Dear Teacher/Educator:

The student that requested this letter of recommendation is a semi-finalist for admission to Thomas Jefferson High School for Science and Technology (TJHSST). TJHSST is a unique Fairfax County public school that was established "to provide an environment that will allow those [students] with the requisite skills and interest in mathematics, science, or technology to pursue higher levels of academic achievement in those areas in preparation for the pursuit of a mathematics, science, or technology focused profession."

(Fairfax County Public Schools Policy 3355.3) Please keep this policy in mind as you evaluate the applicant for purposes of admission to this specialized high school:

It shall be the policy of the Fairfax County School Board to operate a high school for science and technology for qualified [] students in order to provide increased educational opportunities for those who have demonstrated high achievement, aptitude, commitment, intellectual curiosity, and creativity in mathematics, science, and technology.

The School Board recognizes the importance of preparing future leaders in mathematics, science, and technology to address future complex societal and ethical issues. Diversity of the student body enhances the robust exchange of ideas and is an important factor in developing leaders who will be prepared to address future scientific and technological challenges. Diversity is broadly defined to include a wide variety of factors, such as race, ethnicity, gender, English for speakers of other languages (ESOL), geography, poverty, prior school and cultural experiences, and other unique skills and experiences. . . .
