North Carolina Beach, Inlet & Waterway Association (NCBIWA) is a statewide group working daily on behalf of North Carolina's coast, and those who love it, by seeking to:

- encourage appropriate government action and funding
- educate and advocate for effective and practical Federal and State policy
- facilitate environmentally sound scientific and engineering solutions for our threatened beaches, inlets and waterways

Our coastal resources are under attack by Federal policies that have abandoned our inlets, beaches, and waterways as well as State rules that have often gone too far with little positive result. This must change! Our recent organizational changes are a positive step in reducing duplication of efforts of coastal interest groups and in strengthening the influence of NCBIWA. Our challenge to represent the entire coast has expanded to cover all coastal sand management issues, our standing as a resource for decision makers has been elevated, and our mission to speak as the one effective voice for NC coastal issues **has grown into a roar that cannot and will not be ignored. [Join us won't you?](http://www.ncbiwa.org)**

The One Effective Voice for the North Carolina Coast™
