Confidentiality Agreement

A good way to
remember
confidentiality:

*What you
see and
hear here,
stays here!*

HIPAA

What does HIPAA stand for?

Health Information Portability and Accountability Act

What does HIPAA mean?

*HIPAA is a federal regulation that promotes and ensures the confidentiality of patient and family information. It is a means of defining who is authorized to access **Protected Health Information (PHI)**, and families'/patients' rights to keep PHI from disclosure. It is required information that all staff and volunteers must be aware of.*

HIPAA

What does HIPAA mean for a volunteer?

A volunteer hears, sees, and possibly reads protected health information (PHI) in which diagnosis, demographic and family information, and care issues are detailed.

This information needs to stay with the volunteer. It is not to be shared with ANYONE else. This means your family, friends, and even other volunteers.

If you are working on a computer, access only the information you are asked to work on.

Do not forward any information via email outside of Children's.

Confidentiality & HIPAA

Who can I talk to about confidential information?

- ❖ Patient's nurse
- ❖ Child Life staff
- ❖ Volunteer Services

We want volunteers to feel comfortable sharing their experiences with people outside of the hospital. However, volunteers may not use any identifying information while doing so. Examples of identifying information would include a patient's name, age, room number, diagnosis, etc.

When working with children...

Please do not ask patients about the following confidential information:

- ❖ Their diagnosis
- ❖ Why they are in the hospital
- ❖ How long they have been here
- ❖ How often their family visits

Good topics for discussion:

- ❖ Pets/animals they like
- ❖ Games they like to play
- ❖ Favorite TV shows or movies
- ❖ Activities they like to do
