# I. Overview

## DEVELOPMENT OF THE UCOA

The design and development of the New Mexico Public Education Department (PED) Uniform Chart of Accounts (UCOA) is based on the following key principles:

- The UCOA is based on the framework provided by the National Center for Educational Statistics (NCES) in their publication *Financial Accounting for Local and State School Systems, 2003 Edition*.
- The NCES framework is modified where necessary to meet the needs of New Mexico school districts and charter schools.
- The UCOA will allow PED to obtain and retain currently reported data.
- The structure will provide for future expansion for additional components.
- The reporting requirements will be expanded to include Standardized Locations and Programs to provide comparative reporting capabilities.
- The reporting capabilities using the UCOA will be enhanced.

## II. INTRODUCTION TO THE UCOA

An accounting system is the means by which financial transactions are:

- Planned.
- Captured during the actual operation of the school district or charter school.
- Recorded in the books of accounts.
- Analyzed to produce the various reports for management, financial status and accountability.

The structure outlined for New Mexico school districts and charter schools provides a classification structure which will meet the school districts and charter schools needs and will provide comparable data when reports from the different school districts and charter schools are combined.

### OBJECTIVES OF THE UCOA

The UCOA outlined in this manual will provide an accounting and financial reporting framework to school districts and charter schools in New Mexico that satisfies the requirements of fiscal integrity and accountability to taxpayers and other stakeholders.

The UCOA establishes a complete fund accounting system, including the recording of assets, liabilities, fund balance (fund equity for business-type funds), revenues, and expenditures. Its standardized account code structure has been designed to accomplish the following key objectives:

- To establish a uniform, comprehensive, minimum chart of accounts statewide to improve financial data collection, reporting, transmission, accuracy, and comparability among New Mexico school districts and charter schools, as well as with school districts nationally.
- To meet the needs of both small and large school districts and charter schools while retaining comparability of collected and reported data.
- To use program accounting to apply certain support service costs to the educational cost centers and instructional programs.
- To establish site-based management of financial resources (the use of cost center budgeting of expenditures and certain revenues is emphasized).
- To ensure school districts and charter schools comply with generally accepted accounting principles (GAAP) developed by the Government Accounting Standards Board.
- To allow for timely and accurate recording of financial transactions.
- To create a logical framework that can be used to determine where monies for education originate and how they are used.
- To provide a comprehensive, full disclosure of the financial position of the reporting school district or charter school to parents, administrators, board members, PED, legislators, and other interested parties.
- To reduce the administrative burden on school districts and charter schools, as well as PED, in preparing required financial reports

## BASIS OF ACCOUNTING

The basis of accounting refers to the point of time when revenues, expenditures, and the related assets and liabilities are recognized in the accounts and reported in the financial statements and the method of accounting being utilized. There are three (3) methods of accounting commonly used by school districts and charter schools.

- **Cash-Basis Accounting** recognizes transactions when cash is received or disbursed. A weakness of cash basis accounting is that it does not recognize accounts receivable, accounts payable and other accrued items. Accordingly, it does not properly match resources used to resources provided.
- **Modified Accrual-Basis Accounting** recognizes transactions when they become both measurable (amount is known) and available for use or collection within the current accounting period.
- **Accrual-Basis Accounting** recognizes transactions when they occur, regardless of the timing of the related cash transaction.

The State Auditor has directed all state government agencies to use modified accrual-basis accounting. Therefore, PED recommends that school districts and charter schools do the same. The use of modified accrual-basis accounting allows a school district or charter school to determine its financial position and results of operations by measuring financial resources and obligations at the earliest possible date and provides for comparable period-to-period reports.

## FUND ACCOUNTING

The UCOA accounting system is organized on the basis of funds. A school district or charter school is not considered to be a single entity for accounting and financial reporting purposes, but rather a collection of separate accounting entities for funds, cost centers, funding sources, and programs. This allows for separate accounting for separate activities and provides for greater financial accountability on the part of state government and local school districts and charter schools.

A fund is a fiscal and accounting entity which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. A fund is a self-balancing set of accounts recording assets, liabilities, fund balances (or equities), revenue, and expenditures related to a specific funding source. A new fund is established when funding requires that activities related to a particular source of funds be accounted for separately from other activities.

# III. STANDARD CHART OF ACCOUNTS STRUCTURE

## OVERVIEW

The UCOA uses a segment or component structure that is designed to serve as a flexible tool to meet the needs of all school districts and charter schools in the State of New Mexico. It creates a common means of communication to be used in planning, recording, accumulating, controlling, and reporting the financial activities of the school districts and charter schools. All school districts and charter schools are required to uniformly utilize this component structure in order to provide comparability between school districts and charter schools.

The hierarchy of the UCOA code structure is presented below. This structure gives school districts and charter schools the ability to report accurately and effectively on financial activities, as well as to segregate and group accounts with the greatest amount of flexibility resulting in the ability to produce the most useful financial statements. The account code structure associated with revenues is relatively straightforward because each revenue is identified by source, ranging from general to specific. Expenditures, however, use a series of levels in a hierarchy to identify the following:

- The Fund from which funds are being expended
- The Function for which the funds are being spent
- The Object on which the funds are spent
- The Program that is spending the funds
- The Location (school) on which the funds are being spent
- The Job Classification associated with certain expenditures

The standard UCOA structure is composed of eight components – six of which are specifically defined and two of which are currently unspecified – each separated by a delimiter.

A pictorial representation of the standard Chart of Accounts is noted below, followed by a table giving the name, internal segment structure, and length of each component:

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/XXXX	5
2	Function / Sub-Function	X/XXX	4
3	Object	X/XXXX	5
4	Program	XXXX	4
5	Location (District/School)	XXX/XXX	6
6	Job Classification	XXXX	4
7	Unspecified/Local Use	XXXXX	5
8	Unspecified/Local Use	XXXXX	5

The code structure in the first four components includes header accounts to aid in the creation of summarized reports. "Roll-ups" are not included in the Location and Job Classification components, as these items would not normally require roll-up reporting capabilities to aid in the creation and development of standard and ad hoc reports.

## DEFINITION OF COMPONENTS

The account code structure provides a basis for financial reporting and budgeting. The table below illustrates the required account code format. Each required element must contain the specified *number of digits* and must be in the *specified location* in the account code structure. Expenditures and other financing uses will utilize specific components 1-6 of the account structure. Balance Sheet and Revenue and other financing sources accounts will only utilize components 1 (Fund) and 3 (Object). Components not being used in these accounts will be filled with zeros as placeholders. In addition, a district or charter school may choose to use the optional components with any type of account to track additional items not covered in the first six components.

	Fund	Function	Object	Program	Location	Job Class	Account Type
<b>Balance Sheet Accounts</b>	X/XXXX	0000	1/XXXX	0000	XXX/000	0000	Assets
	X/XXXX	0000	2/XXXX	0000	XXX/000	0000	Liabilities
	X/XXXX	0000	3/XXXX	0000	XXX/000	0000	Fund Balances
<b>Revenue &amp; Other Financing Sources</b>	X/XXXX	0000	4/XXXX	0000	XXX/XXX	0000	Revenue
<b>Expenditures &amp; Other Financing Uses</b>	X/XXXX	X/XXX	5/XXXX	XXXX	XXX/XXX	XXXX	Expenses

1. **Fund Type & Sub-Fund:** A Fund is a fiscal and accounting entity which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. A fund is also a self-balancing set of accounts recording assets, liabilities, fund balances (or equities), revenue, and expenditures related to a specific funding source. A new fund is established when funding requires that activities related to a particular source of funds be accounted for separately from other activities.

