1/23/11-Sun.-8AM-Breakfast (Giamatti Center)-9AM-Clinic-New Rules; 12PM-Lunch and Dismissal

League Official:

Walk through a season with a typical Little League and learn the policies and procedures for league operation. Experience real concerns faced everyday with leagues and learn how to address and handle them. From promotion of registration to tournament time, this session provides valuable information to grow and manage your league. During this topic we will also address the Child Protection Program.

Safety Officer:

Review the step by step plan for a qualified safety plan to help make your league safer for everyone. A qualified safety plan enters your league into a drawing to be eligible to win a new set of athletic lights from Musco Lighting as well as a reduction to your insurance costs and a trip to the Little League World Series.

Player Agent:

This topic reviews the many important roles of the Player Agent. From assisting with registration to tryouts and drafts, this material provides great information for any board member. Trades, releases and options are thoroughly as well as tournament affidavit policies and responsibilities.
