Sheet of

<p align="center">FOR APPROVED VETERINARY SURGEON USE</p> <p>No. of animals tested on this page: _____</p> <p>Signature: _____</p> <p>Date test commenced: _____</p>	Stamp
---	-------

- Notes:
- The number of animals not tested must be entered at question 8(a) of Form TB 52
 - The correct date of birth or age of each animal should be shown separately. This is particularly important for reactor and IR animals.
 - Where added animals and inconclusive reactors are tested at this test they must be clearly identified in the Remarks column. It should also be stated whether they are in isolation.
- Abbreviations: S.O. = Some oedema, C. = Circumscribed, + = Positive, - = Negative

Official animal identity	Breed	Date of Birth or Age	Sex	Group	Skin measurements m.m.		Description of reaction	Reaction Result	Overall result reactor or IR	Remarks including description of lesions of skin tuberculosis and record of clinical evidence of Johne's disease, etc. Reactor - Pedigree or commercial? Homebred or Purchased?
					Before injection	At 72 hours