Individual funds are first classified by Fund Type and then for specific purposes. There are nine Fund Types which are used to record all related financial transactions. Funds are the primary component for accumulating and reporting financial results. Sub-Funds are further divisions of funds that are reported separately from, but accumulated with, the primary Fund Type to which the sub-fund belongs.

2. **Function:** A Function is a group of related activities aimed at accomplishing a major service or program for which the school district or charter school is responsible. The function describes the activity for which a service or material object is acquired. The functions of a school district or charter school are classified into five broad areas. Functions are further classified into sub-functions.
3. **Object:** The Object component contains the specific balance sheet account, revenue, or expenditure for which funds are received or expended. The purpose of expenditure objects is to classify in detail the services or commodities bought from the financial resources in the fund source from which the expenditure is being made.
4. **Program:** A Program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives that need to be accounted for separately from other programs. The Program component allows a school district or charter school, as well as PED, to identify the costs of a program even when the expenditures are made from different funds.
5. **Location:** A Location is a budgetary or operational unit to be used in routing financial resources and segregating expenditures. Locations are defined in the UCOA as Districts and Schools.

6. **Job Classification:** The Job Classification component is used to capture expenditure costs in compensation for specific jobs. The code is based on the prior chart of account numbering methodology for personnel costs.
7. **Unspecified Component # 1:** This component is currently unspecified by PED and can be used by school districts and charter schools to fit their needs. It should be used only when restrictions on other components do not allow for their adaptation or modification.
8. **Unspecified Component # 2:** This component is currently unspecified by PED and can be used by school districts and charter schools to fit their needs. It should be used only when restrictions on other components do not allow for their adaptation or modification.

## IV. FUND TYPE / SUB-FUNDS

### OVERVIEW

Funds Type is the first component in the UCOA structure and the principal component for accumulating and reporting financial results. Sub-Funds are further divisions of Fund Types that are reported separately and also accumulated with the primary Fund Type to which the Sub-Fund belongs.

The Fund number is composed of five digits. The first digit provides a Fund Type designation. The next four digits designate the appropriate Sub-Fund number. The Sub-Funds are a further division of the Fund Type. The last digits of the Sub-Fund are used to designate grants, capital projects, or other categories, as needed.

The Fund/Sub-Fund is the **first** component in the UCOA structure.

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/ XXXX	5
2	Function / Sub-Function	X/ XXX	4
3	Object	X/ XXXX	5
4	Program	XXXX	4
5	Location (District/School)	XXX/XXX	6
6	Job Classification	XXXX	4
7	Unspecified	XXXXX	5
8	Unspecified	XXXXX	5

A description of each of the Fund Types and the numbering methodology to be used is presented below.

### FUND TYPES

#### GOVERNMENTAL FUND TYPES

##### 10000 GENERAL FUND

This fund is the chief operating fund of the school district or charter school. It is used to account for all financial resources of the school district or charter school except for those required to be accounted for in another fund. A District may have only one General Fund, but it may subdivide this fund into sub-funds that roll up to the General Fund.

There is generally a limited number of this type of fund. The specific General Funds designated by PED for use by school districts and charter schools are as follows:

**11000 Operational**

**12000 Teacherage**

**13000 Pupil Transportation**

**14000 Instructional Materials**

##### 20000 SPECIAL REVENUE FUNDS

These funds are used to account for the proceeds of specific revenue sources (other than trusts or major capital projects) that are legally restricted to expenditure for specified purposes. Some examples of special revenue funds are restricted state or federal grants and restricted tax levies. A separate fund may be used for each identified restricted source.

There are generally several Funds from different funding sources. The specific Special Revenue Funds designated by PED for use by school districts and charter schools are as follows.

- 21000 Food Services**
- 22000 Athletics**
- 23000 Non-Instructional Support**
- 24000 Federal Flow-through Grants**
- 25000 Federal Direct Grants**
- 26000 Local Grants**
- 27000 State Flow-through Grants**
- 28000 State Direct Grants**
- 29000 Combined Local/ State Grants**

**30000 CAPITAL PROJECTS FUNDS**

These funds are used to account for financial resources for acquisition or construction of major capital facilities (other than those acquired or constructed from Proprietary or Trust funds). The most common source of capital projects funding is the sale of bonds or other capital financing instruments. A separate fund may be used for each capital project or one fund may be used.

There is generally a *limited* number of this type of fund. The specific Capital Project Funds designated by PED for use by school districts and charter schools are as follows:

- 31100 Bond Building**
- 31200 Public School Capital Outlay**
- 31300 Special Capital Outlay – Local**
- 31400 Special Capital Outlay – State**
- 31500 Special Capital Outlay – Federal**
- 31600 Capital Improvements HB-33**
- 31700 Capital Improvements SB-9**
- 31800 Energy Efficiency Act**
- 31900 Educational Technology Equipment Act**
- 32100 Public School Cap. Outlay – 20%**

**40000 DEBT SERVICE FUNDS**

These funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. There is generally a *limited* number of this type of fund. The specific Debt Service Funds designated by PED for use by school districts and charter schools are as follows:

- 41000 Debt Services**
- 42000 Deferred Sick Leave**
- 43000 Ed. Tech. Debt Service**

**50000 PERMANENT FUNDS**

These funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the school district's and charter school's programs. There is generally a *limited* number of this type of fund. PED has not designated any Permanent Funds for use by school districts and charter schools at this time.

## PROPRIETARY FUND TYPES

### **60000 ENTERPRISE FUNDS**

These funds may be used to account for any activity for which a fee is charged to external users for goods or services. Enterprise funds are required to be used to account for any activity whose principal revenue sources meet any of the following criteria:

- Debt is backed solely by revenues from fees and charges (does not include debt that is backed by the full faith and credit of the school district or charter school).
- There is a legal requirement to recover costs through fees and charges.
- There has been a policy decision by the governing board to recover the costs of providing services through fees or charges.

Some examples of enterprise funds are activities such as the food service program, the bookstore operation, the athletic stadium, or the community swimming pool.

There is generally a *limited* number of this type of fund. Most school districts and charter schools will not use an Enterprise Fund. PED has not designated any Enterprise Funds for use by school districts and charter schools at this time.

### **70000 INTERNAL SERVICE FUNDS**

These funds may be used to account for any activity – within the school district or charter school – that provides goods or services to other funds, departments, component units, or other governments on a cost-reimbursement basis. The use of an internal service fund is appropriate only for activities in which the school district or charter school is the predominant participant in the activity. Otherwise, the activity should be reported as an enterprise fund. Examples of internal service funds are such activities as central warehousing and purchasing, central data processing, and central printing and duplicating.

There is generally a *limited* number of this type of fund. Most school districts and charter schools will not use an Internal Service Fund. PED has not designated any Internal Service Funds for use by school districts and charter schools at this time.

## FIDUCIARY FUND TYPES

### **80000 TRUST FUNDS**

These funds are used to account for assets held by a school district or charter school in a trustee capacity for others and therefore cannot be used to support the school district's or charter school's own programs. Trust funds are generally accounted for on the economic resources measurement focus and the accrual basis of accounting.

There is generally a *limited* number of this type of fund. PED has not designated any Trust Funds for use by school districts and charter schools at this time.

### **90000 AGENCY FUNDS**

These funds may be used for assets that are held in a custodial capacity by a school district or charter school for individuals, private organizations, or other governments. Agency funds may include those used to account for student activities or taxes collected for another government.

There is generally a *limited* number of this type of fund. PED has not identified any Agency Funds for use by school districts and charter schools at this time.

## V. FUNCTIONS

### OVERVIEW

A Function is a group of related activities aimed at accomplishing a *major* service or program for which the local school district or charter school is responsible. The function describes the activity for which a service or material object is acquired. The functions of a school district and charter school are classified into seven broad areas:

- 0000 Revenue/ Balance Sheet**
- 1000 Instruction**
- 2000 Support Services**
- 3000 Operation of Non-Instructional Services**
- 4000 Capital Outlay**
- 5000 Debt Service**

Functions related to expenditures are further classified into sub-functions.

