

DOCUMENT USE AND INDEMNIFICATION AGREEMENT

The National Air and Space Museum, Smithsonian Institution (hereafter Museum) agrees to provide (Name:) _____ (hereafter Requestor) reproductions of drawings and/or other documents containing design data of air and space craft described below:

(List equipment types below. See reverse of this form for information on proper citation of types.)

These reproductions from the Museum's archival collections will be furnished to Requestor subject to the following terms and conditions:

The reproductions are made available by the Museum solely for personal, non-commercial uses such as historical research, exhibition, model making, or non-profit restoration purposes. Permission for such uses is granted only to the extent of the Smithsonian Institution's ownership of the rights related to the request. Certain drawings and data may be subject to copyright, trademark, patent or related interests not owned by the Institution. The responsibility for ascertaining whether any such rights exist and for obtaining all necessary permissions remains with the Requestor.

The Museum makes no representations or warranties that the reproductions furnished meet current or past airworthiness standards or are in any way suitable for use in the construction or repair of aviation or aerospace equipment.

The reproductions provided by the Museum may not be further reproduced, distributed, published, transmitted or used for manufacturing or replication purposes. Requestor agrees to release, defend, hold harmless, and indemnify the National Air and Space Museum and the Smithsonian Institution, its Regents, officers, employees, and agents, and the United States Government from and against any and all claims, suits or actions of any nature arising from any loss or damage resulting from or in any way connected with loss or damage resulting from or in any way connected with uses not consistent with the permissions granted herein.

Requestor acknowledges that he/she has read and understands the terms of this agreement.

PROPER CITATION OF AIR AND SPACE CRAFT TYPES FROM NASM ARCHIVES SOURCES

When completing a **Document Use and Indemnification Agreement**, it is important to properly cite the model designation for any drawings or other documents which you will be receiving from the NASM Archives. For materials from many of our collections, the proper citation will simply be a manufacturer and model or models. For drawings from the **Waco Aircraft Company Drawings Collection** for example, indicate the specific model or models for which you are requesting drawings: *Waco PDC, Waco YPF-7, Waco 9.*

Several of our large collections are not as straightforward, however. In these collections, one unit of material (such as one drawing sheet or one reel of microfilm) often pertains to a number of different aircraft models. **Although you might be interested in only ONE model appearing in the material, for legal purposes you must cite ALL models included in the material which you would like to receive. DO NOT LIST THE ITEM NUMBERS of the material you are ordering.**

Two examples are given below.

Engineering drawings on microfilm: Custom search printout			
Inactive Contractor's Drawings (Ryan Aeronautical Co
