

Order Form for Stone Carving Video

Stone Carving Made Easy: How to Carve Alabaster with Hand Tools, by Tim Sundell

This is an excellent resource for instructors to be able to learn tried and true teaching methods of carving stone and to also be able to present it to their students. The video covers where to buy materials and tools and methods from choosing a stone, designing an image, sawing and chiseling, smoothing with rasps and rifflers, to sanding and finishing. An added advantage is having student/film maker, Tim Sundell teaching his peers. The video is aimed at elementary as well as middle school and high school students.

To order, send a check with the order form below for \$22.00 (video plus shipping and handling) to:

Tim Sundell
5911 Ridge Rd.