The Function is the **second** component in the UCOA structure.

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/XXXX	5
<b>2</b>	<b>Function / Sub-Function</b>	<b>X/ XXX</b>	<b>4</b>
3	Object	X/XXXX	5
4	Program	XXXX	4
5	Location (District/School)	XXX/XXX	6
6	Job Classification	XXXX	4
7	Unspecified	XXXXX	5
8	Unspecified	XXXXX	5

A description of each Function and the numbering methodology to be used is presented below.

*Note: Codes that are necessary for the NCES reporting are noted with an asterisk (\*) and are shaded. Following the description of the Functions, a listing is provided of the required NCES reporting codes.*

### FUNCTIONS: NUMBER, NAME, AND DESCRIPTION

#### 0000 REVENUE/ BALANCE SHEET

This function number is a placeholder for all revenue and balance sheet or general ledger items. It is to be used only with Revenue or Balance Sheet Objects.

#### 1000\* INSTRUCTION

Instruction includes the activities dealing directly with the interaction between teachers and students provided for students:

- In a school classroom.
- In another location such as a home or hospital.
- Other approved media, such as television, radio, computer, Internet, multimedia telephone.
- In other learning situations such as those involving co-curricular and extra-curricular activities (including athletics).

- Function 1000 (Instruction) also includes the cost of all activities directly involved with or related to instruction, including:
- Aides or classroom assistants of any type.
- Textbooks.
- Instructional technology purchased for student use in the classroom for the purpose of direct instruction only (whether permanently assigned to one classroom or in a portable “pod”).
- *Pro rated* cost of teaching duties of administrators and other staff (e.g. principals, full-time department chairs, and guidance counselors).
- Teacher training and travel.
- Instructional coaches.

Function 1000 (Instruction) is used with all Programs 1000–9000.

## 2000 SUPPORT SERVICES

Support services provide administrative, technical (such as guidance and health), and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objectives of instruction, community services, and enterprise programs, rather than as entities within themselves. *This is a “roll-up” account for budgeting and accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below. Actual reports will also be produced at the sub-function level.*

### **2100\* SUPPORT SERVICES—STUDENTS**

Activities designed to assess and improve the well-being of students to ensure that they arrive at school able to learn. These activities supplement instructional processes, but are focused on students and their families rather than on the classroom. This function is used with Programs 0000 (None), 2000 (Special Programs), and 9000 (Co-Curricular and Extra-Curricular Activities).

The following activities are charged to 2100 (Support Services – Students):

- **Attendance and Social Work Services.**<sup>1</sup> Activities designed to improve student attendance at school. These activities are focused on solving problems that affect students’ attendance. Some examples of services to be reported within this function code are attendance services and student accounting services.
- **Guidance Services.** Activities involving:
  - o Counseling with students and parents to improve students’ ability to succeed in school.
  - o Consulting with other staff members on learning problems.
  - o Evaluating the abilities of students.
  - o Assisting students as they make their own educational and career plans and choices.
  - o Assisting students in personal and social development.
  - o Providing referral assistance.

Guidance services may include counseling services, aptitude testing, student record services, and placement services.

---

<sup>1</sup> A school district or charter school may decide to track these functions at a more detailed level, and then roll them up to the related sub-function for reporting. A list of optional, more detailed NCES codes is provided at the end of this section.

- **Health Services.** Activities involving physical and mental health services that support the physical well-being of students outside of instructional activities. Included are activities that provide students with appropriate medical, dental and nursing services.
- **Psychological Services.** Activities concerned with:
  - o Administering psychological tests and interpreting the results.
  - o Gathering and interpreting information about student behavior.
  - o Working with other staff members in planning school programs to meet the special needs of students as indicated by psychological tests and behavioral evaluation.
  - o Planning and managing a program of psychological services, including psychological counseling for students, staff, and parents.

This function includes the supervision of psychological services, related testing and counseling services, and psychotherapy services.

- **Speech Pathology and Audiology Services.** Activities that identify, assess, and treat children with speech, hearing, and language impairments.
- **Occupational Therapy–Related Services.** Activities that assess, diagnose, or treat students for all conditions requiring the services of an occupational therapist.
- **Other Student-Related Support Services.** For example, Dean of Students and other positions designed to oversee the well-being of students and their ability to arrive at school ready and able to learn.

## **2200\* SUPPORT SERVICES—INSTRUCTION**

Activities associated with assisting the instructional staff with the content and process of providing learning experiences for students. Use Program 0000 as a placeholder since function 2200 does not require program code. Activities include:

- **Library/ Media Services.** Activities concerned with directing, managing, and supervising educational media services, as well as such activities as:
  - o Selecting, acquiring, preparing, cataloging, and circulating books and other printed materials.
  - o Planning for the use of the library by students, teachers, and other members of the instructional staff
  - o Guiding individuals in their use of library books, reference guides and materials, catalog materials, special collections, and other materials, whether maintained separately or as a part of an instructional materials center.
  - o Developing and acquiring library materials and operating library facilities.
  - o Head of Library – Library/Media Specialists
- **Instruction-Related Technology.** Activities concerned with technology activities and services that support instruction but are not part of the instructional process (for example, student learning centers or labs). These activities include expenditures for internal technology support as well as support provided by external vendors using operating funds. Specifically, costs associated with the operation and support of computer learning labs, media center computer labs, instructional technology centers, instructional networks, and similar operations should be charged to this code. Do not include technology purchased for use in the classroom; charge these to 1000 (Instruction). Also, if a computer lab is operated by a certified teacher, working on a certified teacher pay schedule, the related compensation is not charged here, but is charged to 1000 (Instruction), except for SB-9 (31700) use function 4000.
- **Academic Student Assessment.** Activities related to the assessment of students to determine effectiveness of instruction.

## **2300\* SUPPORT SERVICES—GENERAL ADMINISTRATION**

Activities concerned with establishing and administering policy for operating the school district or charter school. Use Program 0000 as a placeholder since function 2300 does not require program code. Activities include:

- **Board of Education/ Charter School Governance Council.** Activities of the elected body that has been created according to state law and vested with responsibilities for educational activities in a given administrative unit. These include:
  - o **Supervision of Board of Education Services.** Activities concerned with directing and managing the general operation of the Board of Education.
  - o **Board Secretary/ Clerk Services.** Activities of the district performed in support of the school district or charter school board meeting.
  - o **Board Treasurer Services.**
  - o **Election Services.** Activities related to any school system election, including elections of officers and bond elections.
  - o **Tax Assessment and Collection Services.**
  - o **Staff Relations and Negotiations.**
- **Executive Administration.** Activities associated with the overall general administration of or executive responsibility for the entire school district. If a charter school has a chief executive officer to whom the principal reports, activities of that individual's office are charged here. These activities include:
  - o **Office of the Superintendent.** Activities performed by the superintendent and such assistants as deputy, associate, and assistant superintendents in generally directing and managing all affairs of the school district or charter school. ## VI. OBJECTS

### OVERVIEW

An Object is the component that contains the specific balance sheet, revenue or expenditure account for which funds are received or expended.

The Object number is composed of five digits. The first digit in this component is used to designate the five major Account Types used in the Object component. The account code component is used to designate the following:

Type	Identifier	Account Range
Assets	1	11000-19999
Liabilities	2	21000-29999
Fund Equity	3	32000-32600
Revenue	4	41000-49999
Expenditure	5	51000-59999

The Object is the third component in the Chart of Accounts structure.

