01.fwk", fdesc: "Univariate Tables", year: "2001", type: "S", lookup: "UV01DA", xml: "UV01"

Now save and close this file.

4) Finally launch the application and the banner should now read "SASPAC for Windows v9.83 (Web Services)". To check the Detailed and Local Characteristics table sets are now available: open the file menu item "File|New Task|Output Report|Print Variables" and select the "Search Tables" button, now select the "Table set" drop-down list and Detailed and Local Characteristics datasets should appear as the third and fourth items:

Table set	2011 Key Statistics	•
	2011 Key Statistics	
Keyw	2011 Quick Statistics	er \
	2011 Detailed Characteristics	
2011	2011 Local Characteristics	
	2011 Commissioned Tables	
PROD	2001 Key Statistics	
-	2001 Univariate Tables	-
	2001 Standard Tables	
Table	2001 Standard Theme Tables	

How do I update from SASPAC v9.82 to v9.83?

With SASPAC v9.82 installed follow the steps outlined below:

- Download and unzip the software update files from: <u>http://bit.ly/1fBIIhM</u> (8MB.zip)
- With the application closed, copy the files from the downloaded zip file to the following locations (replace any existing files if prompted).
 - copy the file "WSAS32.EXE" into c:\SASPAC\
 - copy the files within the "**METADATA**" folder into "c:\SASPAC\METADATA\" folder
 - copy the files within the **"FRWORK**" folder into "c:\SASPAC\FRWORK\" folder
 - copy the files within the "**FRWDATA**" folder into "c:\SASPAC\FRWDATA\" folder

NB: This assumes a c:drive local installation and an alternative location may be necessary if a networked installation has been undertaken.

Locate the "saspac.ini" configuration file: this file can be found by running the application
"C:\SASPAC\findsasini.exe" which will produce a window (below) containing the file location.

Your SASPAC INI file pathname is as follows: C\Users\alewis\AppData\Roaming\SASPAC\SASPAC.ini Click the Copy to Clipboard button to place a copy of the complete INI file pathname on the Windows clipboard: you may then paste the text elsewhere.						
C:\Users\alewis\AppData\Roaming\SASPAC\SASPAC.ini Click the Copy to Clipboard button to place a copy of the complete INI file pathname on the Windows clipboard: you may then paste the text elsewhere.	A	Your SASPAC INI file pathname is as follows:				
Click the Copy to Clipboard button to place a copy of the complete INI file pathname on the Windows clipboard: you may then paste the text elsewhere.	Y	C:\Users\alewis\AppData\Roaming\SASPAC\SASPAC.ini				
		Click the Copy to Clipboard button to place a copy of the complete INI file pathname on the Windows clipboard: you may then paste the text elsewhere.				

Select "Copy to Clipboard" and paste this text into a Windows Explorer window and this file should open in Notepad (or a similar text editor). Having opened this file, navigate to the section headed "[Framework, Table & Cell Metadata]" and copy and paste the following text on a **new line** between the existing 2nd and 3rd lines (beginning "2011DC=origin..." and "2011CT=origin...").

2011LC=origin:"SASPAC",fwk:"LC11.fwk",fdesc:"Local Characteristics",year:"2011",type:"S",lookup:"LC11DA", xml:"LC11"

Finally, save and close this file.

4) Launch the application and the banner should now read "SASPAC for Windows v9.83 (Web Services)". To check the Local Characteristics table set is now available: open the file menu item "File|New Task|Output Report|Print Variables" and select the "Search Tables" button, now select the "Table set" drop-down list and the Local Characteristics dataset should appear as the fourth item:

How do I update the existing SASPAC v9.83 to access the new Local Characteristics tables?

With SASPAC v9.83 installed follow the steps outlined below:

- Download and unzip the software update files from: <u>http://bit.ly/1fBIIhM</u> (8MB.zip)
- 2) With the application closed, copy the files from the downloaded zip file to the following locations (replace any existing files if prompted).
- copy the file "WSAS32.EXE" into c:\SASPAC\ folder
- copy the files within the "METADATA" folder into "c:\SASPAC\METADATA\" folder
- copy the files within the "**FRWORK**" folder into "c:\SASPAC\FRWORK\" folder
- copy the files within the "FRWDATA" folder into "c:\SASPAC\FRWDATA\" folder

NB: This assumes a c:drive local installation and an alternative location may be necessary if a networked installation has been undertaken.

Finally, having updated the software the final task is to visit <u>http://saspac.org/data/2011-ew/outputs/</u> and download the supporting 2011 Detailed and Local Characteristics System files and save these to the user's local machine or a shared network drive.

How to use the enhanced metadata output function in v9.83?

SASPAC's CSV export task has been enhanced to allow the user to include a variable description alongside the usual cell identifier (e.g. KS101EW0001). This can be accessed through the usual 'File|New Task|Export data|CSV File...' task window:

input System Files	Variables	01
Q:\US\MASTER SYSTEM FILES	Search Tables Manipulate Variables	UK.
	Selected Variable Name(s)	Select Areas
Q: (ASPACIDATA (2001 CENSUS	KS201EW	Output Options
Q: \D \ENFIELD SYSTEM FILES		Undo Command
Other Files Explore Deselect	Interface File	Add Comments
Current Selection(s)		
Q:\TRICT - ENGLAND.SYS	Output to	Cancel Task
	Current output file selection	Help
	C:\C\KEYSTATS-TABLES.CSV	L
Same Data, Different Areas	Set Countycode On With metadata	
🗇 Same Areas, Different Data	With headers	

However, you will notice the addition of a new 'With metadata' tick box under the Interface File options.

Simply select this option to include a cell description in the header, along with the cell identifier:

CSV output without cell metadata selected (row 1 contains just the cell identifiers):

1	A	В	С	D	E	F	
1	ZONEID	KS201EW0001	KS201EW0002	KS201EW0003	KS201EW0004	KS201EW0005	k
2	E06000001	92028	88924	193	40	742	
3	E06000002	138412	119106	574	85	2290	
4	E0600003	135177	131928	415	85	775	
5	E06000004	191610	178965	536	143	1655	
б	E06000005	105564	98898	328	350	2019	
7	E06000006	125746	121210	654	41	1136	
8	E06000007	202228	187968	1357	66	4601	
9	E06000008	147489	98144	794	161	2910	
10	E0600009	142065	133042	1029	237	3031	

CSV output **with** cell metadata (row 1 contains just the cell identifiers along with textual descriptions):

-	A	В	C	D
1	ZONEID	KS201EW0001:All Usual Residents	KS201EW0002:White: English/Welsh/Scottish/Northern Irish/British	KS201EW0003:White: Irish
2	E06000001	92028	88924	193
3	E06000002	138412	119106	574
4	E0600003	135177	131928	415
5	E06000004	191610	178965	536
6	E06000005	105564	98898	328
7	E06000006	125746	121210	654
8	E0600007	202228	187968	1357
9	E06000008	147489	98144	794
10	E0600009	142065	133042	1029
	FACAGAGA	aris to s		The second

The metadata output option is available for all 2011 datasets and the majority of 2001 Census datasets. However, it is not currently possible for earlier Census tables (1991-1971) but the SASPAC team will be working on adding this functionality in due course.

Please contact the helpdesk if you have any issues updating your system at all.