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/XXXX	5
2	Function	XXXX	4
<b>3</b>	<b>Object</b>	<b>X/ XXXX</b>	<b>5</b>
4	Program	XXXX	4
5	Location (District/School)	XXX/XXX	6
6	Job Classification	XXXX	4
7	Unspecified	XXXXX	5
8	Unspecified	XXXXX	5

A description of each of the Objects and the numbering methodology to be used is presented below.

### BALANCE SHEET OBJECTS: ASSETS

#### OVERVIEW

**For Asset accounts the first character is always 1.**

The second digit groups or categorizes similar account objects and serves as a header or description for the detail accounts to follow. The third, fourth, and fifth digits are used for individual accounts containing transactions.

The asset accounts identified by PED are noted below, along with a description of each. Additional accounts can be added by school districts and charter schools based upon their individual needs.

#### NUMBER, NAME, AND DESCRIPTION

##### 11000 CASH ASSETS

*This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.*

**11011 Bank Accounts.** All funds on deposit with a bank or savings and loan institution, normally in non-interest-bearing accounts. Interest-bearing accounts are recorded in 12000 (Investments).

**11031 Cash on Hand.** Currencies, coins, checks, postal and express money orders, and bankers' drafts on hand. Includes petty cash.

- 11041 Cash with Fiscal Agents.** Deposits with fiscal agents, such as commercial banks, for paying matured bonds and interest.
- 11111 Unrestricted Cash.** Cash balances that have no restrictions associated with its use.
- 11112 Restricted Cash.** Cash balances that have specific restrictions associated with its use. Used in Funds/Sub-Funds 11000 (Operational), 41000 (Debt Service Fund), and 43000 (Educational Technology).
- 11113 Reserved Cash – Special Revenue Bonds.** Cash set aside and reserved, relating specifically to Special Revenue Bonds.

**12000 INVESTMENT ASSETS**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

- 12011 Investments.** Securities and real estate held for producing income in the form of interest, dividends, rentals, or lease payments. Investments should be presented at fair value as of the reporting date. Increases in the fair value of investments are recorded using revenue account 41510 (Investment Income). 12011 (Investments) does not include capital assets used in school district or charter school operations. Separate accounts for each category of investments may be established. *If separate accounts are established under this account, it becomes a “roll-up” account for the accumulation of totals; in which case no entries should be posted to this account.*
- 12012 Unamortized Premiums on Investments.** The excess of the amount paid for securities over the face value that has not yet been amortized. Use of this account is restricted to short-term money market investments.
- 12013 Unamortized Discounts on Investments (Credit).** The excess of the face value of securities over the amount paid for them that have not yet been written off. Use of this account is restricted to short-term investments.
- 12014 Interest Receivable on Investments.** The amount of interest receivable on investments, excluding interest purchased. Interest purchased should be posted to 12015 (Accrued Interest on Investments Purchased).
- 12015 Accrued Interest on Investments Purchased.** Interest accrued on investments between the last interest payment date and the date of purchase. The account is carried as an asset until the first interest payment date after the date of purchase.

**13000 RECEIVABLES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

- 13011 Taxes Receivable.** The uncollected portion of taxes that a school district or government unit has levied and that has become due, including any interest or penalties that may be accrued. Separate accounts may be established on the basis of tax roll year, current and delinquent taxes, or both. *If separate accounts are established under this account, it becomes a “roll-up” account for the accumulation of totals; in which case no entries should be posted to this account.*
- 13012 Allowance for Uncollectible Taxes.** The portion of taxes receivable estimated not to be collected. The account is shown on the balance sheet as a deduction from account 13011 (Taxes Receivable) to arrive at the net taxes receivable. Separate accounts may be established on the basis of tax roll year, delinquent taxes, or both. This is a contra-asset account – the net balance will be a credit. *If separate accounts are established under this account, it should be used as a “roll-up” account for accumulation of totals. In that case, no entries should be posted to this account.*

- 13031 Loans Receivable.** Amounts that have been loaned to persons or organizations, including notes taken as security for such loans, where permitted by statutory authority.
- 13032 Allowance for Uncollectible Loans.** The portion of loans receivable estimated not to be collected. The account is shown on the balance sheet as a deduction from account 13031 (Loans Receivable) account. This is a contra-asset account – the net balance will be a credit.
- 13041 Other Accounts Receivable.** Amounts owing on open account from private persons, firms, or corporations for goods and services furnished by a school district or charter school (but not including amounts due from other funds or from other governmental units).
- 13042 Allowance for Uncollectible Accounts Receivable.** A provision for that portion of accounts receivable that is estimated will not be collected. The account is shown on the balance sheet as a deduction from account 13041 (Other Accounts Receivable) account. This is a contra-asset account – the net balance will be a credit.
- 13100 Inter-Governmental Accounts Receivable.** Amounts due to the reporting governmental unit from another governmental unit. These amounts may represent grants, shared taxes, taxes collected for the reporting unit by another unit, loans, and charges for services rendered by the reporting unit for another government. It is recommended that separate accounts be established for each interagency receivable. *If separate accounts are established within the 13100 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

#### **14000 DUE FROM OTHER FUNDS**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

- 14100 Inter-Fund Loans Receivable.** An asset account used to record a loan by one fund to another fund in the same governmental unit. It is recommended that separate accounts be established for each inter-fund receivable loan. *If separate accounts are established within the 14100 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*
- 14200 Inter-Fund Accounts Receivable.** An asset account used to indicate amounts owed to a particular fund by another fund in the same school district or charter school for goods sold or services rendered. It is recommended that separate accounts be established for each inter-fund receivable. *If separate accounts are established within the 14200 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

#### **15000 PREPAID EXPENSES**

Expenditure/expense paid for benefits not yet received. Prepaid expenses differ from deferred charges in that they are spread over a shorter period of time than deferred charges and are regularly recurring costs of operation. Examples of prepaid expenses are prepaid rent, prepaid interest, and unexpired insurance premiums. Separate accounts may be established for each type of prepaid item. *If separate accounts are established under this account, it becomes a “roll-up” account for the accumulation of totals; in which case no entries should be posted to this account.*

#### **16000 INVENTORY**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

- 16011 Inventories for Consumption.** The cost of supplies and equipment on hand not yet distributed to requisitioning units.
- 16012 Inventories for Resale.** The value of goods held by a school district or charter school for resale rather than for use in its own operations.

## **17000 FIXED ASSETS**

Those assets that the school district or charter school intends to hold or continue to use over a long period of time. Specifically, capital assets include land, improvements to land, easements, buildings and building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are used in operations and that have initial useful lives that extend beyond a single reporting period. *This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.*

**17011 Land and Land Improvements.** A capital asset account that reflects the acquisition value of land owned by a school district or charter school. If land is purchased, this account includes the purchase price and costs such as legal fees, filling and excavation costs, and other associated improvement costs incurred to put the land in condition for its intended use. If land is acquired by gift, the account reflects its fair value at the time of acquisition. Further, permanent improvements to land, such as grading and fill, should be accounted for in this account.

Land and land improvements are considered non-exhaustible assets owing to their significantly long expected useful life. Non-exhaustible assets are not to be depreciated.

**17021 Site Improvement.** A capital asset account that reflects the value of non-permanent improvements to building sites, other than buildings, that adds value to land. Examples of such improvements are fences, retaining walls, sidewalks, pavements, gutters, tunnels and bridges. If the improvements are purchased or constructed, this account contains the purchase or contract price. If improvements are obtained by gift, it reflects the fair value at the time of acquisition.

Site improvements are improvements that have a limited useful life. Because these improvements decrease in their value/usefulness over time, it is appropriate to depreciate these assets. Therefore, all capitalized site improvements should be depreciated over their expected useful life, using 17022 (Accumulated Depreciation on Site Improvements).

**17022 Accumulated Depreciation on Site Improvements.** Accumulated amounts for the depreciation of site improvements. This is a contra-asset account – the net balance will be a credit.

**17111 Buildings and Building Improvements.** A capital asset account that reflects the acquisition value of permanent structures used to house persons and property owned by the school district or charter school. If buildings are purchased or constructed, this account includes the purchase or contract price of all permanent buildings and the fixtures attached to and forming a permanent part of such buildings. This account includes all building improvements, including upgrades made to building wiring for technology. If buildings are acquired by gift, the account reflects their fair value at the time of acquisition.

**17112 Accumulated Depreciation on Buildings and Building Improvements.** Accumulated amounts for the depreciation of buildings and building improvements. This is a contra-asset account – the net balance will be a credit.

**17211 Machinery and Equipment.** Tangible property of a more or less permanent nature, other than land, buildings, or improvements thereto, that is useful in carrying on operations. Examples are machinery, tools, trucks, cars, buses, computers, purchased software, furniture, and furnishings. Machinery and equipment under \$5,000 are treated as supplies and should be coded to the appropriate supply account in the 56100 series.

**17212 Accumulated Depreciation on Machinery and Equipment.** Accumulated amounts for the depreciation of machinery and equipment. This is a contra-asset account – the net balance will be a credit.

**17311 Works of Art and Historical Treasures.** Individual items or collections of items that are of artistic or cultural importance.

**17312 Accumulated Depreciation on Works of Art and Historical Collections.** Accumulated amounts for the depreciation (as applicable) of works of art and historical treasures. This is a contra-asset account – the net balance will be a credit.

**17511 Construction in Progress.** The cost of construction work undertaken but not yet completed. When construction on the asset is completed, the accumulated balance should be transferred to the appropriate Fixed Asset account and depreciation charges should commence at that time.

### **18000 PROVISIONS FOR LONG TERM DEBT**

Special appropriation for the defeasance of bonds. Consult with your auditor before using this account.

### **19000 OTHER ASSETS**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**19011 Deposits.** Funds deposited by the school district or charter school as prerequisite to receiving services, goods, or both.

**19012 Deferred Expenditures/ Expenses.** Certain disbursements that are made in one period but are more accurately reflected as an expenditure/expense in the next fiscal period.

**19013 Capitalized Bond and Other Debt Issuance Costs.** Represents certain bond and other debt issuance costs, including lease-purchase debt issuance costs that are capitalized for the purpose of accounting for the cost/valuation basis of capital assets.

**19014 Unamortized Discounts on Issuance of Bonds.** Represents that portion of the deficit of bond proceeds under the par value and that remains to be amortized over the remaining life of such bonds. Bonds sold at a Premium should be recorded in account 26013 (Unamortized Premiums on the Issuance of Bonds).

**19099 Other Current Assets.** Current assets not provided for elsewhere.

## **BALANCE SHEET OBJECTS: LI AB I L I T I E S**

### **OVERVIEW**

**For Liability accounts the first character is always 2.**

The second digit is a categorizer for grouping like accounts and functions as a header or description for the detail accounts to follow. The third, fourth, and fifth digits are used for individual accounts containing transactions.

The identified Liability accounts and a description of each are noted below. Additional accounts can be added by school districts and charter schools based upon their individual needs.

### **NUMBER, NAME, AND DESCRIPTION**

#### **21000 PAYABLES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**21011 Accounts Payable.** Liabilities on open account owing to private persons, firms or corporations for goods and services received by a school district or charter school (but not including amounts due to other funds of the same school district or charter school or to other governmental units).

**21012 Judgments Payable.** Amounts due to be paid by a school district or charter school as the result of court decisions, including condemnation awards paid for private property taken for public use.

**21013 Warrants Payable.** Amounts due to designated payees – in the form of a written order drawn by the school district or charter school – directing the school district or charter school treasurer to pay a specific amount.

**21100 Inter-Governmental Accounts Payable.** Amounts owed by the reporting school district or charter school to another governmental unit. It is recommended that separate accounts be established for each interagency payable. *If separate accounts are established within the 21100 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

#### **22000 CONTRACTS AND CONSTRUCTION PAYABLE**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**22011 Contracts Payable.** Amounts due on contracts for assets, goods, and services received by a school district or charter school.

**22012 Construction Contracts Payable—Retainage.** Liabilities on account of construction contracts for that portion of the work that has been completed but on which part of the liability has not been paid pending final inspection, the lapse of a specified time period, or both. The unpaid amount is usually a stated percentage of the contract price.

**22013 Construction Contracts Payable.** Amounts due from a school district or charter school on contracts for constructing buildings and other structures and other improvements.

#### **23000 ACCRUED LIABILITIES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**23011 Accrued Salaries and Benefits.** Salary and fringe benefit costs incurred during the current accounting period that are not payable until a subsequent accounting period.

**23021 Accrued Annual Requirement Contribution Liability.** A liability arising from payments not made to pension funds. This amount represents any difference between the actuarially determined annual required contribution and actual payments made to the pension fund.

**23031 Interest Payable.** Interest due within one year.

**23100 Payroll Deductions and Withholdings.** Amounts deducted from employees' salaries for withholding taxes and other purposes. District-paid benefits amounts payable also are included. A separate liability account may be used for each type of benefit. *If separate accounts are established within the 23100 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

#### **24000 DUE TO ACCOUNTS**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**24100 Inter-Fund Loans Payable.** A liability account used to record a debt owed by one fund to another fund in the same governmental unit. It is recommended that separate accounts be established for each inter-fund loan. *If separate accounts are established within the 24100 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

**24200 Inter-Fund Accounts Payable.** A liability account used to indicate amounts owed by a particular fund for services rendered. It is recommended that separate accounts be established for each inter-fund payable. *If separate accounts are established within the 24200 series, this account should be used as a “roll-up” account for accumulation of totals. In this case, no entries should be posted to this account.*

### **25000 UNEARNED REVENUE**

A liability account that represents revenues collected before they become due.

### **26000 BONDS AND OTHER DEBT**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**26011 Matured Bonds Payable.** Bonds that have reached or passed their maturity date but that remain unpaid.

**26012 Bonds Payable—Current.** Bonds that have not reached or passed their maturity date but are due within one year or less. Used only in Proprietary or Fiduciary funds.

**26013 Unamortized Premiums on Issuance of Bonds.** Represents that portion of the excess of bond proceeds over the par value that remains to be amortized over the remaining life of such bonds. Bonds sold at a discount should be recorded in account 19014 (Unamortized Discounts on the Issuance of Bonds).

**26014 Accreted Interest.** An account that represents interest that is accrued on deep discount bonds. This account should be used by school districts that issue capital appreciation bonds. Such bonds are usually issued at a deep discount from the face value, and no interest payment is made until maturity.

*Note: Under full accrual accounting, the district is required to accrete the interest on the bonds over the life of the bonds. (Accretion is the process of systematically increasing the carrying amount of the bond to its estimated value at the maturity date of the bond.) To calculate accreted interest, the district should determine the effective interest rate – using the present value, the face value (future value), and the period of the bond – and multiply the effective interest rate by the book value of the debt at the end of the period. The accreted interest may be maintained in this account or transferred each period to increase the related outstanding debt liability.*

**26015 Unamortized Gains/ Losses on Debt Refundings.** An account that represents the difference between the reacquisition price and the net carrying amount of old debt when a current or advance refunding of debt occurs. The unamortized loss amount should be deferred and amortized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter. This deferred amount should be reported as a deduction from or an addition to the new debt liability. *Note: This account should be used only when defeasance of debt occurs for Proprietary Funds.*

**26021 Loans Payable.** Short-term obligations representing amounts borrowed for short periods of time, usually evidenced by notes payable or warrants payable.

**26031 Lease Obligations—Current.** Capital lease obligations due within one year.

**26041 Bonds Payable.** Bonds that have not reached or passed their maturity date and that are not due within one year.

**26061 Capital Lease Obligations.** Amounts remaining to be paid on capital lease agreements.

## **28000 COMPENSATED ABSENCES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**28011 Compensated Absences—Current.** Compensated absences that will be paid within one year.

**28041 Compensated Absences – Long Term.** Amounts remaining beyond the period of one year to be paid on compensated absences balances.

## **29000 OTHER LIABILITIES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**29011 Deposits Payable.** Liability for deposits received as a prerequisite to providing or receiving services, goods, or both.

**29012 Other Current Liabilities.** Other current liabilities not provided for elsewhere within the Liability accounts.

**29021 Arbitrage Rebate Liability.** Liabilities arising from arbitrage rebates to the IRS from bond financing.

**29099 Other Long-Term Liabilities.** Other long-term liabilities not provided for in other Liability accounts. This account represents amounts due after more than one year from the balance sheet date for advances from other funds and certain miscellaneous liabilities, including Workers compensation, self-funded insurance, and legal claims and judgments.

## **BALANCE SHEET OBJECTS: FUND BALANCES (EQUITY)**

### **OVERVIEW**

**For Fund Equity accounts the first character is always 3.**

The second digit is a categorizer for grouping like accounts and functions as a header or description for the detail accounts to follow. The third, fourth, and fifth digits are used for individual accounts containing transactions.

The identified Fund Equity accounts and a description of each are noted below. Additional accounts can be added by school districts and charter schools based upon their individual needs.

### **NUMBER, NAME, AND DESCRIPTION**

#### **32000 FUND BALANCE (EQUITY) ACCOUNTS**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**32011 Reserve for Inventories.** A reserve representing that portion of a fund balance segregated to indicate that assets equal to the amount of the reserve are invested in inventories and are, therefore, not available for appropriation. The use of this account is optional unless the purchases method of accounting for inventory is used.

**32012 Reserve for Prepaid Items.** A reserve representing that portion of a fund balance segregated to indicate that assets equal to the amount of the reserve are tied up and are, therefore, not available for appropriation. The use of this account is optional.

**32013 Reserve for Encumbrances.** A reserve representing that portion of a fund balance segregated to provide for unliquidated encumbrances. This is a contra-asset account – the net balance will be a credit. Separate accounts may be established for current encumbrances and prior-year encumbrances.

- 32100 Other Reserved Fund Balance.** A reserve representing that portion of a fund balance segregated to indicate that assets equal to the amount of the reserve are obligated and are, therefore, not available for appropriation. It is recommended that a separate reserve be established for each special purpose. One example of a special purpose is restricted Federal programs.
- 32200 Designated Fund Balance.** A designation representing that portion of a fund balance segregated to indicate that assets equal to the amount of the designation have been earmarked by the governing board or senior management for a bona fide purpose in the future.
- 32300 Unreserved Fund Balance.** The excess of the assets of a fund over its liabilities, fund reserves, and designations.
- 32400 Invested in Capital Assets, Net of Related Debt.** This account is used to record the net asset component invested in capital assets, net of related debt, which represents total capital assets less accumulated depreciation less debt directly related to capital assets. This account is to be used in Proprietary funds only.
- 32500 Restricted Net Assets.** This account is used to record the net assets component—restricted net assets—which represents net assets restricted by sources internal or external to the organization. This account is to be used in Proprietary funds only.
- 32600 Unrestricted Net Assets.** This account is used to record the net asset component—an unrestricted net asset—which represents net assets not classified in accounts 32400 (Invested in Capital Assets, Net of Related Debt) and 32500 (Restricted Assets). This account is to be used in Proprietary funds only.

## REVENUE OBJECTS

### OVERVIEW

The primary objective of revenue coding is to maintain information on source of revenue.

Revenues and reimbursements from various sources must be accounted for and properly classified in the accounting system. Using the modified accrual basis of accounting, revenues shall be recorded when they are expected to be received within the current reporting fiscal period. For purposes of preparing the year-end financial statements and inclusions in the annual audit, various receivables are to be recognized.

**Governmental Funds - Revenues:** The primary level of governmental fund revenue classification is by fund and source. Normally, the governmental funds recognize several sources of revenue, including taxes, inter-governmental revenues, and charges for services.

**Proprietary Funds - Revenues:** The proprietary funds share the same primary revenue classifications as the governmental funds by source. One important distinction is that school districts and charter schools also should look to similar business organizations for industry practice and other guidance in classifying proprietary fund revenue sources.

#### **For Revenue accounts the first character is always 4.**

The second digit refers to the "Revenue type". The major revenues types are as follows:

- 41000 Revenue from Local Sources
- 43000 Revenue From State Sources
- 44000 Revenue From Federal Sources
- 45000 Other Financing Sources
- 46000 Other Items

The third digit generally functions as a header or description for the detail accounts to follow. The fourth and fifth digits allow for a further breakdown of the revenue account. Any questions regarding the proper classification of revenue may be referred to the School Budget and Financial Analysis Bureau for interpretation.

Note: Codes that are necessary for the NCES reporting are noted with an asterisk (\*) and are shaded. Following the description of the Revenue Objects, a listing is provided of the required NCES reporting codes.

## NUMBER, NAME, AND DESCRIPTION

### **41000 REVENUE FROM LOCAL SOURCES**

This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.

**41100 Taxes Levied/ Assessed by the School District.** Compulsory charges levied by the school district to finance services performed for the common benefit. Separate accounts have been established for the 41100 series. This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.

**41110\* Ad Valorem Taxes – School District.** Taxes levied by a school district on the assessed value of real and personal property located within the school district that, within legal limits, is the final authority in determining the amount to be raised for school purposes. Separate accounts may be established for real property and for personal property. *If separate accounts are established under this account, it becomes a "roll-up" account for the accumulation of totals; in which case no entries should be posted to this account.*

**41113 Oil and Gas Taxes.** Ad valorem taxes upon oil and gas production within a school district. Include all taxes credited by County/State Treasurer.

**41114 Copper Production.** Ad valorem taxes upon copper production within a school district. Include all taxes credited by County/State Treasurer.

**41115 Other Special Revenue/ Taxes.** Other special revenues or taxes not otherwise classified.

**41280 Revenue in Lieu of Taxes (ONLY USED IN FUND 29134 – Wind Farm Projects)**

**41300 Tuition.** Revenue received by a school district or charter school for educating individuals who reside outside the State of New Mexico or are the children of foreign nationals. These students may NOT be included in STARS reports and are not included in a district's membership when calculating the State Equalization Guarantee.

**41310\* Tuition from Foreign Nationals.** Revenue received from foreign nationals to compensate a school district or charter school for providing education to their children. Revenue received should be credited to Fund 11000 (Operational). These students may NOT be included in STARS reports and are not included in a district's membership when calculating the State Equalization Guarantee.

**41331 Tuition from School Districts outside the State.** Revenue received from School Districts outside the state to compensate a local school district or charter school for providing education to their children. Revenue received should be credited to Fund 11000 (Operational). These students may NOT be included in STARS reports and are not included in a district's membership when calculating the State Equalization Guarantee.

**41500\* Investment Income.** Revenue from short-term and long-term investments, e.g. interest, dividends, rent from property held for investments. Such receipts shall be credited to the fund that provided the cash for investment. Earnings from investments from the Operational sub-fund shall be used for capital outlay expenditures. Separate accounts may be established for the 41500 series. *If separate accounts are established for this series, this account becomes a "roll-up" account for the accumulation of totals; in which case no entries should be posted to this account.*

**41600\*** **Food Services.** Revenue for dispensing food to students and adults. Separate accounts have been established for the 41600 series. *This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**41603 Fees – Adults/ Food Service.** Revenue from dispensing food to adults, including teachers, parents, and adult education students.

**41604 Fees – Students/ Food Service.** Revenue from dispensing food to students. Federal reimbursements are not entered here. They should be recorded under revenue account 44202.

**41605 Fees – Other/ Food Service.** Revenue from dispensing food to outside of regular food services, e.g. catering, a la carte sales.

**41700\*** **District Activities.** Revenue resulting from co-curricular and extra-curricular activities controlled and administered by the school district or charter school. These revenues are not to be commingled with the proceeds from student activities. Separate accounts have been established for the 41700 series. *This is a “roll-up” account for accumulation of totals. Entries are not posted to this “roll-up” account, but to the accounts listed below.*

**41701 Fees - Activities.** Revenue from students for memberships in school clubs or organizations.

**41702 Fees - Educational.** Revenue from fees charged to students, e.g. lab fees, tutoring fees.

**41705 Fees - Users.** Revenue from patrons of a school-sponsored activity such as a concert or a football game.

**41706 Fees – Summer School.** Revenue from students relating to summer school programs.

**41900 Other Revenue from Local Sources.** Other revenue from local sources not classified above. Separate accounts have been established within the 41900 series. *This is a “roll-up” account for accumulation of totals. Entries are not posted to this “roll-up” account, but to the accounts listed below.*

**41910\*** **Rentals.** Earnings from rents and leases from school-owned property and/or facilities. Revenues received shall be credited to Fund 11000 (Operational). Any Teacherage rental shall be credited to Fund 12000 (Teacherage). Rental of property held for income purposes is not recorded here, but is recorded in account 41500 (Investment Income).

**41911 Royalties.** Revenue from royalties (i.e., publications, recordings, mineral and oil royalties generated from production on school owned properties, capital credits, and utility co-ops).

**41920\*** **Contributions/ Donations - Private Sources (Non-Categorical).** Revenue associated with contributions, gifts, bequests, and donations made by private organizations. These organizations include, but are not limited to, educational foundations, PTA/PTO organizations, campus booster clubs, and private individuals. This code should be used to record on-behalf payments made by private organizations to school district or charter school personnel (e.g., stipends paid to teachers or other school district or charter school staff).

**41921 Instructional – Categorical.** Gifts, bequests and any other revenue received from local sources for a specified purpose related to Instruction.

**41922 Instructional Support – Categorical.** Gifts, bequests and any other revenue received from local sources for a specified purpose related to Instructional Support.

**41923 Administration – Categorical.** Gifts, bequests and any other revenue received from local sources for a specified purpose related to Administration.

**41924 Flow-through Grants From Districts to Charter Schools**

**41931 Special Building - Local.** Proceeds from the sale of property for which the local school board has requested separate accountability. This account may also be used to receipt gifts or bequests, and student vocational construction for large capital outlay projects.

- 41953 Insurance Recoveries.** Insurance recoveries for the replacement of personal, real property, and/or equipment.
- 41955 Special Assessments (REC).** Regional Education Cooperative (REC) contract reimbursements to school districts and charter schools for services rendered.
- 41980\* Refund of Prior Year's Expenditures.** Expenditures that occurred last year that are refunded this year. If the refund and the expenditure occurred in the current year, reduce this year's expenditures, as prescribed by GAAP. Includes refunds from prior year expenditures for overpayments, double payments, or returned merchandise. Do *not* include refunds for current year expenditures; rather credit the refund to the original expenditure account as prescribed by GAAP.

**43000\* REVENUE FROM STATE SOURCES**

*This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.*

- 43100 Unrestricted Grants – State Sources.** Revenue recorded as grants by the school district or charter school from state funds that can be used for any legal purpose desired by the school district or charter school without restriction. Separate accounts have been established within the 43100 series. *This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.*
  - 43101 State Equalization Guarantee.** Revenue from the State Equalization Guarantee distributed by the State.
  - 43104 Emergency - Supplemental.** A non-categorical distribution to school districts and charter schools that are in financial need.
  - 43120 Charter School Administrative Revenue.** 2% administrative revenue retained by the district from charter school program costs.
- 43200 Restricted Grants – State Sources.** Revenue recorded as grants by the school district or charter school from state funds that must be used for a categorical or specific purpose. If such money is not completely used by the school district or charter school, it must be returned, usually to the state. Separate accounts have been established for the 43200. *This is a "roll-up" account for accumulation of totals. Entries are not posted to the "roll-up" account, but to the accounts listed below.*
  - 43202 State Flow-through Grants.** Revenue from State appropriated grants that flow through PED.
  - 43203 State Direct Grants.** Revenues received from state agencies (other than PED).
  - 43204 Prior Year Balances** (To be used in Funds 31400 and 31700)
  - 43205 Emergency – Capital Outlay.** Distributions to school districts and charter schools to be used for unforeseen capital outlay emergencies.
  - 43206 Transportation Distribution.** Distribution for the purpose of providing transportation to and from schools for pupils in grades K-12 and qualified special education students. Revenues shall be credited to Fund 13000 (Transportation).
  - 43207 Instructional Materials 50% Core/ Basal Allocation.** Revenue credited to the district for purchases of instructional materials on the State adopted list.
  - 43208 Tuition for Students Attending School Out-of-State.** Distribution made to school districts paying for students attending school out-of-state because schools are not reasonably available within their residential district.

- 43209 PSCOC Awards.** State appropriated revenue allocated by the Public School Capital Outlay Council.
- 43210 Special Capital Outlay – State.** State grants and matching revenue received from other State agencies for specific capital outlay purposes (i.e., energy conservation, construction of recreational facilities, paving).
- 43211 Instructional Materials 50% Supplementary Allocation** Revenue received for cash purchases of instructional materials, not on the State adopted list.
- 43212 Indirect Costs (State Flow-through Grants).** Indirect cost charged to a state Flow-through program and then transferred to the Operational sub-fund as reimbursement for administering the program. Indirect cost charged to a program is determined by applying the indirect cost rate approved by PED or a negotiated rate.
- 43213 Indirect Costs (State Direct Grants).** Indirect cost charged to other grants and then transferred to the Operational sub-fund as reimbursement for administering the program. Indirect cost charged to a program is determined by applying the indirect cost rate approved by PED or a negotiated rate.
- 43214 Inter-Governmental Contract Revenue/ REC.** Revenue from other school districts and Rural Education Cooperatives (REC) and governmental entities through a contract or joint powers agreement.
- 43215 Inter-Governmental Contract Revenue.** Revenue from other school districts and charter schools through a contract or joint powers agreement.
- 43216 Fees – Governmental Agencies.** Revenue from other governmental agencies.

**44000 REVENUE FROM FEDERAL SOURCES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

- 44100\* Unrestricted Grants – Federal Direct.** Revenues direct from the federal government as grants to the school district or charter school that can be used for any legal purpose desired by the school district or charter school without restriction. Separate accounts have been established within the 44100 series to identify the specific nature of the revenue item. This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.
- 44103 Impact Aid.** Revenue received by the school district or charter school through Title VIII.
- 44107 Indirect Costs (Federal Direct Grants).** Indirect cost charged to a federal direct program and then transferred to the Operational fund as reimbursement for administering the federal program. Indirect cost charged to a federal program is determined by applying the indirect cost rate approved by PED or a negotiated rate.
- 44108 DOE Los Alamos/ DOD.** Revenue received by the Los Alamos school district from the U.S. Department of Energy, or by school districts from the U.S. Department of Defense.
- 44200\* Unrestricted Grants – Federal Flow-through.** Revenues from the federal government through the state as grants that can be used for any legal purpose desired by the school district or charter school without restriction. Separate accounts have been established within the 44200 series to identify the specific nature of the revenue item. *This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*
- 44204 Forest Reserve.** Income received for the school district's share of forest reserve funds distributed by the Local Government Division of the Department of Finance and Administration in accordance with Section 22-8-33 NMSA, 1978 Compilation.

**44205 Indirect Costs (Federal Flow-through Grants).** Indirect cost charged to a federal Flow-through program and then transferred to the Operational fund as reimbursement for administering the federal program. Indirect cost charged to a federal program is determined by applying the indirect cost rate approved by PED.

**44300\* Restricted Grants – Federal Direct.** Revenues direct from the federal government as grants to the school district or charter school that must be used for a categorical or specific purpose. If such money is not completely used by the school district or charter school, it usually is returned to the governmental unit. Separate accounts have been established within the 44300 series to identify the specific nature of the revenue item. *This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**44301 Other Restricted Grants – Federal Direct.** Federal grants directly to school districts or charter schools.

**44306 Special Capital Outlay - Federal.** Federal grants for specific capital outlay purposes such as energy conservation, construction of recreational facilities, and paving.

**44500\* Restricted Grants – Federal Flow-through.** Revenues from the federal government through the state as grants to the school district or charter school that must be used for a categorical or specific purpose. Separate accounts may be established within the 44500 series to identify the specific nature of the revenue item. *If separate accounts are established within this series, this account becomes a “roll-up” account for the accumulation of totals; in which case no entries should be posted to this account.*

**44700\* Federal Grants – Intermediate Sources.** Revenues from the federal government through an intermediate agency. Separate accounts have been established within the 44700 series to identify the specific nature of the revenue item. *This is a “roll-up account” for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**44709 Department of Interior.** Revenue received through the county treasurer from the Fish and Wildlife Service under the Refuge Revenue Sharing Act of 1978 (PL 95-469).

#### **45000\* OTHER FINANCING SOURCES**

*This is a “roll-up” account for accumulation of totals. Entries are not posted to the “roll-up” account, but to the accounts listed below.*

**45100 Issuance of Bonds.** Used to record the face amount of the bonds that are issued. Short-term debt proceeds should not be classified as revenue. When a school district issues short-term debt (debt with duration of less than 12 months) that is to be repaid from governmental funds, a liability (notes payable) should be recorded in the balance sheet of the fund responsible for repayment of the debt. ## EXPENDITURE OBJECTS

### OVERVIEW

The primary objective of expenditure objects is to maintain information on the article purchased or the service obtained. The first digit defines the general object category. The last three digits define the major object more specifically.

On the modified accrual basis of accounting, expenditures are generally recognized when an event or transaction is expected to draw on current, spendable resources within the reporting fiscal period. For purposes of preparing the year-end financial statements and inclusion in the annual audit, accounts payable are to be recognized.

Exchanges of cash for other current assets such as the investment of cash in United States bonds and the repayment of inter-fund loans shall not be considered expenditures.

**Governmental Funds - Expenditures:** Expenditure classification is based primarily on the period the expenditures are expected to benefit. There are four major character classifications: current, capital outlay, debt service, and inter-governmental. The current classification represents benefits for the current period; capital outlays represent benefits for the current and future periods; and debt service is presumably for prior, current and future benefits. Inter-Governmental expenditures represent transfers of resources to another governmental unit outside the reporting entity.

**Proprietary Funds - Expenses:** Expenses of proprietary funds also should be classified in a logical manner consistent with industry practices and standards. Emphasis should be placed on displaying a cost of sales/services amount and the appropriate display of operating and non-operating expenses.

**For Expenditure accounts the first character is always 5.**

The second digit refers to the "Expenditure type". The major expenditure types are as follows:

- 51000 Personnel Services—Compensation**
- 52000 Personnel Services—Employee Benefits**
- 53000 Purchased Professional and Technical Services**
- 54000 Purchased Property Services**
- 55000 Other Purchased Services**
- 56000 Supplies**
- 57000 Property**
- 58000 Debt Service and Miscellaneous**

The third digit generally functions as a header or description for the detail accounts to follow. The fourth and fifth digits allow for a further breakdown of the expenditure account.

*Note: Codes that are necessary for the NCES reporting are noted with an asterisk (\*) and are shaded. Following the description of the Expenditure Objects, a listing is provided of the required NCES reporting codes.*

## VII. PROGRAMS

### OVERVIEW

A program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives. Seven broad program areas are identified in this guide, which are intended to capture similar instructional services delivered to students in school districts and charter schools. The program classification provides school districts and charter schools with a framework to classify instructional and certain support services by program to determine costs.

Programs will be used for budgeting, posting and reporting actuals. Programs are only used with Functions 1000 (Instruction) and, to a limited degree, in 2100 (Support Services – Students). Use 0000 as a placeholder with all other functions. Programs are independent of the source of funds, and are intended to capture all of the costs related to a particular Program, regardless of source.

In the case where an expenditure fits into multiple programs, (i.e. Teacher's salary) you must pro rate the expenditure between program codes.

The major programs are as follows:

- 0000    None (Placeholder)**
- 1010    Regular Education**
- 1020    Elementary Fine Arts**
- 2000    Special Programs**
- 3000    Vocational and Technical Programs**
- 4010    Bilingual Programs**
- 4020    Alternative and At-Risk Programs**
- 9000    Co-Curricular and Extra-Curricular Activities**

The Fund/Sub-Fund is the **fourth** component in the UCOA structure.

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/XXXX	5
2	Function / Sub-Function	X/XXX	4
3	Object	X/XXXX	5
4	Program	XXXX	4
5	Location (District/School)	XXX/XXX	6
6	Job Classification	XXXX	4
7	Unspecified	XXXXX	5
8	Unspecified	XXXXX	5

A description of each of the Programs and the numbering methodology to be used is presented below.

## NUMBER, NAME, AND DESCRIPTION

### 0000 NONE

Placeholder in instances when no program applies. Used in Functions 2100 – 5000.

### 1010 REGULAR EDUCATION

Activities that provide students in pre-kindergarten<sup>2</sup> through grade 12 with learning experiences to prepare them for future education or training and for responsibilities as citizens, family members, and workers. Only use in Function 1000.

### 1020 ELEMENTARY FINE ARTS

Activities in an approved (by PED) Fine Arts Program application, such as visual arts, music, theater, and dance for elementary students. Some examples of such activities are athletics, student government, band, choir, clubs, and honor societies. Only used in Functions 1000 (Instruction) and 2100 (Support Services – Students).

## VIII. LOCATIONS

### OVERVIEW

The Location component represents a District and a School. The component is divided into two segments, the first three digits represent the District number and the fourth through sixth digits represent the School. A Location code is optional on all expenditure transactions beginning in Fiscal Year 08. As expenditure transactions are recorded, they will be charged directly to the applicable school site or vocational cost centers. Expenditures that are not charged to a specific site will be charged to a central district location. School Location codes are also optional with revenue accounts and only when budgeting is required for revenue that is restricted for a designated school site.

The Location is the **fifth** component in the Chart of Accounts structure.

Component	Description	Structure	Length
1	Fund / Sub-Fund	X/XXXX	5
2	Function	XXXX	4
3	Object	X/XXXX	5
4	Program	XXXX	4
<b>5</b>	<b>Location (District/ School)</b>	<b>XXX/ XXX</b>	<b>6</b>
6	Job Classification	XXXX	4
7	Unspecified	XXXXX	5
<b>8</b>	<b>Unspecified</b>	<b>XXXXX</b>	<b>5</b>

### NUMBER, NAME, AND DESCRIPTION

The codes for schools within a district must be the same as the State codes used in STARS reporting.

# I X. J O B C L A S S I F I C A T I O N S

## OVERVIEW
